(g) Whenever the December use factor, the allowance per person or the refreshment factor for a rationed food is changed, the base for that food of any institutional user affected by the change shall be recomputed when he next applies for his regular allotment. The recomputed base shall be treated as his base for all purposes. (In recomputing the bases for foods covered by Revised Ration Order 16, as of July 1, 1945, of Group III, IV and V users whose base month was after March 1943, and before July 1945, the usage is multiplied by 1.33 and the result is multiplied by sixty percent. The result is used in computing his base.)

15. Sections 7.7 (a) and 7.7 (b) are revoked, and section 7.7 (c) is redesignated section 7.7 (a).

16. Section 7.8 is revoked, and section 7.9 is redesignated section 7.8 and amended to read as follows:

SEC. 7.8 *Allotments for Group IV users who feed employees on board ships, boats, tugs and barges.* (a) A Group IV institutional user who operates an establishment on board ships, boats, tugs or barges is granted allotments of rationed foods on the basis of the number of persons to be fed there and the number of days the vessel will be in operation during the allotment period.

(b) A Group IV institutional user who operates more than one establishment most re-register separately each establishment or combination of establishments which qualifies under this section (so that the allotment can be used only for feeding the persons for whose benefit it is granted). Upon re-registration, any remaining excess inventory may be apportioned among those establishments, as he chooses.

(c) Application for allotments for those establishments shall be made to the District Office on OPA Form R-1334, and must state:

(1) The name and address of the applicant and the name of the vessel where the persons covered by the application will be fed;

(2) The number of days he expects to operate the establishment during the allotment period (partial days of operation shall not be counted as full days but one quarter of a day shall be counted for each six hours or fraction thereof of operation);

(3) The number of persons he expects to feed on each day of operation, counting each person fed only once per day;

(4) The percentage (by number) of bread, rolls, doughnuts and crullers, pies, cakes, and pastries to be served during the period that the applicant himself will bake; and

(5) The number of days he operated the establishment and the number of persons he fed per day during the preceding allotment period.

NOTE: A user who qualifies under this section, may, if he also qualifies under the provisions of Article XXVII, apply for an isolation allotment under that article. He may include the information required under those provisions when applying for allotments under this section.

(d) The District Office shall grant him an allotment for each rationed food, computed in the following way:

(1) The total number of meals to be served during the allotment period is multiplied by the allowance per person for that food, using the regular or baking allowance, depending on his baking percentage. (The number of meals is determined on the basis of four meals per person for each day he is fed; for partial days of operation, one meal is figured for each six hours or fraction thereof of operation);

(2) The result is the allotment for the period.

(e) If he finds that he has to feed more persons during the period than he estimated in his original application he may apply to the District Office for permission to correct his estimate, and for an additional allotment, on such basis, for the balance of the period. (A supplemental allotment under Article XI may not be granted for this purpose.)

(f) When he next applies for allotments, the District Office shall determine the allotment he would have been entitled to receive for the preceding period on the basis of his actual figures. If that amount is less than the amount he actually received, the difference shall be deducted from his next allotment.

17. Section 9.3 is amended by deleting the words "of processed foods or" from the first sentence of that section and by changing the word "Board" to the words "District Office" in that sentence.

20. Section 9.8 is revoked and section 9.9 is redesignated section 9.8 and amended to read as follows:

SEC. 9.8 *Recapture of surplus inventory, ration evidences and bank balances*—(a) *General.* Between March 6, 1945 and May 1, 1945, the Boards were required, with respect to each institutional user, to recapture surplus inventory, ration evidences and bank balances.

(b) *Sugar.* The total for sugar of items (1) to (4), inclusive, less item (5), reported under section 18.4 (a) was compared with the sum of the following:

(1) The combined meal service and refreshment allotments for sugar for the January–February 1945 period as computed prior to the reduction under former section 5.8;

(2) The original reserve allotment for that food;

(3) The amount of excess inventory, if any, charged against him for that food as of January 1, 1945.

If the total of items (1) to (4), inclusive, less item (5), reported under section 18.4 (a) exceeded the total of items (1) to (3), inclusive, listed in this paragraph, the difference was charged as excess inventory, in addition to any excess inventory already charged against him.

(c) *Foods covered by Revised Ration Order 16.* (1) The total for foods covered by Revised Ration Order 16 of items (1) to (4), inclusive, less item (5), reported under section 18.4 (a), plus the amount reported under section 18.5 (a), was compared with the sum of the following:

(i) Fifty percent (50%) of the combined meal service and refreshment allotment for foods covered by Revised Ration Order 16 for the January–February 1945 allotment period, as computed prior to the reduction under former section 5.7;

(ii) The original reserve allotment for those foods;

(iii) The amount of excess inventory, if any, charged against him for those foods, as of January 1, 1945.

(2) If the total of items (1) to (4), inclusive less item (5) reported under section 18.4 (a), plus the amount reported under section 18.5 (a), exceeded the total of items (1) to (3), inclusive, listed in this paragraph, the difference was charged as excess inventory, in addition to any excess inventory already charged against him.

(3) If the total of items (1) to (4), inclusive, less item (5) reported under section 18.4 (a), plus the amount reported under section 18.5 (a), was less than 10% of his combined meal service and refreshment allotments for the January–February 1945 allotment period for those foods, as computed prior to the reduction under former section 5.7, the Board issued to him a check (or reduced existing excess inventory) in an amount equal to the difference.

(d) *Seasonal and other users.* If an institutional user (other than a Group I user) did not receive allotments of rationed food for the January–February 1945 allotment period, the Board was required, for the purposes of this section, to use under paragraphs (b) (1), and (c) (1) (i) the amount of the last allotment for a full allotment period granted to him for each rationed food.

(e) *Adjustment for certain Group IV users.* A Group IV institutional user may apply for permission to repay, over a period not to exceed four allotment periods, excess inventory charges resulting from the recapture provisions contained in this section. The application must be made to the District Office, in writing, and must state:

(1) Whether public hardship will result if the applicant is not permitted to pay excess inventory charges, under this section, over several allotment periods;

(2) The reasons why he has expended his surplus inventories; and

(3) The terms of payment proposed by him.

The District Office shall send the application to the Regional Office. If the Regional Office finds that the denial of the application will result in public hardship and that there was no wilful intent to evade the obligation to repay the excess inventory under this section, it shall grant the applicant permission, in writing, to repay such charges in amounts, not less than 25% of his regular allotments, to enable him to continue operations. Such payments must be made in addition to any payments of excess inventory resulting from other causes.

The petition shall state the name and address of the petitioner, the nature of the relief he seeks, the grounds on which the relief is sought, and other relevant facts. The District Office may request any additional information it considers pertinent.

(b) The District Office may act upon the petition if authorized by the Washington Office to do so; in all other cases the District Office shall forward the petition together with all other material received to the Regional Office. The Regional Office may act upon the petition if authorized by the Washington Office to do so; in all other cases the Regional Office shall forward the petition to the Washington Office for appropriate action. The Washington Office may act on the petition in such manner as it may deem necessary or appropriate and thereafter return the file to the District Office. Petitioner at any time may be requested to furnish additional information and to appear personally.

29. Section 12.3 (a) is amended to read as follows:

SEC. 12.3 *Petitions for refreshment base and adjustment.* (a) A Group IV, V, or VI user may petition the District Office in writing for a refreshment base or for an adjustment of that base. He shall state facts showing that such relief is necessary to meet the nutritional needs of the persons fed or is necessary because of the nature of their work. He shall follow the procedure set out in section 12.2 (a). The District Office may grant a petition for a refreshment base or for an adjustment of a refreshment base if it finds that such relief is necessary to meet the nutritional needs of the persons fed or because of the nature of their work.

30. Section 12.4 is revoked and section 12.5 is redesignated Section 12.4 and amended to read as follows:

SEC. 12.4 *Petitions for adjustment of refreshment multiplier.* (a) An institutional user who has refreshment base may apply, in writing, to the District Office to have his refreshment allotments computed by using the multiplier by which his base was multiplied in computing his meal service allotment for the corresponding allotment period of the preceding year instead of the multiplier of 2 fixed in the supplement. No special form is needed for such application. Upon such application, the District Office shall compute his refreshment allotment for each allotment period beginning with the period in which he applies, by using, as his refreshment multiplier for each such period, the figure obtained under section 7.3 or section 7.6 whichever is applicable, by which his base was multiplied in computing his meal service allotment for the corresponding allotment period in the preceding year. If an applicant was not in operation during the corresponding allotment period in the preceding year, the District Office shall use the figure used in computing the allotment for the corresponding allotment period in the preceding year for a similar or comparable establishment.

31. Sections 13.1 and 13.2 are amended by changing "Board" to "District Office" wherever it appears in those sections.

32. Section 13.3 is amended to read as follows:

SEC. 13.3 *New establishments which are registering separately.* (a) A person who desires to operate a new Group III establishment in which a charge will be made for the meals served, or a Group IV, V or VI establishment, and who has no such establishment or who has two or more such establishments which have been registered separately, or who has only one such establishment and will register the new establishment separately, must apply to the District Office on OPA Form R–1307 (Revised) and give the information called for by Part I of that form.

(b) If the District Office is satisfied that the establishment will be a new Group III establishment at which a charge for meal service will be made, or a new Group IV, V or VI establishment, it shall give the applicant a meal service allotment for rationed foods (but none for refreshment services) for the thirty (30) days following the opening of the establishment.

(c) The amount of his allotment for each rationed food for the first thirty (30) days will be determined on the basis of allotments granted to comparable or similar establishments as follows:

(1) The base of the comparable establishment is divided by the number of meals served in that establishment's base month;

(2) The result is multiplied by the number of meals to be served during the proposed establishment's first thirty (30) days.

(d) The District Office shall then issue any ration evidences to which the applican may be entitled.

(e) At the end of the first thirty (30) days, he shall report to the District Office on OPA Form R–1307 (Revised), the information called for by Part II of that form. The District Office shall then compute a meal service base for each rationed food in the following way:

(1) The number of meals actually served is multiplied by the result arrived at in (c) (1) for each rationed food;

(2) His use of sugar is determined in pounds. His use of foods covered by Revised Ration Order 16, in points, is divided by the December use factor in paragraph (b) of Supplement 3, and the resulting figure multiplied by that factor;

(3) The lower of the figures obtained in (1) and (2) is his meal service base.

(f) The meal service allotment of each rationed food for the remainder of the allotment period following the first thirty (30) days shall be pro-rated on the basis of the number of days remaining in that allotment period. The allotment for the following allotment period shall be twice his base for each rationed food. The allotment for subsequent periods shall be computed in the same way as the allotments of other users.

(g) If the number of meals actually served in the first thirty (30) days is less than the number of meals that the District Office estimated he would serve, his next allotment shall be reduced by the difference between the amount of the allotment as granted by the District Office and the amount he would have been entitled to obtain on the basis of the number of meals actually served.

5. (a) The following dogs may, under the supervision of the Director, be taken up and impounded:

(c) On or before the date fixed by said notice, any person claiming to be the owner, harborer or keeper of such dog, or to have any interest therein, may apply to the Director for its release and the director shall thereupon fix a time and place for a hearing to be conducted by him in regard to such application. At the time of such hearing, the applicant shall be entitled to present evidence and to be heard in support of his application. After the conclusion of such hearing, the Director shall determine what disposition shall be made of the dog, and shall give notice of such determination to any person who has applied for its release, personally or by ordinary mail directed to such person at his last known address. The Director shall thereafter, but not sooner than three (3) days after giving of such notice, cause such determination to be made effective.

MILK IN WASHINGTON, D. C., MARKETING AREA

REVISED REPORT WITH RESPECT TO PROPOSED AMENDMENT

Revised report with respect to a proposed amendment to Order No. 45 regulating the handling of milk in the Washington, D. C., marketing area, which amendment would increase the price to be paid producers for milk disposed of for fluid consumption.

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp. 900.1 et seq.; 10 F.R. 11791) this revised report is made with respect to a proposed amendment to the order regulating the handling of milk in the Washington, D. C., marketing area.

The original report (10 F.R. 12013), of which this is a revision, was filed with the hearing clerk in the Solicitor's Office of the Department of Agriculture on September 19, 1945, and was published in the FEDERAL REGISTER on September 21, 1945, with 8 days thereafter allowed for filing exceptions thereto. The report contained a statement with respect to the conclusion that the increase of 49 cents per hundredweight in the Class I price should not be made at this time.

Exceptions were filed by the Maryland and Virginia Milk Producers' Association. These exceptions have been considered and it is concluded that no revision of the original report should be recommended.

This revised report filed at Washington, D. C., this 31st day of October, 1945.

§ 945.6 *Classification of milk*—(a) *Milk to be classified.* All milk, skim milk, cream, and milk products received by each handler in his producer milk plant shall be classified by the market administrator in the classes set forth in (b) of this section.

(b) *Classes of utilization.* Except as provided in (c) of this section, the classes of utilization shall be as follows:

(1) *Class I.* All milk, skim milk, cream, and milk products which are disposed of for fluid consumption as milk, skim milk, milk drinks, and buttermilk, and all milk not accounted for in Classes II and III.

(2) *Class II.* All milk, skim milk, cream, and milk products which are used in the manufacture of, or disposed of in, cottage cheese, pot cheese, or baker's cheese, and cream for fluid consumption.

(3) *Class III.* All milk, skim milk, cream, and milk products used in a producer milk plant as, or disposed of to a plant engaged in the wholesale manufacture of, ice cream and similar frozen dairy products and mixes therefor, butter, roller or spray nonfat dry milk solids, condensed milk, condensed skim milk, or cheese other than cottage, pot, or baker's cheese, and used as such.

(c) *Transfers of milk, skim milk, and cream.* (1) Milk and skim milk disposed of by a handler to a plant, other than a producer milk plant, outside the area from which milk was disposed of as Class I milk for fluid use outside the marketing area shall be classified as Class I, not to exceed the quantity of Class I milk at such plant, and cream disposed of by a handler to a plant outside the area from which milk or cream was disposed of for fluid use outside the marketing area shall be classified as Class II, not to exceed the quantity of Class II milk at such plant.

(2) Milk, skim milk, and cream transferred from one handler's producer milk plant to another handler's producer milk plant may be classified according to an agreement for use by such handlers: *Provided*, That an equivalent quantity of milk not otherwise classified was used by the receiving handler in the class use agreed upon, and in the absence of an agreement shall be classified in Class I: *And provided further*, If either or both handlers have purchased emergency milk the market administrator shall classify such transferred milk, skim milk, and cream so as to return to the producers at both plants the highest class utilization according to the rules for allocation of producer milk and emergency milk in § 945.6 (f) and (g).

(d) *Computation of milk in each class.* For each delivery period the market administrator shall correct for mathematical errors the report submitted by each handler and compute from the corrected report the amount of Class I milk, Class II milk, and Class III milk, as follows:

(1) Determine the total pounds of milk to be accounted for as follows: Add into one sum (i) the total pounds of milk received from producers and handler's own farm production and (ii) the total pounds of milk, skim milk, and cream received, and the total pounds of milk, skim milk, and cream received in the form of other milk products, (*a*) from emergency milk sources and (*b*) from other producer milk plants.

(2) Determine the total pounds of butterfat to be accounted for as follows: (i) multiply by its average butterfat test the weight of the milk received from producers and handler's own farm production, and (ii) multiply by its weighted average butterfat test the weight of the milk, skim milk, cream, and milk products received (*a*) from emergency milk sources, and (*b*) from other producer milk plants, and (iii) add the resulting amounts into one sum.

(3) Determine the total pounds of Class I milk as follows: (i) Convert to pounds the quantity of milk, skim milk, buttermilk and milk drinks disposed of for fluid consumption and (ii) add to this amount any plus amount computed as follows: (*a*) Compute the pounds of butterfat contained in the pounds of Class I milk by multiplying the weight of each product by its average butterfat test and adding together the resulting amounts, (*b*) add to this amount the pounds of butterfat in Class II milk and Class III milk, (c) subtract the total pounds of butterfat thus computed from the total pounds of butterfat received computed pursuant to (2) of this paragraph, and (*d*) divide the difference in butterfat pounds by the producer plant test.

(4) Determine the total pounds of Class II milk as follows: (i) Multiply the weight of the cream disposed of for fluid consumption and the cottage, pot, or baker's cheese each by its average butterfat test, add together the resulting amounts, and divide by the producer plant test; (ii) add to this amount any amount by which the total product pounds of cream disposed of for consumption as fluid cream and the pounds of cream and skim milk disposed of in cottage, pot, or baker's cheese exceeds the amount computed pursuant to (i) of this subparagraph; and (iii) subtract from the amount computed pursuant to (ii) of this subparagraph any amount by which that amount when added to the amount of Class I milk determined pursuant to (3) of this paragraph exceeds the total pounds of milk received computed pursuant to (1) of this paragraph.

(5) Determine the total pounds of Class III milk as follows: (i) Multiply the weight of each of the products of Class III milk by its average butterfat test, add together the resulting amounts, and divide by the producer plant test; (ii) add to this amount any amount by which the total product pounds of milk, skim milk, and cream disposed of in Class III products exceeds the amount computed pursuant to (i) of this subparagraph; and (iii) subtract from the amount computed pursuant to (ii) any amount by which that amount when added to the amount of Class I milk determined pursuant to (3) of this paragraph and Class II milk determined pursuant to (4) of this paragraph exceeds the total pounds of milk received computed pursuant to (1) of this paragraph.

(e) *Allocation of producer milk.* (1) Producer milk received by a handler shall first be allocated to Class I but not to exceed the Class I pounds as determined, pursuant to (d) (3) of this section, less the pounds of emergency milk allocated to Class I pursuant to the proviso in (f) of this section.

(2) Producer milk received by a handler in excess of such Class I utilization shall be allocated to Class II but not to exceed the Class II pounds as determined pursuant to (d) (4) of this section.

(3) Producer milk received by a handler in excess of Class I and Class II utilization shall be Class III.

(f) *Allocation of emergency milk.* Emergency milk received at a producer milk plant shall be allocated to Class III milk, except that emergency milk may be allocated to Class II milk to the extent that Class II use exceeds the amount of all producer milk less the amount of producer milk classified as Class I milk, and emergency milk may be allocated to Class I milk only to the extent that the total amount of Class I milk exceeds the total amount of producer milk received: *Provided*, That emergency milk purchased in the form of milk and disposed of to the armed services at delivery points more than 21 miles from the milestone in Washington, D. C., may be allocated to Class I milk, if the quantity of emergency milk allocated to such Class I sales does not exceed the quantity of such sales less the excess, if any, of producer milk receipts over the total of all Class II milk disposed of within the 21 mile area as described above and all other Class I milk.

(g) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification of any milk received at a producer milk plant, the burden rests upon the handler who received the milk directly from producers or from emergency sources to prove that it should not be classified as Class I.

§ 945.7 *Minimum prices*—(a) *Class prices.* Each handler shall pay not less than the following prices per hundredweight of 4 percent milk, subject to (b), (c), (d), (e), and (f) of § 945.10 for milk received from producers and associations of producers at a producer milk plant.

(1) *Class I.* The price for Class I milk shall be $4.05.

(2) *Class II.* The price for Class II milk shall be $3.55.

(3) *Class III.* The price for Class III milk shall be the sum of the respective values of butterfat and skim milk calculated as follows by the market administrator:

(i) *Butterfat.* Add all weekly quotations (using the midpoint of any weekly range as one quotation) per 40 quart can of 40 percent sweet cream approved for "Pennsylvania" and all such quotations for sweet cream approved for "Pennsylvania, Newark, and lower Merion Township" in the Philadelphia, Pennsylvania, market, as reported for each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract $1.00, divide by 33.48, multiply by 4.

(ii) *Skim milk.* The weighted average selling price, wholesale at manufacturers' plants, of all spray and roller dried nonfat milk solids for human consumption, as published by the United States Department of Agriculture for the previous month, shall be used in determining the skim value as follows:

Quotation per pound:	*Class III skim value*

$0.076 to $0.085	.15

$0.106 to $0.115	.37½
$0.116 to $0.125	.45

$0.166 to $0.175	.82½
$0.176 to $0.185	.90
$0.186 to $0.195	.97½

(b) *Emergency price provision.* Whenever the provisions hereof require the market administrator to use specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy or other similar payment, being made by any Federal agency, in connection with the milk, or product, associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any subsidy or other similar payment: *Providing further*, That if the specified price is not reported or published and there is no applicable uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

§ 945.8 *Application of provisions*—(a) *Handlers who are also producers.* No provision hereof shall apply to a handler whose only sources of milk supply are receipts from his own production or from other handlers, except that such handler shall make reports to the market administrator at such time, to such extent, and in such manner, as the market administrator may request and shall permit the market administrator to verify such reports.

§ 945.9 *Determination and announcement of uniform prices*—(a) *Computation and announcement for each handler of uniform prices to be paid producers.* On or before the 12th day after the end of each delivery period, the market administrator shall announce the Class III price and the uniform price per hundredweight of 4 percent milk to be paid producers by each handler for such delivery period. The market administrator shall compute the uniform prices of milk received from producers as follows:

(1) Multiply the hundredweight of milk received from producers that were allocated to each class by the prices applicable pursuant to § 945.7 (a);

(2) Add together the resulting amounts;

(3) Divide the result obtained by the total hundredweight of milk received from producers; and

(4) Subtract for each of the delivery periods of April, May, and June 30 cents per hundredweight and add for each of the delivery periods of September, October, and November the rate per hundredweight computed pursuant to § 945.10 (g) (3).

(b) *Announcement of other market information.* As soon after the 11th day after the end of each delivery period as such information becomes available, the following data shall be announced publicly by the market administrator:

(1) The total pounds of milk and the butterfat contained therein received from producers and the total pounds of such milk allocated to each class.

(2) The total pounds of emergency milk, itemized by products, received at producer milk plants and the butterfat contained therein.

(3) The total sales of handlers of each product named in §945.6, with the butterfat contained therein.

§ 945.10 *Payments for milk*—(a) *Time and method of payment.* On or before the 14th day after the end of each delivery period, each handler shall make payments, subject to other paragraphs of this section and subject to § 945.11 (b), for all milk received from producers during the delivery period at the prices announced pursuant to § 945.9 to each producer or association of producers: *Provided*, That payments due under this section to any producers who have given authority to a cooperative association to receive payment for their milk, shall be made to the cooperative association at the uniform price computed pursuant to § 945.9 (a) (1), (2), and (3), without the adjustment provided in (4) of § 945.9 (a).

(b) *Butterfat content of milk received from producers.* In making payments to each producer, pursuant to (a) of this section, each handler shall add to the price not less than, or subtract from the price not more than, as the case may be, for each one-tenth of 1 percent of butterfat content above or below 4 percent in milk received from such producer, 6 cents per hundredweight. The butterfat content of milk received from producers shall be determined by taking the average of not less than five separate butterfat tests made from fresh samples during each delivery period. The butter-

fat content of emergency milk shall be determined at the producer's milk plant where it is received. The market administrator may designate an independent laboratory to make these tests.

(c) *Location adjustments to producers.* (1) In making payments pursuant to (a) of this section, handlers may deduct 18 cents per hundredweight with respect to milk received from producers at a plant in which no milk is bottled or finally processed for distribution to consumers and which is located more than 35 miles from the milestone in the District of Columbia and 1½ cents additional for each 10 miles in excess of 35 miles from that milestone: *Provided*, That handlers may make such deduction on milk received at such plant by transfer of a truck route to such plant from another producer milk plant during the first four full delivery periods after such transfer, only if such milk was transferred from a plant at which a similar or greater deduction was permitted. If such milk was transferred from a plant at which no deduction or a smaller deduction was permitted, the smaller deduction, or no deduction, as the case may be, must be used in computing payments until four full delivery periods have elapsed from the time of transfer.

(2) In making payments pursuant to (a) of this section, a handler whose plant is located in that part of the marketing area which is within the State of Maryland, and for which plant he does not hold a permit to distribute milk in the District of Columbia or that part of the marketing area within the State of Virginia, may deduct 46 cents per hundredweight with respect to Class I milk received from producers.

(d) *Premiums to be paid by handlers.* (1) In making payments pursuant to (a) of this section, handlers shall pay the applicable premium rates set forth in this paragraph for each producer's deliveries on that quantity of milk received from each producer which represented such producer's proportionate share of all producer milk classified as Class I and Class II. The premium rates referred to in this paragraph shall be determined from the following schedule with respect to the cattle scores and farm scores recorded for each producer by the respective health departments requiring permits to sell milk to handlers in the marketing area:

Farm score	With cattle score under 95	With cattle score 95 or over, but under 98	With cattle score 98 or over
	Per cwt.	*Per cwt.*	*Per cwt.*
Under 80	$0.00	$0.00	$0.00
80.0-84.9	.00	.03	.09
85.0-89.9	.02	.08	.14
90.0-94.9	.08	.14	.20
95.0-97.9	.20	.26	.32
Over 97.9	.31	.37	.43

(2) If more than one score has been recorded during any month, the simple average of the scores so recorded shall be used. Producers who are subject to health department regulations which do not provide for cattle scores in their scoring system shall be considered as having a cattle score of 98 or over and the score given them by the health department shall be considered the farm score for the purpose of applying premiums under the above schedule.

(e) Any handler may make uniform payments to producers in addition to the minimum payments required by this section: *Provided*, That such additional payments, except payments made to producers supplying special milk to handlers for premium sales, are made to all producers supplying such handler with milk.

(f) Handlers may distribute the payments they are required to make to producers for milk received by them, on any uniform basis other than that specified above in this section, that is approved by the market administrator.

(g) *Payments to the seasonal-adjustment fund.* (1) On or before the 15th day after the end of each delivery period for April, May, and June, each handler, except handlers who have made payments to a cooperative association pursuant to the proviso in (a) of this section, shall pay to the market administrator for the account of the seasonal-adjustment fund an amount of money equal to $0.30 times the hundredweight of milk received from producers during the delivery period and cooperative associations which receive payments from handlers pursuant to the proviso in (a) of this section shall pay to the market administrator for the account of the seasonal-adjustment fund an amount of money equal to $0.30 times the hundredweight of milk delivered by the cooperative association to handlers during the delivery period for producers who have given authority to the cooperative association to receive payment for their milk.

(2) *Seasonal-adjustment fund.* The market administrator shall establish and maintain a separate fund known as the seasonal-adjustment fund into which he shall deposit all payments made by handlers or cooperative associations pursuant to § 945.10 (g) (1) and out of which he shall make all payments pursuant to § 945.10 (g) (3): *Provided*, That payments due any handler or cooperative association shall be offset by payments due from such handler or cooperative association.

(3) *Payments out of the seasonal-adjustment fund.* (i) On or before the 12th day after the end of the delivery periods of September, October, and November, the market administrator shall compute a seasonal adjustment fund rate as follows: divide one-third of the aggregate amount paid to the seasonal-adjustment fund pursuant to § 945.10 (g) (1) by the total hundredweight of producer milk delivered during the delivery period involved (September, October, or November).

(ii) On or before the 15th day after the end of the delivery periods of September, October, and November, the market administrator shall pay out of the seasonal-adjustment fund to each cooperative association an amount equal to the rate computed pursuant to (i) of this paragraph times the hundredweight of milk delivered to handlers during the delivery period by such association for producers who have given authority to such cooperative association to receive payment for their milk, and to each handler an amount equal to the rate computed pursuant to (i) of this paragraph times the hundredweight of milk received during the delivery period from producers other than those producers for whom a cooperative association receives payments pursuant to the proviso in paragraph (a) of this section.

(h) *Errors in payment.* Errors in making the payments prescribed in this section shall be corrected not later than the date for making payments next following the determination of such errors.

§ 945.11 *Expense of administration and marketing services*—(a) *Payments by handlers.* As his prorata share of the expense of the administration hereof, each handler shall pay to the market administrator on or before the 18th day after the end of each delivery period an amount equal to 2 cents per hundredweight with respect to all milk and cream received by him from all sources except other handlers' producer milk plants, or produced by him, during such delivery period, or such lesser amount, the exact amount to be determined by the market administrator subject to review by the Secretary. Each handler which is a cooperative association shall pay such prorata share of the expense of administration only on such milk and cream actually received at a producer milk plant operated by such cooperative association. If the market administrator designates an independent agency to determine the butterfat content of milk received by handlers from producers as permitted by § 945.10 (b), each handler shall pay to the market administrator an amount equal to one-half the cost of such tests of producer milk and the entire cost of such tests of emergency milk, the exact amount to be determined by the market administrator.

(b) *Marketing services.* If the market administrator designates an independent agency to determine the butterfat content of milk received by handlers from producers, as permitted under § 945.10 (b), each handler shall deduct from his payments to each producer an amount equal to one-half the cost per test, the exact amount to be determined by the market administrator, and shall pay such deduction to the market administrator on or before the 18th day after the end of each delivery period. Such monies shall be used by the market administrator to pay the independent laboratory for the verification of weighing, sampling, and testing of milk received from producers.

(c) *Suits by market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's pro rata share of expense as set forth in this section.

§ 945.12 *Emergency milk committee.* (a) At the application of handlers of more than 50 percent of the milk received from producers for sale in the marketing area, the Director of the Dairy Branch, Production and Marketing Administration, Department of Agriculture (hereinafter referred to as Director of Branch), may select a committee to be known as the "Emergency Milk Committee," all of whom may be selected from among the persons nominated in accordance with the procedure established by the Director of Branch. The market administrator shall be a member of such committee and may act as chairman thereof.

(b) *Duties.* The Emergency Milk Committee may supervise the purchase and allocation of emergency milk and cream among handlers desiring to purchase such milk and cream through one or more importing agencies, and shall make rules and regulations subject to the approval of the Director of Branch, with respect to such allocation of milk and cream and the distribution of the cost thereof.

§ 945.13 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to (b) of this section.

(b) *Suspension or termination.* The Secretary may suspend or terminate this amended order or any provision hereof whenever he finds that this amended order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This amended order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* (1) If, upon the suspension or termination of any or all provisions hereof, there are obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(2) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary; (ii) from time to time account for all receipts and disbursements, and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and (iii) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 945.14 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States or name any bureau or division of the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions hereof.

§ 945.15 *Liability.* The liability of handlers hereunder is several and not joint and no handler shall be liable for the default of any other handler.

Issued at Washington, D. C., this 26th day of October 1945, to be effective on and after the 3d day of November 1945.

Secretary of Agriculture.

PART 968—MILK IN THE WICHITA, KANSAS, MARKETING AREA

AMENDMENT OF ORDER REGULATING HANDLING

§ 968.0 *Findings and determinations*—(a) *Findings.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and marketing orders (7 CFR Cum. Supp., 900.1 et seq.), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement and to the order regulating the handling of milk in the Wichita, Kansas, marketing area. Upon the basis of the evidence introduced in such hearing and the record thereof, it is hereby found that:

(1) The order regulating the handling of milk in the said marketing area, as hereby amended, and all of the terms and conditions of said order, as hereby amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the said order are such prices as will reflect the aforesaid factors, insure a sufficient supply of pure and wholesome milk and be in the public interest; and

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in the said tentatively approved marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order) of at least 50 percent of the volume of milk which is marketed within the said marketing area refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign such tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means pursuant to the declared policy of the act to advance the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved by at least two-thirds of the producers who participated in a referendum on the question of the approval of the order and who during the month of July 1945 (which month has been determined to be a representative period) were engaged in the production of milk for sale in the said marketing area.

It is hereby ordered, That from and after the effective date hereof, the handling of milk in the Witchita, Kansas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended in the following respects:

1. Delete § 968.1 (b) and substitute therefor the following:

(b) "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

2. Delete the term "War Food Administrator" wherever appearing and substitute therefor the term "Secretary."

3. Delete § 968.1 (e) and substitute therefor the following:

(e) "Producer" means any person, irrespective of whether such person is also a handler, who, in conformity with the applicable health regulations of the city of Wichita, Kansas, produces milk which is received at the plant of a handler from which milk is disposed of as Class I milk or as Class II milk in the marketing area. This definition shall include any person who, in conformity with the applicable health regulations of the city of Wichita, Kansas, produces milk which a cooperative association, or other handler, causes to be delivered to a plant from which no milk is disposed of in the marketing area.

4. Delete § 968.3 (a) and substitute therefor the following:

(a) *Basis of classification.* All milk and milk products purchased or received by each handler, including milk of a producer which is caused to be delivered to a plant from which no milk is disposed of as Class I or Class II milk within the marketing area, shall be reported by the handler in the classes set forth in (b) of this section: *Provided*, That (1) milk sold or disposed of as milk or cream by a handler to a nonhandler who distributes fluid milk and cream shall be classified by the market administrator as follows: (i) determine the classification of all milk received by such nonhandler and (ii) allocate the milk or cream disposed of by a handler to such nonhandler to the highest use classification remaining after subtracting, in series beginning with the highest use classification, the receipts of milk by such nonhandler direct from dairy farmers; (2) milk sold or disposed of as fluid milk by a handler who purchases or receives milk from producers to another handler shall be classified as Class I milk: *Provided*, That if such milk, except milk sold or disposed of by such handler to another handler who purchases or receives no milk from producers, is reported by the receiving handler or by the disposing handler as having been utilized as Class II milk or Class III milk, such milk shall be classified accordingly, subject to verification by the market administrator; (3) cream sold or disposed of as fluid cream by a handler who purchases or receives milk from producers to another handler shall be classified as Class II milk: *Provided*, That if such cream, except cream sold or disposed of by such handler to another handler who purchases or receives no milk from producers, is reported by the receiving handler or by the disposing handler as having been utilized as Class III milk, such cream shall be classified accordingly, subject to verification by the market administrator; and (4) milk or cream sold or disposed of by a handler who receives no milk from producers to another handler who receives milk from producers shall be classified in the lowest use classification of the purchasing handler.

5. In § 968.3 (b) (3) (ii) delete the words "from producers" and add the following phrase: "except receipts from other handlers."

6. In § 968.3 (d) (5) (ii) delete the words "from producers" and insert in lieu thereof the following phrase: "except receipts from other handlers."

7. Delete § 968.4 and substitute therefor the following:

§ 968.4 *Minimum prices*—(a) *Class prices.* Each handler shall pay at the time and in the manner set forth in § 968.8 not less than the prices set forth in this section per hundredweight of milk received during each delivery period from producers:

(1) *Class I milk.* The price per hundredweight shall be the price determined pursuant to (b) of this section, plus 80 cents.

(2) *Class II milk.* The price per hundredweight shall be the price determined pursuant to (b) of this section, plus 55 cents.

(3) *Class III milk.* The price per hundredweight shall be the average of the prices paid during each delivery period for ungraded milk containing 3.8 percent butterfat at the following plants now operated by the listed companies: at Wichita and Anthony, Kansas, by the DeCoursey Cream Company; at Blackwell, Oklahoma, by the Blackwell Cheese Company; and at Arkansas City, Kansas, by the Steffens Ice and Ice Cream Company, but in no event shall the price be less than that paid at the plant at Wichita, Kansas, operated by the DeCoursey Cream Company.

(b) *Basic formula price to be used in determining Class I and Class II prices.* The basic formula price to be used in determining the Class I and Class II prices set forth in (a) of this section, shall be the average of the basic or field prices ascertained to have been paid for milk of 3.5 percent butterfat content received during the immediately preceding delivery period at the following places for which prices are reported to the market administrator by the listed companies or by the United States Department of Agriculture (or by such other Federal agency as may be authorized to perform this price reporting function):

divided by 3.5 and multiplied by 3.8 but in no event shall such basic price be less than the following: multiply by 3.8 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) for the immediately preceding delivery period, and add 20 percent: *Provided*, That such price shall be subject to the following adjustments: (1) add 3½ cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids for human consumption is above 5½ cents per pound or (2) subtract 3½ cents per hundredweight for each full one-half cent that the price of such nonfat dry milk solids is below 5½ cents per pound. For purposes of determining this adjustment, the price of nonfat dry milk solids to be used shall be the average of the carlot prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) for the Chicago area during the immediately preceding delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such nonfat dry milk solids for the previous delivery period. In the event the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) does not publish carlot prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plant, the average of the carlot prices for nonfat dry milk solids for human consumption, delivered at Chicago, shall be used. (c) *Emergency provisions.* (1) Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy or other similar payments being made in connection with the milk or product associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

(2) Whenever the Secretary finds and announces that the Class I and Class II prices computed for any delivery period pursuant to (a) of this section are not in the public interest, the Class I and Class II prices for such delivery period shall be the same as the Class I and Class II prices for the previous delivery period.

8. In § 968.5 (a) delete the word "5th" and substitute therefor the word "7th."

9. In § 968.7 (b) (8) delete the word "8th" and substitute therefor the word "10th."

15. Add to § 968.9 (c) the following:

(6) For purposes of this section only, the term "producer" shall include any person who has been a producer as defined in § 968.1 (e), but whom the Wichita Board of Health has suspended temporarily for failure to produce milk in conformity with the applicable health regulations of the city of Wichita, Kansas.

PART 1351—FOOD AND FOOD PRODUCTS

[RMPR 289,[1] Amdt. 39]

DAIRY PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 20 (m) is added to read as follows:

(m) *Specific additions to applicable maximum prices for certain sales of butter—*(1) *Sales by persons who own 1,000 pounds or less of butter on October 31, 1945.* Any person who owns 1,000 pounds or less of butter at the close of business on October 31, 1945 may add five cents per pound to the applicable maximum prices established by preceding paragraphs (a) to (l), inclusive, of this section 20 for sales of butter by him.

(2) *Sales by persons who own more than 1,000 pounds of butter on October 31, 1945.* Any person who owns more than 1,000 pounds of butter at the close of business on October 31, 1945 may increase the applicable maximum prices established by preceding paragraphs (a) to (l) inclusive of this section 20 for sales of butter by him if, and after, he complies with all of the following conditions:

He must file (by registered mail) with the Secretary of the Office of Price Administration in Washington, D. C., an affidavit stating the total number of pounds of butter owned by him (wherever located) at the close of business on October 31, 1945. This affidavit, which must set forth the following calculations, must also be accompanied by a check or money order payable to the Treasurer of the United States of America in an amount figured as follows:

(i) He must determine the total number of pounds of butter he owns at the opening of business on the date of the affidavit;

(ii) He may then subtract the number of pounds purchased by him between the opening of business on November 1, 1945 and the opening of business on the date of the affidavit from a supplier who was entitled to charge, and did charge, him the full five cents per pound increase to the applicable maximum prices for butter in effect on October 31, 1945 permitted under the provisions of this section 20 (m).

(iii) If he is a creamery or manufacturer of butter, he may further subtract the number of pounds of butter manufactured by him during the month of October 1945 upon which he did not, and will not, apply for the subsidy or upon which, if he has so applied, he has withdrawn his application prior to his receipt of the subsidy payment;

(iv) He must then multiply this difference by five cents and subtract $50.00.

(v) The result of this computation is the amount owed to the United States Treasurer and is the amount of the check or money order payable to the Treasurer of the United States of America which must be mailed to the Secretary of the Office of Price Administration in Washington, D. C. If no amount is shown to be due, no payment need be made.

Upon the mailing of the affidavit showing the information required, accompanied by the check or money order payable to the Treasurer of the United States of America, if one is due, in a registered envelope properly addressed to the Secretary of the Office of Price Administration in Washington, D. C., any person owning more than 1000 pounds of butter on October 31, 1945 may automatically increase his applicable maximum prices established by preceding paragraphs (a) to (l) of this section 20 for sales of butter by five cents per pound: *Provided, however,* That if a creamery or manufacturer of butter has based his computations in determining the amount due the United States Treasury upon non-receipt of the butter subsidy for butter manufactured by him during the month of October, 1945 he must return to the Reconstruction Finance Corporation any subsidy payment he subsequently receives for butter which he manufactured during that month.

(3) *Sales of butter by the U. S. Government.* Notwithstanding any other provision of this section 20, the maximum price for the sale of butter by the United States Government or any of its agencies to a creamery or manufacturer of butter or to a primary distributor shall be the maximum price, determined under preceding paragraphs (a) to (l), inclusive, for the sale of such butter by creameries to primary distributors, plus five cents per pound; and the maximum price for the sale of butter by the United States Government or any of its agencies to any other person shall be the maximum price, determined under preceding paragraphs (a) to (l), inclusive, for sales of butter by creameries to primary distributors, plus five and one-half cents per pound.

(4) *Prohibitions against evasions.* The additions to the applicable maximum prices for the sale of butter permitted by this section 20 (m) shall apply only when all the conditions set forth have been fully satisfied; in no other case may any person sell butter at a maximum price in excess of the applicable maximum price established by paragraphs (a) to (l), inclusive, of this section 20.

No person, other than one owning 1000 pounds or less of butter at the close of business on October 31, 1945, who, on or after November 1, 1945, acquires 1000 pounds or more of butter at a price not in excess of the maximum price in effect for such sale on October 31, 1945 may sell at a maximum price in excess of that in effect on October 31, 1945 unless and until he files (by registered mail) the affidavit and pays the amount due the United States Government in accordance with the provisions of subparagraph (2) of this section 20 (m). Until such time, he must sell at no more than the maximum prices applicable to him on October 31, 1945.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicles

[Emergency Order M-6]

PART 176—TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE OR FOREIGN COMMERCE

EMERGENCY EMPLOYMENT OF ONE MOTOR COMMON CARRIER BY ANOTHER FOR THE TRANSPORTATION OF HOUSEHOLD GOODS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 31st day of October, A. D. 1945.

The Commission, Division 3, having under consideration a petition of the American Trucking Associations, Inc., and the Household Goods Conference of the American Trucking Associations; and

It appearing, that an extraordinary demand for the transportation of household goods from national defense areas and other areas has created an urgent need for the full use of motor carrier facilities for the transportation of household goods;

And it further appearing, that such full use of motor carrier facilities would be aided by authorizing motor common carriers which have contracted to transport household goods by motor vehicle from and to points served by them to employ other motor common carriers to perform the transportation in whole or in part; therefore: It is ordered, that:

§ 176.10 *Employment of one motor common carrier by another.* (a) Unless the shipper directs otherwise, a motor common carrier which has entered into a bill of lading contract to transport household goods by motor vehicle to a point it is authorized to serve may employ another motor common carrier to perform the transportation service in whole or in part; *Provided*, That the motor common carrier so employed has a certificate of public convenience and necessity authorizing it to perform the service for which it is employed.

(b) *Tariff rates, charges, and rules.* The tariff rates, charges, rules, and regulations to be applied on shipments transported as authorized in the next preceding paragraph shall be those in effect over the lines of the bill of lading carrier.

(c) *Condition precedent.* Before a common carrier of household goods by motor vehicle may avail itself of the authority conferred in this order it must have on file in each of its tariffs containing rates, charges, rules, and regulations applying to the transportation of household goods locally over its lines a rule providing as follows:

Unless otherwise directed by the shipper, shipments of household goods originating on the lines of any carrier party to this tariff and consigned to a point served by it, at the option of the originating carrier, will be transported by other motor common carriers authorized to perform the service, and the rates, charges, rules, and regulations to be applied in connection with shipments so

transported are those applicable over the liens of the originating carrier.

NOTE: This rule is published on one day's notice under authority of Emergency Order No. M-6 of the Interstate Commerce Commission and will expire December 31, 1945.

It is further ordered, that this order will expire December 31, 1945, unless otherwise ordered.

And it is further ordered, that a copy of this order be served on each common carrier of household goods by motor vehicle and that notice of this order be given to the general public by posting a copy of it in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Division of the Federal Register.

By the Commission, Division 3.

Notices

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6781]

NEW YORK METROPOLITAN DISTRICT

ASSIGNMENT OF FM FREQUENCIES TO EXISTING FM LICENSEES

This proceeding arose as a result of the Commission's action of September 12, 1945, allocating frequencies to the existing FM licensees and permittees and providing that licensees could file objections with the Commission concerning their assignment. Only three objections to the frequencies assigned were filed and all three of these related to New York assignments. These objections were filed by Columbia Broadcasting System, National Broadcasting Company, and Bamberger Broadcasting Service, respectively. A hearing was requested and was held October 15, 1945.

At the hearing Columbia Broadcasting System presented a proposed plan for allocating frequencies in Area I which differed from that proposed by the Commission. The claim was made that under this new proposal, it would be possible to have about 10 stations in New York City with approximately the same coverage and that the average coverage of FM metropolitan stations outside of New York City would be greater under the CBS proposal than under the Commission's proposal.

The Commission has carefully examined the CBS proposal and supporting data. It appears from this examination that under the CBS proposal more of the channels assignable to New York will have approximately the same coverage than is possible under the Commission's proposal but as a result some of the channels assigned to other cities will have a somewhat smaller service area beyond the 1000 uv/m contour. The claim that the average coverage of FM stations outside of New York would be increased is not borne out by the data. On the basis of all the data, it appears that there is no material difference between the Commission's proposal and that of CBS so far as average coverage of FM stations in Area I is concerned. However, it should be noted that the CBS proposal does have some advantages over the Commission proposal so far as interference within the 1000 uv/m is concerned. Under the CBS proposal there are only three instances where interference will occur within the 1000 uv/m contour whereas under the Commission's proposal there are nine such instances.

In view of the foregoing, the Commission has determined to adopt the CBS proposal as the basis for allocating FM metropolitan stations in Area I. It should be pointed out that the proposal will not be followed in any hard and fast manner by the Commission but is published as a guide to people interested in FM as to the general manner in which the Commission expects to license FM stations in Area I.

At the hearing on October 15, an applicant for a new station in the New York area appeared and objected to the granting of frequencies to existing FM stations. Two points were made. In the first place, it was urged that no frequencies be assigned at this time to existing stations but that such stations should be required to compete with all other applicants for the 20 frequencies which are available in New York. However, it should be noted that existing licensees do stand on a different footing from applicants. Had the Commission determined not to move FM higher in the spectrum, no question would be raised with respect to the license status of present licensees. The fact that in order to minimize skywave interference the Commission moved the whole FM band to a position higher in the spectrum has no impact upon the status of existing licensees and permittees.

The second point raised was that the best assignments should not be given to the existing licensees but that applicants as well as existing licensees should be entitled to compete for them. The answer to this is that under the Commission's rules and regulations all of the New York stations will have opportunity for equal coverage within the 1000 uv/m contour and this is the only contour that is protected in Area I by the Commission's rules. Moreover, while some of the channels do appear to have a theoretical superiority so far as coverage beyond 1000 uv/m contour is concerned, this is only temporary at the best until more stations are licensed and may disappear even before then. The evidence at the hearing indicated that all calculations were based on the assumption that each station would be operated with effective power of 20 kilowatts and an antenna height of 500 feet and that the antenna would be located as near the center of the city as possible. Deviation in any one of these factors by stations on the same or adjacent channel might change the theoretical superiority. Finally, not all of the theoretically best channels have been assigned in New York to existing stations. Some of the existing licensees in indicating their preference have been assigned channels which are not the theoretically best in New York City. Hence, a representative number of the theoretically best channels is available in the New York City area for the new applicants.

As a result of the Commission's action in adopting the CBS proposal as a basis for allocation in Area I, some changes have been necessary in the assignments to existing stations and permittees. The new assignments are listed below in Table I. In Table II, there are shown the channels which are available for assignments in the various cities of Area I, or in nearby cities, according to the CBS proposal as adopted by the Commission.

PRESS WIRELESS, INC., AND WESTERN UNION TELEGRAPH CO.

ORDER INSTITUTING AN INVESTIGATION AND SETTING HEARING DATE

In the matter of increased charges for deferred press telegraph communications between New York, N. Y., and France and Germany.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of October 1945;

It appearing, that Press Wireless, Inc., and The Western Union Telegraph Company have filed with the Commission revised tariff schedules effective October 28 and November 9, 1945, respectively, stating new increased charges for deferred press telegraph messages between New York, N. Y., on the one hand, and France and Germany, on the other; said tariff schedules being designated as follows:

Press Wireless, Inc.: Tariff F. C. C. No. 16, 6th Revised Page 46 (eee), 1st Revised Page 46 (eee2).

The Western Union Telegraph Company: Tariff F. C. C. No. 180, 3rd Revised Page 62, 2nd Revised Page 63.

It further appearing, that said tariff schedules state increased charges for press telegraph communications in interstate and foreign commerce; that the rights and interests of the public, and particularly those of users of press service, may be injuriously affected thereby; and it being the opinion of the Commission that the effective date of such schedules, insofar as they provide for increased charges for telegraph communications between New York, N. Y., on the one hand, and France and Germany, on the other, should be postponed pending hearing and decision on the lawfulness of such increased charges;

It is ordered, That the Commission, upon its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the charges contained in the above-cited tariff schedules, insofar as they relate to press telegraph communications between New York, N. Y., and France and Germany;

It is further ordered, That the operation of the above-cited tariff schedules, insofar as they provide for increased charges for and in connection with telegraph communications be suspended; that the use of the charges therein stated be deferred until January 28, 1946, unless otherwise ordered by the Commission; and that during said period of suspension no changes shall be made in such charges or in the charges sought to be altered, unless authorized by special permission of the Commission;

It is further ordered, That an investigation be, and the same is hereby instituted, into the lawfulness of the rates, charges, classifications, regulations, practices, and services of Press Wireless, Inc., and The Western Union Telegraph Company, for and in connection with press telegraph communication service between the United States, on the one hand, and France and Germany, on the other;

It is further ordered, That in the event a decision as to the lawfulness of the charges herein suspended has not been made during the suspension period and said charges have gone into effect, all of the carriers subject to the Commission's jurisdiction participating in the services provided under the tariff provisions herein suspended, shall, until further order of the Commission, each keep accurate account of all amounts charged, collected or received by reason of any increase in charges effected thereby; that each such carrier shall specify in such accounts by whom and in whose behalf such amounts are paid; and each such carrier shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing February 10, 1946, showing the amounts accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order be filed in the offices of the Commission with said tariff schedules herein suspended; that all carriers subject to the Commission's jurisdiction which are parties to such tariff schedules be, and they are hereby each made a party respondent to this proceeding; and that copies hereof be served upon each such party respondent;

It is further ordered, That this proceeding be, and the same is hereby assigned for hearing on the 16th day of November, 1945, beginning at 10:00 a. m. at the offices of the Federal Communications Commission in Washington, D. C.

[Max. Import Price Reg., Order 104]

ENGLISH BONE CHINA AND EARTHENWARE

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 21 of the Maximum Import Price Regulation, it is ordered:

(a) *What this order does.* This order establishes maximum prices at which importers may sell, and maximum prices at which wholesalers and retailers may purchase and sell, English Bone China and Earthenware. The maximum prices established herein constitute adjustments of maximum prices established by section 8 of the Maximum Import Price Regulation but are expressed in terms of permitted increases over prices prevailing in March 1942 for the reason that these commodities have almost without exception continued to be sold at March 1942 prices.

(b) *Maximum prices for importers.* The maximum price at which any importer may sell or deliver and at which any person may buy or receive from such importer any English Bone China or Earthenware shall be the maximum price at which such importer delivered or offered for delivery the same commodity to the same class of purchaser during March 1942 plus an adjustment charge of 3% in the case of English Bone China and 5% in the case of English Earthenware: *Provided, however,* That any importer making such additional adjustment shall show the amount thereof on his invoice, separately designated as an "OPA adjustment charge", as an addition to his March 1942 maximum price applicable to the particular class of purchaser.

(c) *Maximum prices for wholesalers.* The maximum price at which any wholesaler may sell or deliver and at which any person may buy or receive from such wholesaler any English Bone China or Earthenware shall be the maximum price at which such wholesaler delivered or offered for delivery the same commodity to the same class of purchaser in March 1942 plus the amount of any "OPA adjustment charge" separately designated and charged on his supplier's invoice and paid by such wholesaler: *Provided, however,* That any wholesaler making such additional adjustment charge shall show the amount thereof on his invoice, separately designated as an "OPA adjustment charge", as an addition to his March 1942 maximum price applicable to the particular class of purchaser.

(d) *Maximum prices for retailers.* The maximum price at which any retailer may sell or deliver and at which any person in the course of trade or business may buy or receive from such retailer any English Bone China or Earthenware shall be the maximum price at which such retailer delivered or offered for delivery the same commodity in March 1942 or, if such retailer did not sell or offer for sale the same commodity during March 1942, his maximum price shall be twice the price invoiced by his supplier as the latter's March 1942 price without inclusion of the separately designated "OPA adjustment charge".

(e) *Maximum prices upon application.* The maximum price at which any person may sell or deliver and at which any person in the course of trade or business may buy or receive from such seller any English Bone China or Earthenware for which such seller is unable to compute his maximum price under one of the above paragraphs shall be established for him by the Office of Price Administration in line with the level of maximum prices otherwise established herein. Application for such maximum price shall be submitted by letter to the Office of Export-Import, Office of Price Administration, Washington, D. C., and shall disclose the nature of the seller and the proposed class of purchaser as importer, wholesaler or retailer, the name of the supplier, the description of the commodity, the price paid therefor, and the proposed selling price. The commodity may not be offered for sale until a maximum price therefor has been thus established.

(f) *Statements on invoices to retailers.* Any person making a sale or delivery to a retailer at a total price which includes an "OPA adjustment charge" shall include on his invoice the following statement:

Our price for this merchandise includes an "OPA adjustment charge" which we have separately designated in addition to our March 1942 ceiling price. Order No. 104 issued under the Maximum Import Price Regulation requires that you absorb this adjustment charge and continue to sell each item at your March 1942 selling or offering price or, if you did not deliver or offer for delivery the same item in March 1942, at a price not exceeding twice the amount of our March 1942 price without inclusion of the "OPA adjustment charge".

(g) *Discounts, credit terms and transportation charges.* Each seller shall apply to the maximum prices established by this order the same discounts, credit terms and practices relating to the payment of freight charges which he used during March 1942 on sales of English Bone China or Earthenware.

(h) *Brokers or agents commissions.* The maximum prices established by this order include and may not be increased by any commission paid to any broker or to any buying or selling agent.

(i) *Application of the Maximum Import Price Regulation.* Unless the context otherwise requires, the provisions of the Maximum Import Price Regulation, as amended, shall apply to sales for which maximum prices are established by this order.

(j) *Less than maximum prices.* Lower prices than those established by this order may be charged, demanded, paid or offered.

(k) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective October 31, 1945.

Issued this 31st day of October 1945.

CHESTER BOWLES,
Administrator.

Order rescinding order and permitting withdrawal of amended plan; notice of filing and notice of and order for hearing on amended plans filed pursuant to section 11 (f) of the act and notice of and order reconvening hearings.

I. Thos. W. Delzell and R. L. Clark, Independent Trustees of Portland Electric Power Company ("PEPCO"), a registered holding company, now in reorganization under Chapter X of the Federal Bankruptcy Act, as amended, in the District Court of the United States for the District of Oregon, having, on September 3, 1942, filed an application for approval of a plan of reorganization for PEPCO, pursuant to section 11 (f) of the Public Utility Holding Company Act of 1935, and thereafter Guaranty Trust Company of New York ("Guaranty"), as Indenture Trustee under the Indenture securing the 6% Collateral Trust Income Bonds of PEPCO, a committee representing certain bondholders and a committee representing certain prior preference stockholders having thereafter filed separate plans of reorganization for PEPCO; and

Hearings having been held on said plans after appropriate notice, and the Commission having, on July 1, 1944, issued its findings, opinion and order denying approval to said plans and having in its findings and opinion made suggestions as to the form of plan which the Commission might find to be fair and equitable and otherwise in conformity with the applicable statutory standards (Holding Company Act Release No. 5132); and

Guaranty having on August 28, 1944 and October 20, 1944 filed amended plans of reorganization for PEPCO purporting to conform to the Commission's findings and opinion of July 1, 1944; and

The amended plan filed on October 20, 1944 having contained, among other things, certain provisions relating to litigation between PEPCO and its subsidiary, Portland General Electric Company ("PGE") and The Chase National Bank of the City of New York; and

Hearings having been held on said amended plan filed on August 28, 1944 and opportunity for hearing and for the filing of briefs and objections with respect to the amended plan filed on October 20, 1944 having been given; and

The Commission having on December 7, 1944 issued its findings, opinion and order approving the amended plan filed by Guaranty on October 20, 1944 for submission to the District Court of the United States for the District of Oregon subject to certain reservations of jurisdiction (Holding Company Act Release No. 5470); and

Subsequent to said order of the Commission dated December 7, 1944, the District Court of the United States for the District of Oregon having approved the terms of a proposed settlement of litigation between PEPCO and PGE and The Chase National Bank of the City of New York and Harris Trust & Savings Bank; and

Guaranty having filed a request for rescission of the Commission's order herein of December 7, 1944, and for withdrawal of its second amended plan filed herein on October 20, 1944; and

It appearing to the Commission that it is appropriate that its order herein of December 7, 1944 be rescinded and that the second amended plan of Guaranty filed herein on October 20, 1944 be withdrawn;

It is ordered, That the order of the Commission herein dated December 7, 1944, be, and the same is hereby, rescinded as of this date.

It is further ordered, That the second amended plan of Guaranty Trust Company of New York filed herein on October 20, 1944 be, and the same is hereby, permitted to be withdrawn, without prejudice, however, to the availability and competency of the evidence adduced in connection with such plan, insofar as it may be relevant and material to the issues now before the Commission.

II. Notice is hereby given that Thos. W. Delzell and R. L. Clark, Independent Trustees of PEPCO, have now filed amended plans of reorganization pursuant to section 11 (f) of the act designated as Amended Plan of Reorganization, First Alternative Amended Plan of Reorganization and Second Alternative Amended Plan of Reorganization.

Trustees' amended plan. The amended plan of reorganization for PEPCO filed by the Trustees contains the following provisions:

1. It is proposed that PEPCO will continue in existence and will issue approximately 1,000,000 shares of new common stock, all without par value, in lieu of all of its existing prior preference stock and first preferred stock, and all accumulated and unpaid dividends thereon, and of all of its second preferred and common stock. The new common stock will be authorized by an amendment to the company's Articles of Incorporation and the holders of the new common stock will have the right of cumulative voting at all elections of directors.

2. PGE will issue approximately 763,000 shares, all without par value, of additional common stock, to correspond to the number of shares to be issued by PEPCO, without however, any increase in its total capital stock liability, all of which stock will be held by PEPCO until such time as PGE merges with PEPCO as hereinafter provided.

3. PGE will, as of the effective date of this plan and prior to the distribution of the securities provided for herein, (a) transfer to PEPCO $93,000 principal amount of 1934 bonds, as a dividend; (b) pay to PEPCO a further dividend in cash of not less than $725,000, subject to reduction by any amount of regular dividend paid by PGE to PEPCO in the year 1945.

4. PGE will, prior to the consummation of this plan, sell its 13,000 shares of second preferred stock and 1,300 shares of common stock of Seattle Gas Company.

5. PEPCO will, subsequent to the effective date of the plan, acquire the assets of PGE by dissolution or liquidation of PGE, or by consolidation or merger of PGE with PEPCO, and PEPCO will assume the liabilities of PGE. Said transfer of assets or consolidation to be effected as of January 1, 1943, or with the approval of the Court may be accomplished sooner.

6. PEPCO will endeavor to dispose of its interurban railway properties, and if this is not accomplished prior to the merger with PGE, then PEPCO will convey this property, together with the Center Street Shops and Carhouses, if necessary, to a new corporation, the capital stock of which will be distributed to PEPCO stockholders as a liquidating dividend.

7. Portland Traction Company ("Traction") will issue approximately 500,000 shares of new common stock, all without par value, in lieu of its 131,131 shares of presently outstanding common stock.

8. Traction will, as of the effective date of the plan, pay a special dividend of not less than $875,000 in cash to PEPCO, which dividend will be in addition to any regular dividend which Traction may pay or may have paid prior to the effective date of the plan, after which the securities of Traction will be distributed as hereinafter provided.

9. Cazadero Real Estate Company ("Cazadero"), will upon the effective date of the plan, (a) pay PEPCO $172,000 in reduction of its indebtedness; (b) transfer to PEPCO $54,600 principal amount of PEPCO's bonds held by it and PEPCO will reduce Cazadero's indebtedness by said amount, plus accrued interest thereon; (c) transfer to PEPCO 25$^{39}/_{60}$ shares of preferred stock of PEPCO held by it for the sum of $1,082.35, the book cost to Cazadero and PEPCO will credit Cazadero in a like amount.

10. PEPCO will forgive $235,000 of its non-current accounts receivable from Cazadero as a capital contribution.

11. PEPCO will hold the outstanding shares of common stock of Cazadero until such time as it is liquidated and dissolved.

12. The assets, if any, of the Little White Salmon Land Company will be transferred to PEPCO and the said Little White Salmon Land Company will be dissolved.

13. The treatment proposed to be accorded the present security holders of PEPCO is as follows:

(a) The holders of the 1934 bonds will receive in full satisfaction for each $1,000 bond and accrued interest thereon:

$200 in cash.
40.33 shares of PEPCO new common stock.
20.16 shares of Traction new common stock.

(b) The holders of the 1937 bonds will receive in full satisfaction for each $1,000 bond and accrued interest thereon:

$200 in cash.
34.60 shares of PEPCO new common stock.
17.30 shares of Traction new common stock.

and the holders of the 1937 bonds for each $500 and $100 bond will receive a proportionate amount of cash and said securities.

(c) The holders of Prior Preference Stock will receive in full satisfaction for each share of such stock and all accrued unpaid dividends thereon:

4.20 shares of PEPCO new common stock.
2.10 shares of Traction new common stock.

(d) The holders of First Preferred Stock will receive in full satisfaction for each share of such stock and all accrued and unpaid dividends thereon:

0.90 shares of PEPCO new common stock.
0.45 shares of Traction new common stock.

(e) The plan gives no recognition to the holders of Second Preferred Stock and Common Stock, and provides for the cancellation of such stocks.

(f) It is stated that, if prior to the consummation of the plan, the claim of any holder of bonds or of Prior Preference Stock or First Preferred Stock is subordinated, or if the amount of claim is reduced, by order of the Court, the distribution that otherwise would have been made to such holder will be disposed of in accordance with an order of the Court.

(g) No certificate for fractions of a share of either PEPCO's or Traction's common stock will be issued to holders of bonds or preferred stocks, but in lieu thereof scrip certificates will be issued by PEPCO and Traction, respectively, which shall be calculated to the nearest 1/10 of a share. Such scrip certificates will entitle the holder to exchange the same, together with other scrip, for full share certificates, and will be non-dividend paying and non-voting, and on such other terms and conditions as may be approved by the Court.

(h) All bonds held by PGE and Cazadero will be transferred to PEPCO and upon the consummation of the plan, PEPCO will cancel all bonds held by it.

(i) The plan states that if the Court determines the values of PEPCO's and Traction's new common stock respectively, to be materially different from the values set forth above, then the allocation to the foregoing security holders will be adjusted accordingly.

14. The plan states that the assets of PEPCO are insufficient to make any provision for holders of Second Preferred Stock or Common Stock of PEPCO; that such holders have no equity in the assets and are not affected by the plan; that the plan gives adequate protection for the realization by the holders of Prior Preference Stock and First Preferred Stock of the values of their respective equities; and that accordingly, if the plan by order of the Court is submitted to any class of stockholders for acceptance, and if the plan is not accepted by the requisite number of such holders, pursuant to section 179 of the Bankruptcy Act, the plan may nevertheless be confirmed by the Court.

15. All creditors of PEPCO, other than bondholders, will be paid in full.

16. All expenses in connection with the plan and its consummation and all costs of administration and other allowances, in such amounts as shall be approved by the Court, will be paid from cash in hands of the Trustees of PEPCO reserved for that purpose.

17. Consummation of the plan will be under the supervision of the Court, which may construe the plan and may cure any defect, supply any omission or reconcile any inconsistency.

Trustees' first alternative amended plan. The provisions of the first alternative plan differ from the provisions of the amended plan in that it is proposed that PEPCO will sell and Traction will acquire, as of the effective date of the plan, the Interurban Railway Properties and Center Street Shops for a cash consideration of $1,250,000. In addition, Traction will issue approximately 600,000 shares of new common stock, all without par value, in lieu of its 131,131 shares of presently outstanding common stock, without, however, any increase in its total stock liability.

The treatment proposed to be accorded the present security holders of PEPCO is as follows:

(a) The holders of the 1934 bonds will receive in full satisfaction for each $1,000 bond and accrued interest thereon:

$220.00 in cash.
40.60 shares of PEPCO new common stock.
24.40 shares of Traction new common stock.

(b) The holders of the 1937 bonds will receive in full satisfaction for each $1,000 bond and accrued interest thereon:

$220.00 in cash.
34.80 shares of PEPCO new common stock.
20.80 shares of Traction new common stock.

and the holders of the 1937 bonds for each $500 and $100 bond will receive a proportionate amount of cash and said securities.

(c) The holders of Prior Preference Stock will receive in full satisfaction for each share of such stock and all accrued and unpaid dividends thereon:

4.25 shares of PEPCO new common stock.
2.60 shares of Traction new common stock.

(d) The holders of the First Preferred Stock will receive in full satisfaction for each share of such stock and all accrued and unpaid dividends thereon:

0.84 shares of PEPCO new common stock.
0.50 shares of Traction new common stock.

Trustees' second alternative amended plan. The provisions of the second alternative plan differ from the provisions of the amended plan in that Traction will issue approximately 469,000 shares of additional common stock, all without par value, without, however, any increase in its total capital stock liability. Also, PEPCO will sell and Traction will acquire, as of the effective date of the plan, the Interurban Railway Properties and Center Street Shops for a cash consideration of $1,250,000. In addition, Cazadero will transfer to PEPCO in further reduction of its indebtedness any remaining cash which it may have, and then all of its remaining assets (estimated to have a liquidating value of $185,000) will be transferred to PGE as a capital contribution from PEPCO. Cazadero will thereupon be dissolved. It is further proposed that upon consummation of the above transactions, PEPCO will be dissolved.

The treatment proposed to be accorded the present security holders is as follows:

(a) The holders of the 1934 bonds will receive in full satisfaction for each $1,000 bond and accrued interest thereon:

$220 in cash.
41.50 shares of PGE common stock.
25.00 shares of Traction common stock.

(b) The holders of the 1937 bonds will receive in full satisfaction for each $1,000 bond and accrued interest thereon:

$220 in cash,
35.50 shares of PGE common stock.
21.30 shares of Traction common stock,

and the holders of 1937 bonds for each $500 and $100 bond, respectively, will receive a proportionate amount of cash and said securities.

(c) The holders of Prior Preference Stock will receive in full satisfaction for each share of such stock and all accrued and unpaid dividends thereon:

5.33 shares of PGE common stock.
3.20 shares of Traction common stock.

(d) The holders of First Preferred Stock will receive in full satisfaction for each share of such stock and all accrued and unpaid dividends thereon:

0.23 shares of PGE common stock.
0.125 shares of Traction common stock.

Guaranty's revised plan. Guaranty's revised plan provides for the distribution of PEPCO's assets to its security holders, the dissolution of PEPCO and certain other transactions, all of which are set forth below:

1. The Certificate of Incorporation of Traction will be amended so as to provide for the reclassification of its presently outstanding shares of common stock into the number of shares necessary to carry out the provisions of the plan, without any increase in its total capital stock liability.

2. PEPCO will transfer to Traction, as a contribution, the Interurban Railway properties. Traction will assume all of the obligations of PEPCO and the Independent Trustees. Such transfer is to be made as of such date as the Court may direct.

3. The Certificate of Incorporation of PGE will be amended so as to provide for the reclassification of its presently outstanding common stock into the number of shares necessary to carry out the provisions of the plan without any increase in its total capital stock liability.

4. PEPCO will transfer to PGE, as a contribution, all of its assets for which no express provision is made in the plan with respect to payment, distribution or transfer thereof, after reserving an amount sufficient to pay administration expenses and other allowances.

5. Scrip for fractional shares will be non-dividend paying and non-voting and will be on such other terms and conditions as may be approved by the Court and the Commission.

6. The plan provides that the following treatment be accorded the present security holders of PEPCO:

(a) Holders of 1934 bonds will receive in full satisfaction for each $1,000 bond and accrued interest thereon:

$75 in cash.
56 shares of PGE new common stock.
37 shares of Traction new common stock.

(b) Holders of 1937 bonds will receive in full satisfaction for each $1,000 bond and accrued interest thereon, and a proportionate amount with respect to a principal amount of less than $1,000:

$65 in cash.
49 shares of PGE new common stock.
32 shares of Traction new common stock.

(c) Holders of prior preference stock will receive in full satisfaction for each share of such stock and all accrued and unpaid dividends thereon:

3 shares of PGE new common stock.
2 shares of Traction new common stock.

(d) The plan gives no recognition to the holders of first preferred stock, second preferred stock and common stock and provides for the cancellation of such stocks.

(e) The plan states that, if prior to the consummation of the plan, the claim of any holder of bonds or prior preference stock is subordinated, by order of court, to the claim of other security holders, the cash and securities that would be distributed to such holder will be disposed of as the Court may direct.

(f) Bonds held by PEPCO and its subsidiaries, PGE and Cazadero, will, upon consummation of the plan, be cancelled, and the holders of such bonds will not participate.

7. All allowed claims of creditors against PEPCO and the Trustees will be paid in full in cash.

8. All costs and expenses of administration, including reorganization expenses, which may be approved by the Court, will be paid in cash by the Trustees or by PEPCO, as the Court may direct.

9. Consummation of the plan will be under the supervision of the Court and the form of all documents to be executed or issued in connection with the plan will be approved by the Court and Commission. Also, the Court may construe the plan and may cure any defect, supply any omission or reconcile any inconsistency.

10. It is stated that if the plan is not accepted by the requisite number of holders of bonds and by the holders of preferred stock, adequate protection for the realization of the values of their respective claims and equities will be provided in the order confirming the plan.

11. The plan provides that members of the board of directors of PGE and Traction, respectively, as of the effective date of the plan, will remain in office until they or their successors are elected at a regular or special meeting of stockholders to be held subsequent to not less than 60 days nor more than 180 days following the first issuance under the plan of certificates for the respective shares of such corporation. Any stock of PGE and Traction held by any exchange agent will not be voted at any regular or special meeting of stockholders. Each director will be entitled to hold for qualification purposes one or more shares of stock of the corporation of which he is director.

Guaranty requests that the order of the Commission approving the above revised plan of reorganization contain the recitals and other provisions necessary to bring the transactions within the provisions of sections 371 and 1808 (f) of the Internal Revenue Code, as amended.

III. It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to the amended plans submitted by the Trustees and with respect to the revised plan filed by Guaranty or any other plan which may be proposed by any person having a bona fide interest in the reorganization (and with respect to any amendments thereof), in accordance with the provisions of section 11 (f) of the act;

AMERICAN POWER & LIGHT CO. ET AL.

ORDER GRANTING APPLICATIONS AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of October, A. D., 1945.

In the matter of American Power & Light Company, Texas Utilities Company, File No. 70-1134; American Power & Light Company, Texas Utilities Company and Electric Power & Light Corporation, File No. 70-1135; Electric Bond and Share Company, American Power & Light Company, National Power & Light Company, et al., respondents, File No. 59-12.

American Power & Light Company ("American"), and Electric Power & Light Corporation ("Electric"), registered holding company subsidiaries of Electric Bond and Share Company, also a registered holding company, and American's subsidiary, Texas Utilities Company ("Texas Utilities"), having filed joint declarations and applications and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 and having designated sections 6 (a), 7, 9 (a), 10, 12 (d), and 12 (f) and Rules U-43, U-44 and U-45 thereunder as being applicable to the following transactions:

1. American proposes to transfer to Texas Utilities, a new Texas Corporation organized by American, the common stocks of Texas Power & Light Company ("Texas Power") and Texas Electric

Service Company ("Texas Electric") held by American consisting of 2,500,000 shares (all) of the common stock of Texas Power, 1,704,950 shares (all but 50) of the common stock of Texas Electric, together with options to purchase the said 50 shares of common stock of Texas Electric, and $17,400,000 in cash in exchange for 2,000,000 shares of the no par common stock of Texas Utilities.

2. Texas Utilities proposes, pursuant to a purchase and sale agreement entered into between American and Electric prior to the organization of Texas Utilities, to purchase 248,433 shares (91%) of the no par value common stock of Dallas Power & Light Company ("Dallas") owned by Electric, for a cash purchase price of $17,350,000 ($69.84 per share). Texas Utilities will offer to purchase, at an equivalent price per share, the shares of common stock of Dallas held by others than Electric.

American having unconditionally agreed and stipulated, among other things, that if the Commission enters an order or orders granting the applications and permitting the declarations to become effective, American will within one year from the date of said order or orders (unless the Commission extends such time) sever its relations with Texas Utilities and with Texas Power and Texas Electric and Dallas, which are to be subsidiaries of Texas Utilities, and irrevocably and finally dispose of all its interest, direct or indirect, therein, either by distribution among American's stockholders or by sale, or otherwise, in a manner found by the Commission to be appropriate; and

Texas Utilities having joined in such stipulation and agreement and having undertaken to perform any acts on its part which may be necessary or appropriate to carry out the terms thereof; and

American, Electric, and Texas Utilities having requested that the Commission enter an order in accordance with the requirements of Section 1808 (f) of the Internal Revenue Code and Supplement R thereto, to the effect that the delivery by American of the shares of common stock of Texas Power, and Texas Electric and the payment of $17,400,000 to Texas Utilities in exchange for the shares of the common stock of Texas Utilities and the issuance and exchange of such shares of common stock by Texas Utilities, and the sale and transfer by Electric to Texas Utilities of the shares of the common stock of Dallas for $17,350,000 in cash are necessary or appropriate to the integration or simplification of the holding company systems of which Electric and American are members and are necessary or appropriate to effectuate the provisions of section 11 (b) of the act; and

A public hearing having been held after appropriate notice and the Commission having considered the facts and made and filed its opinion herein;

It is ordered, That the joint declarations and applications of American and Texas Utilities and of American and Electric, as amended, be, and they are hereby, granted and permitted to become effective, respectively, forthwith subject to the terms and conditions of the above-mentioned stipulation which is set forth in full in our findings and opinion herein.

In addition to the said stipulation, this order is subject to the terms and conditions prescribed by Rule U-24 and the following further conditions:

(1) That at the time American divests itself of its interests in Texas Utilities, pursuant to the aforementioned stipulation and our order herein, it shall forthwith effect a complete severance of control of Texas Utilities and its subsidiaries, including the termination of all interlocking officerships and directorships between Texas Utilities (and its subsidiaries) and American and other companies in the Electric Bond and Share system and any other relationships, contracts or other arrangements which may aid in the retention of controlling influence.

(2) That the charter of Texas Utilities be amended forthwith to provide for cumulative voting rights for the common stock.

(3) That Texas Utilities undertake to make the necessary adjustments in the carrying value of its investments in Texas Power and Texas Electric to reflect such adjustments as may be required in the accounts of Texas Power and Texas Electric after the filing and review by the Commission of the original cost studies which are being prepared by these companies with respect to their properties.

It is further ordered, That jurisdiction be, and hereby is, specifically reserved with respect to the steps which may be necessary to ensure compliance with condition (1) set forth above and to ensure compliance by American and Texas Utilities with the aforementioned stipulation. Jurisdiction is also reserved with respect to the fees and expenses incurred and to be incurred in connection with the proposed transactions.

It is further ordered, That the delivery by American of 2,500,000 shares of the common stock of Texas Power and 1,704,950 shares of the common stock of Texas Electric and options to purchase 50 shares of such common stock and the payment of $17,400,000 in exchange for 2,000,000 shares of the common stock of Texas Utilities and the issuance and exchange of such 2,000,000 shares by Texas Utilities, and the sale and transfer by Electric and the purchase by Texas Utilities of 248,433 shares of the common stock of Dallas for $17,350,000 are necessary or appropriate to the integration or simplification of the holding company systems of which Electric and American are members and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

STATEMENT CLARIFYING PREFERENCE ON SHIPMENTS OF COAL PRODUCED IN DISTRICT 8 MOVING VIA THE GREAT LAKES

On September 14, 1945, SFAW issued a Notice of Direction to Shippers of Coal Produced in Districts 2, 7 or 8 Moving Via the Great Lakes (10 F.R. 11884) which, among other things, required shippers of coal produced in District 8 to accord a first preference to shipments pursuant to commitments for coal moving via the Great Lakes to any dock or other unloading facility except those located on: Lake Erie, Lake Ontario, the Welland Canal, and the St. Lawrence River; and Lake Michigan within the States of Illinois and Indiana. As was indicated in the Statement Concerning Preference Shipments on Bituminous Coal, issued October 18, 1945 (10 F.R. 13103), shipments of coal to these points were to be accorded a fourth preference.

The distribution pattern for coal produced in District 8 was subsequently modified by the notice of direction to all shippers of coal produced in District 8, issued October 24, 1945 (10 F.R. 13306) which prohibited the shipment of any such coal via the Great Lakes (except for vessel fuel use) to any person at any point located on: Lake Erie, Lake Ontario, west of and including Toronto; the Welland Canal; the Detroit River; the St. Clair River; Lake St. Clair; Lake Michigan, within the States of Illinois and Indiana. Some question has arisen as to the obligations of shippers to meet commitments for coal moving to docks or other unloading facilities located on Lake Ontario, east of Toronto and on the St. Lawrence River.

Shippers of coal produced in District 8 are not only permitted to fill commitments for such coal moving via the Great Lakes to any person at any point located on Lake Ontario, east of Toronto, or on the St. Lawrence River, but are required to accord a first preference to such shipments to the same extent as the first preference is accorded to other lake commitments pursuant to the Notice of Direction and Statement referred to above.

This statement is applicable only to shipments of coal produced in District 8 and does not relate to shipments of coal produced in other districts.

Issued this 1st day of November 1945.

C. J. POTTER,
Deputy Solid Fuels Administrator for War.

The term also means any finished product or part thereof made in whole or in part from rubber or synthetic rubber which through wear, deterioration or obsolescence has served its purpose in its present state.

The term does not include (1) a pneumatic tire or tire casing which can be made serviceable under present limited operating conditions for a use for which it was designed, by means of a temporary or permanent repair or by retreading or recapping in accordance with recognized commercial practice, provided, that pneumatic tires designated by the United States Army as "C-2" tires or designated by the United States Navy as "A" tires, and sold under the warranty that they will be used only as scrap, are designated for the purpose of this Rubber Order as scrap and may only be used as such; (2) any other product which is still usable for a primary purpose for which it was designed; (3) any residual piece of uncured tire cord friction (cord end) which is of sufficient size to be usable as new material in the manufacture of tire patches or in the repair of tires.

Chlorinated natural rubber may be used for bonding natural rubber to metal in the manufacture of products listed in Table B of Appendix I below for which the use of natural rubber is specifically permitted. Such usage must be within the maximum percentage specified or the ceiling limits applicable to the end product named. All applications for permission to consume chlorinated natural rubber for such purpose and for any other purpose must be made on Form WPB-3662 in accordance with the instructions accompanying the form.

Butyl plant clean-up material. Any person may consume Butyl plant clean-up material in the manufacture of any product listed in Appendix I to Rubber Order R-1 as amended, without specific authorization from the War Production Board.

§ 4600.03 *Permitted uses.* No person shall use natural rubber, natural rubber latex, butyl or chlorinated natural rubber, except as provided for in Tables A and B of Appendix I, subject to the applicable manufacturing regulations of this order.

PURCHASE PROCEDURE

§ 4600.04 *Purchase requests for natural rubber, natural rubber latex, butyl or chlorinated natural rubber.* (a) Purchase requests for natural rubber, natural rubber latex and butyl must be made on Form WPB-3682 in accordance with instructions accompanying the form. Purchase requests for all types of Government-manufactured synthetic rubber, except butyl, should be made to the Sales Division, Office of Rubber Reserve, Reconstruction Finance Corporation, Washington 25, D. (b) *Preference ratings.* Natural rubber, natural rubber latex, butyl and chlorinated natural rubber may be sold and delivered without regard to any preference ratings. Any preference rating purporting to be applied or extended to orders for such materials shall be void and of no effect and must be disregarded.

DELIVERIES, INVENTORIES AND IMPORTATION

§ 4600.05 *Restrictions on deliveries of materials.* No person shall deliver any natural rubber, natural rubber latex, butyl or chlorinated natural rubber except as specifically authorized by the War Production Board or as permitted by regulations of the Office of Rubber Reserve. Delivery of these raw materials will be authorized only for uses permitted by Table A and for products specified in Table B both of Appendix I below; delivery of all other raw rubber materials shall be subject only to the inventory restrictions contained in § 4600.06, below; the poundage authorized will take into account the consumption capacity of the applicant and his reports of actual consumption received monthly on Form WPB-3410; in no event will the amounts authorized exceed the inventory restrictions specified in § 4600.06, below. Nothing contained in this section shall be deemed to prohibit:

(a) Delivery of natural rubber, natural rubber latex, butyl or chlorinated natural rubber from one location to another location controlled by the same person where no change of ownership takes place, or by any corporation to another corporation which is its subsidiary or of which it is a subsidiary.

(b) Delivery of reclaimed rubber or any type of synthetic rubber, except butyl. Transfers of these materials must, however, be reported as shipments or receipts on Form WPB-3410 for the calendar month in which the transactions occur.

(c) Any person from accepting delivery from another of natural rubber, natural rubber latex, butyl or chlorinated natural rubber, for the purpose of milling, washing, deresinating, drying, compounding, or conditioning the same, or for processing or manufacturing products therefrom, and thereafter returning the same or the products thereof to such other person.

§ 4600.06 *Restrictions on inventories of materials.* No person, other than the Office of Rubber Reserve, shall accept delivery of any of the following materials, if his inventory is or will by virtue of such acceptance become in excess of an amount reasonably necessary to meet his requirements for the period designated below:

	Days

Excess inventories shall be subject to redistribution by voluntary action, or if necessary, through requisitioning by the War Production Board. If a holder has an excess inventory, he may ask for the assistance of the Rubber Bureau, War Production Board, in its disposal.

A person engaged in the business of reclaiming rubber or manufacturing aqueous dispersions of reclaimed rubber may, however, maintain such inventories of scrap, and of reclaimed rubber of his own manufactured grades, as he deems advisable. A person other than the Office of Rubber Reserve engaged in the manufacture of chlorinated rubbers and synthetic rubbers may maintain such inventories of synthetic rubber of his own manufactured types as he may deem advisable. These exceptions may be made notwithstanding the provisions of this § 4600.06 or of Priorities Regulation No. 32, as amended.

§ 4600.07 *Restrictions on importation of materials.* No person shall import any natural rubber, natural rubber latex, or any finished or semi-finished product of which 10% or more by weight is composed of natural rubber or natural rubber latex, except as permitted under this section.

APPENDIX I—GENERAL PERMITTED USES OF RAW MATERIALS AND PERMITTED PRODUCTS

Appendix I to Rubber Order R–1 establishes general permitted uses for natural rubber, natural rubber latex, chlorinated natural rubber and butyl, and also lists the products which are permitted to be made from those raw materials.

Table A below lists the general permitted uses for each of these materials and the monthly consumption, if any, permitted for experimental use without prior authorization.

Table B below deals with specific products in which the use of these raw materials is permitted under the general provisions of Table A. It refers, for certain products, to the applicable manufacturing regulations set out in Appendix II to the Rubber Order (printed separately), specifies the percentage of natural rubber, if any, which may be used in the product, as well as the product for which "Tube Butyl" or "Non-Tube Butyl" may be used, and finally, for many of the products on the table special regulations or provisions are provided.

TABLE A—GENERAL PERMITTED USES OF MATERIALS

Type of material	General permitted uses subject to applicable end product restrictions	Monthly consumption for experimental use without specific authorization
Natural rubber or natural rubber latex.	In the manufacture of products listed in Table B below for which natural rubber or natural rubber latex is specifically permitted, subject to any applicable manufacturing regulations or restrictions in the table and as authorized on Form WPB–3662.	25 lbs.
Butyl (GR–I, dispersions).	In the manufacture of products listed in Table B below for which butyl is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only as authorized on Form WPB–3662.	200 lbs., dispersions 250 lbs.
Chlorinated natural rubber.	As specifically authorized on Form WPB–3662.	None.

[1] Experimentation need not be confined to permitted uses, but none of the products made may be sold. Materials in the amounts indicated may be diverted from inventory or from purchase for manufacturing operations. If manufacturer does not have sufficient inventory of natural rubber or natural rubber latex, application for purchase of these materials should be made on Form WPB–3662. To purchase butyl rubbers, make applications to Sales Division, Office of Rubber Reserve, Reconstruction Finance Corp., Washington 25, D. C.

For permission to consume materials for experimental use in excess of amounts listed, make application on Form WPB–2242, in accordance with § 4600.14 of this order.

TABLE B—PERMITTED PRODUCTS

NOTE: Table B amended in its entirety Nov. 2, 1945.

For general permitted uses of material in the manufacture of products, see Table A above. In applying on Form WPB–3662 for those types of material which are subject to prior authorization, use this appendix in accordance with the instructions accompanying the form. The applicant's natural rubber, natural rubber latex, or butyl requirements for each code number listed below, must show the specific quantity of material requested for each subdivision of the code.

Form WPB–3662 should not be used in applying for permission to consume any material for a purpose which is not permitted by Appendix I.

Monthly consumption of natural rubber, natural rubber latex or butyl, will be permitted on the basis of uses shown in this appendix, but only to the extent that material and manufacturing facilities are available after requirements for Army, Navy, Maritime Commission and other essential orders have been fulfilled.

Explanation of Table B Columns and Symbols—

The column headed "Appendix II" refers to applicable regulations in Appendix II to R–1, (printed separately) by the list number under which it will be found. The second column shows to what extent natural rubber and/or natural rubber latex authorized on Form WPB–3662 may be used in the manufacture of particular products. The third column shows to what extent Tube Butyl or Non-Tube Butyl authorized on Form WPB–3662 may be used in the manufacture of particular products.

The natural rubber and butyl columns are blank when applicable regulations in Appendix II or special restrictions in the last column limit the use of these materials.

"O" indicates that the use of the material is prohibited, subject to any special restrictions or provisions applicable to the particular product.

"X" indicates that the material may be consumed in the minimum quantities required by a manufacturer who has received authorization to consume on Form WPB–3662, subject to any special restrictions or provisions applicable to the particular product.

Percentage figures indicate maximum percent of total volume of compound, unless otherwise specified.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[RMPR 169,[1] Amdt. 61]

BEEF AND VEAL CARCASSES AND WHOLESALE CUTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 169 is amended in the following respects:

1. Section 1364.407 (a) is amended to read as follows:

(a) Every person making a sale and every person in the course of trade or business making a purchase of any beef carcass, beef wholesale cut, veal carcass or veal wholesale cut or other meat item subject to this revised regulation, shall make and preserve for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each such sale or purchase, showing the date thereof, the name and address of the buyer and seller, the quantity, type of cut or item, grade or grades and the weight of all beef carcasses, beef wholesale cuts, veal carcasses and veal wholesale cuts or other meat items subject to this revised regulation sold or purchased and the price charged or received or paid therefor.

2. Section 1364.451 (a) (4) is amended to read as follows:

(4) Except as permitted in § 1364.417 and in paragraph (l), (m), (n), (o), (p), (q), (r) or (s) of Schedule I (§ 1364.452), regardless of any contract, agreement or other obligation, no person shall sell or deliver any beef or any part or portion of any beef carcass and no person in the course of trade or business shall buy or receive any beef or any part or portion of any beef carcass unless such beef or part or portion is a beef carcass or a beef wholesale cut as defined in § 1364.455 for which an applicable zone price has been established.

3. Paragraph (s) is added to § 1364.452 to read as follows:

(s) *Production and sale of prefabricated quick frozen and packaged retail beef cuts.* (1) Any person, other than a hotel supply house, is authorized to engage in the production of prefabricated quick frozen and packaged retail beef cuts as defined herein, for sale and delivery to any retail store or stores and may charge and receive no higher than the maximum price therefor as determined in the manner provided in paragraph (s) (3) hereof: *Provided*, That as a condition for such authorization, (i) the seller shall produce prefabricated quick frozen and packaged retail beef cuts in accordance with the specifications and requirements contained in paragraph (s) (2) hereof, and (ii) the seller shall sell and deliver prefabricated quick frozen and packaged retail beef cuts to those retail stores only which are properly equipped with such facilities as are necessary to maintain such cuts in a solid frozen condition.

(2) Prefabricated quick frozen and packaged retail beef cuts, as used in this paragraph (s) means beef steaks, roasts and ground beef derived from beef carcasses or wholesale cuts of Choice (AA), Good (A) or Commercial (B) grades, which are described and given dollar-and-cents ceiling prices under Maximum Price Regulation No. 355; which are separately wrapped in a transparent moisture proof paper, thoroughly frozen at quick freezing temperatures and have clearly visible a tag or other marking showing the name of the cut and the net weight of the meat contained in the package. In addition, § 4002.2 (c) (5) of Office of Economic Stabilization Regulation No. 1, "Grading and Grade Labelling of Meats," requires that any person who sells and delivers prefabricated quick frozen and packaged retail beef cuts pursuant to this paragraph (s) shall have clearly visible a tag or other marking showing the grade of meat contained in the package. No package of ground beef produced pursuant to this paragraph (s) shall exceed 2 pounds in net weight.

(3) The maximum delivered price per hundredweight for each grade and type of prefabricated quick frozen and packaged retail beef cut shall be determined as follows:

(i) The seller shall first determine an amount equal to 75 percent of the retail ceiling price (Group 1 and 2 stores) for the corresponding grade and type of fresh retail cut applicable in the retail zone area (described in Maximum Price Regulation No. 355) in which the buyer's store is located. In determining this figure, the retail ceiling price shall first be converted to a per hundredweight basis and the result shall be rounded to the nearest 25 cents per hundredweight. To the figure so obtained there may be added the appropriate delivery allowance specified in subdivision (ii) if applicable. The weight for determining such maximum price shall be the net weight of the prefabricated quick frozen retail cut indicated on each package.

(ii) Except as provided in subdivision (iii), the following additions may be made by the seller for delivery of prefabricated quick frozen and packaged retail beef cuts from the seller's place of business to the buyer's retail store:

(a) If the seller's place of business is located within 25 miles of the buyer's retail store, the seller may add no more than 25 cents per hundredweight.

(b) If the seller's place of business is located more than 25 miles from the buyer's retail store but less than 200 miles, 50 cents per hundredweight may be added.

(c) If the seller's place of business is located more than 200 miles from the buyer's retail store, 75 cents per hundredweight may be added.

(d) In any case in which a delivery charge may be made under this subdivision (ii), a separate item designating the amount of such charge must be shown on the invoice.

(iii) The delivery charges specified in subdivision (ii) shall not be applicable if the seller's place of business is located in a lower price zone and the buyer's retail store is located in a higher price zone. For purposes of this subdivision (iii), the term "higher price zone" means a price zone as specified in Maximum Price Regulation No. 355 having a higher zone price, and the term "lower price zone" means a price zone as specified in Maximum Price Regulation No. 355 having a lower zone price.

(iv) The deductions in § 1364.453 and the additions in § 1364.454 of this regulation are not applicable to sales or deliveries of prefabricated quick frozen and packaged retail beef cuts.

(v) If any person engaging in the production of prefabricated quick frozen and packaged retail beef cuts pursuant to this paragraph (s) fails to comply with any of its provisions or requirements, the Price Administrator may, in addition to other penalties provided by law, revoke the authorization contained herein.

4. The first paragraph of § 1364.454 (d) is amended to read as follows:

(d) *Wholesaler's selling addition.* On the sale of any beef item subject to this regulation not obtained through custom slaughtering, excluding sales made pursuant to paragraph (l), (m), (n), (o), (q), (r) or (s) of § 1364.452, a person who at the time of the sale is a wholesaler may add $1.00 per hundredweight to the applicable zone price: *Provided, however*, That after November 23, 1944, no person shall charge the addition permitted by this § 1364.454 (d) unless such person first shall have filed with the appropriate district office of the Office of Price Administration a signed statement that the person is a wholesaler as defined in subdivisions (i) or (ii) of § 1364.455 (a) (14) and gives the address of his selling establishment.

This amendment shall become effective November 7, 1945.

NOTE: The record-keeping provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 2d day of November 1945.

CHESTER BOWLES,
Administrator.

Approved: October 23, 1945.

CLINTON P. ANDERSON,
Secretary of Agriculture.

PART 1389—APPAREL

[2d Rev. MPR 578,[1] Amdt. 1]

MAXIMUM PRICES FOR CERTAIN ESSENTIAL LOW PRICED GARMENTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Second Revised Maximum Price Regulation 578 is amended in the following respects:

1. The first sentence of paragraph (a) of section 1 is amended to read:

(a) *What garments are covered.* This regulation covers the garments referred to in (1) and (2) below which are sold or delivered by a manufacturer or manufacturing-retailer on and after November 1, 1945, except, however, that where such garments are delivered by a manufacturer or manufacturing-retailer prior to November 15, 1945, and have not been marked in the manner set forth in section 6, they are not covered by this regulation.

2. Subparagraph (1) of section 1 (a) is amended to read:

(1) *Garments produced from fabrics obtained under WPB Order M-328B, Schedules C, J, K or Supplement XIII of Schedule A.* This regulation applies to all garments whose principal materials were obtained with priority assistance granted under WPB Order M-328B, Schedules C, J, K or Supplement XIII to Schedule A, except, however, the following garments are not covered when sold by the manufacturer a net price which exceeds the cut-off price specified for that garment in Appendices B or C, provided such net price is at or below the cut-off price specified for the garment in the schedule of WPB Order 328B under which its principal materials were obtained:

(i) Men's shirts, sizes 14-17 or sizes 17½ and up, made of combed cotton fabric;

(ii) Men's undershorts, sizes 28 to 44 or sizes 46 and up, made of combed cotton fabric; and

(iii) Men's tropical weight suits.

3. Section 4 is amended by inserting between the section heading and the first sentence of the section, the following paragraph designation and subheading: "(a) *General pricing method.*"

4. The first sentence in section 4 is amended to read as follows: "Dollar and cents ceiling prices for sales at retail other than sales covered in paragraph (b) are set forth in Tables II and III below."

5. Paragraph (b) is added to section 4 to read as follows:

(b) *Exception for certain sellers.* On sales for credit by a retail seller, 80% or more of whose total 1944 dollar sales volume of all articles of clothing and apparel except furs consisted of sales (i) in which a down payment was made at the time of sale and an unpaid balance was paid in installments extending over a period of six weeks or more from the date of sale without any separately stated finance or credit charge, and (ii) for which, because of Federal Reserve System Regulation W, no down payment was required on such installment sale and payment was required within a period of less than six weeks without any separately stated finance or credit charges, the ceiling price for the sale of a garment covered by this regulation is the sum of the price for that garment as calculated by the use of the appropriate table set forth below and 17% of that price. No credit or finance charges of any kind may be added to this ceiling. However, no seller may sell a garment at a price in excess of the ceiling price established in paragraph (a) unless he has:

PART 1426—WOOD PRESERVATION AND PRIMARY FOREST PRODUCTS

[MPR 558,[1] Amdt. 3]

EASTERN WOODEN MINE MATERIALS AND INDUSTRIAL BLOCKING

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 558 is hereby amended in the following respects:

1. In section 4, the first two paragraphs which precede paragraph (a) are amended to read as follows:

SEC. 4. *Transportation addition.* The transportation charges set forth below may be added to the maximum "normal loading-out point" price when the seller makes delivery. Transportation from the mill or point of production to the "normal loading-out point" must, in every instance, be provided on the seller's account. Rail charges paid by the seller for transportation beyond the loading-out point may, in every case, be added, except that in the case of pit posts, props and split or round lagging, the only permissible addition is the amount by which the actual freight charges paid exceed the freight charges calculated at the freight rate specified in the applicable table.

2. Section 4 (b) (1) is hereby amended to read as follows:

(b) *Private trucks.* (1) When shipment is by private truck owned or controlled by the seller, except in the case of pit posts, props and split or round lagging, the maximum permissible addition (on hauls involving any point outside a metropolitan area) shall be computed as follows:

(i) Distance from point of production to buyer's unloading point; less

(ii) Distance from production point to normal loading-out point of shipper; equals

(iii) Total distance for which shipper may charge. (i-ii).

When total mileage for which shipper may charge has been arrived at as indicated above, the maximum charge for the net total distance (item iii) shall be computed as follows:

NET TOTAL DISTANCE OF 75 MILES OR LESS

Distance	*Maximum price per 100 pounds*
10 miles or less	$0.05
More than 10 miles, not more than 20 miles	0.07
More than 20 miles, not more than 30 miles	0.09
For each mile over 30, but not more than 75 miles, add to the 30 mile charge	0.002

NET TOTAL DISTANCE OF MORE THAN 75 MILES

For truck hauls covered by this section, in excess of seventy-five (75) miles, the maximum permissible addition shall be either (A) or (B) below, at the option of the shipper.

(A) The maximum private trucking charge for a distance of seventy-five (75) miles, (18c per one hundredweight) determined in accordance with the above schedule, regardless of the net total distance travelled.

(B) Railroad freight arrived at by multiplying the estimated weight (determined from the tables of weights) of the material shipped, by the carload freight rate applicable on the railroad serving the buyer for a haul on that railroad to the buyer's unloading point, from a point on such railroad equal to the trucking distance from the seller's normal loading-out point to the buyer's unloading point.

No additions may be made for private truck shipments of pit posts, props and split or round lagging, regardless of the length of the haul.

3. In section 14, Zones 2 and 4 are redefined as follows:

Zone 2: East Central and West Central States.

Zone 2 shall include the States of Delaware and Maryland, except Garrett and Allegany Counties; the District of Columbia; that part of the State of Virginia, in Loudoun, Clarke, Warren, Frederick, Shenandoah, Page, Rockingham, Augusta, Highland and Bath Counties; the State of West Virginia, except the seventeen counties included in Zone 1; that part of the State of Ohio and Indiana not on, but south of, the main line of the Pennsylvania Railroad extending between Pittsburgh, Pennsylvania, and St. Louis, Missouri; that part of the State of Illinois south of the northern and eastern boundaries of the following counties: Clark, Coles, Moultrie, Macon, Logan, Mason, Fulton, McDonough, and Hancock; that part of the State of Iowa south of the northern boundaries of the following counties: Louisa, Washington, Keokuk, Mahaska, Marion, Warren, Madison, Adair, Cass and Pottawattamie; the States of Nebraska, Missouri, Kansas and Arkansas; the State of Oklahoma, but excluding points in Cimarron, Beaver and Texas Counties in Oklahoma.

4. In section 14 the word, "Diameters" in the headings of Tables 3 and 4 is amended to read "Top Diameter inside bark".

5. In section 14 the titles of Tables 2 and 4 are amended as follows:

Chapter XIV—War Contracts Price Adjustment Board

RENEGOTIATION REGULATIONS

The changes and additions to Parts 1603, 1605, 1606, 1607, and 1608 set forth below are also contained in Revision 21 of the Renegotiation Regulations dated October 12, 1945.

MAURICE HIRSCH,
Colonel, General Staff Corps,
Chairman.

PART 1603—DETERMINATION OF RENEGOTIABLE BUSINESS AND COSTS

SUBPART C—CONTRACTS AND SUBCONTRACTS WITHIN THE SCOPE OF THE 1943 ACT

In § 1603.335–2 Paragraph (e) is amended to read as follows:

§ 1603.335–2 *Agreements for fixtures, construction and improvements on real property.* • • •

(e) If the subject matter of a subcontract comprises components which would ordinarily be regarded as machinery, equipment, materials or other personal property and also components such as buildings, structures or similar improvements to real estate then that part of the receipts or accruals under the subcontract attributable to the components determined by the renegotiating agency to be machinery, equipment, materials or other personal property will not be excluded from renegotiation, although no segregation of the consideration for such components is made in the subcontract, and although such machinery, equipment, materials or other personal property are to be installed in a building, structure or similar improvement to real estate or otherwise affixed to real estate. In making such a segregation, there will ordinarily be deemed attributable to machinery, equipment, materials or other personal property that part of the receipts or accruals under the subcontract allocable to the sale or installation of components used in processing within the meaning of § 1603.-333–3, and there will be deemed attributable to real property that part of the receipt or accruals under the subcontract allocable to the sale or construction of land, buildings, structures and similar non-productive items.

SUBPART E—PERMISSIVE EXEMPTIONS FROM RENEGOTIATION

The cross reference in paragraph (b) of § 1603.357 is amended to read "(See § 1608.821–1.)".

SUBPART H—COSTS ALLOCABLE AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

1. Paragraph (c) of § 1603.381–4 is amended to read as follows:

§ 1603.381–4 *Profit, cost allocation and allowance, general.* • • •

(c) *Tax deductions.* Costs allocable to renegotiable business shall be determined in accordance with the principles set forth above. Where the full amount of an item of cost is allocable to renegotiable business, it shall be allowed in the amount estimated by the War Contracts Board, or any agency to which its functions have been delegated, to be allowable as a deduction or exclusion under Chapters 1 and 2E of the Internal Revenue Code. No such item of cost shall be allowed in an amount less than or in excess of that which is estimated to be deductible or excludible from income under the Internal Revenue Code, and all items of cost shall be attributed to the fiscal year in which they are allowable in the determination of taxable income under said Code except as provided in § 1603.381–6. Where only a portion of an item of cost is allocable to renegotiable business, the War Contracts Board, or any agency to which its functions have been delegated, shall estimate the total amount allowable to the contractor, as a deduction or exclusion under Chapters 1 and 2E of the Internal Revenue Code and the portion of this estimated amount which is allocable to renegotiable business in accordance with the principles set forth above shall be allowed as a cost of renegotiable business. Where it is clear that a contractor's deductions and exclusions under the Internal Revenue Code result in allowable costs of renegotiable business which are either high or low on a comparative basis, this circumstance shall be considered in connection with the factor of the "reasonableness of costs" of the contractor and the determination of the amount of the profit adjustment to be required of the contractor. The act requires the War Contracts Board to allow as items of cost, to the extent allocable to contracts with the Departments and subcontracts, all items estimated to be allowable as deductions and exclusions under Chapters 1 and 2E of the Internal Revenue Code. In making any such estimate due consideration will be given to any pertinent action by the Bureau of Internal Revenue, whose officials should be recognized as experts in the interpretation of the Internal Revenue Code. Published rulings of the Bureau on matters of general application should be adhered to in estimating the deductibility or excludibility of items under the Internal Revenue Code. However, the act does not require the allowance of items as costs merely because they have been or are expected to be allowed for tax purposes by particular revenue agents or other representatives of the Bureau of Internal Revenue. Occasionally cases may be encountered where revenue agents have allowed salaries or other items as deductions for tax purposes which the renegotiating agency concludes are not properly allowable under the Internal Revenue Code or are properly allowable in a different amount. In such cases the action of the revenue agents need not be regarded as conclusive. The renegotiating agency may and should exercise independent judgment as to whether and to what extent the items are allowable as deductions or exclusions under the Internal Revenue Code. Such judgment should be based upon an estimate of what the courts would do if the deductibility or excludibility of the item were the subject of litigation.

2. In § 1603.383–2 paragraph (e) is deleted.

3. Section 1603.383–3 is redesignated § 1603.383–4 and a new § 1603.383–3 is added as follows:

§ 1603.383–3 *Renegotiation rebate*—(a) *General.* A contractor who has eliminated excessive profits determined under the Renegotiation Act will be entitled to a net renegotiation rebate under subsection (a) (4) (D) of the 1943 Act with respect to each fiscal year for which such excessive profits were eliminated if, on a recomputation of the amortization deduction under section 124 (d) of the Internal Revenue Code made in connection with the determination of the contractor's taxes for such fiscal year, there is an additional amortization deduction for such fiscal year all or some part of which is determined, in accordance with the regulations hereinafter prescribed, to be attributable to contracts with the Departments and subcontracts. Such net renegotiation rebate is intended to restore to the contractor the excessive profits determined and eliminated for such fiscal year to the extent of an amount equal to that part of such additional amortization deduction for such year attributable to contracts with the Departments and subcontracts less the Federal tax benefit thereon as defined by subsection (a) (4) (D) of the Renegotiation Act. The regulations hereinafter prescribed will be construed in the light of such intention.

(b) *Definitions*—(1) *Additional amortization deduction.* The additional amortization deduction allocable to each fiscal year is the excess of the amortization deduction finally determined under section 124 (d) of the Internal Revenue Code for such fiscal year over the amount of amortization or depreciation upon the basis of which the amortization or depreciation attributable to contracts with the Departments and subcontracts was allowed as a cost in the determination of excessive profits to be eliminated for such fiscal year.

(2) *Gross renegotiation rebate.* The gross renegotiation rebate for each fiscal year is that portion of the additional amortization deduction for such fiscal year, not in excess of the excessive profits determined and eliminated for such fiscal year, which is determined in accordance with the regulations hereinafter prescribed to be attributable to contracts with the Departments and subcontracts.

(3) *Net renegotiation rebate.* The net renegotiation rebate for each fiscal year is the excess of the gross renegotiation rebate for such fiscal year over the amount by which the taxes of the contractor for such fiscal year under Chapters 1, 2A, 2B, 2D and 2E of the Internal Revenue Code were decreased by reason of omitting from gross income (or by reason of the application of the provisions of section 3806 (a) of the Internal Revenue Code with respect to) that part of the excessive profits determined and eliminated which is equal to the amount of the gross renegotiation rebate for such fiscal year.

(c) *Procedure for obtaining renegotiation rebate.* (1) After a recomputation of the amortization deduction for any fiscal year pursuant to section 124 (d) of the Internal Revenue Code has been made in connection with the determination of the contractor's taxes for such fiscal year, a contractor may apply for a net renegotiation rebate with respect to excessive profits determined and eliminated for such fiscal year by filing a claim in the form set forth at §§ 1607.-736–1 and 1607.736–2, together with the information and documents referred to in such form. Such form, together with such information and documents, must be filed with the War Contracts Board at the address specified in § 1607.791–5. A separate application must be filed with respect to each fiscal year for which the contractor claims a net renegotiation rebate.

(2) The contractor may be required to furnish such additional documents and information as the War Contracts Board (or any duly authorized representative of the War Contracts Board) may require in order to determine the amount of the net renegotiation rebate, if any, to which the contractor may be entitled.

(3) The War Contracts Board will certify to the Secretary of the Treasury, pursuant to the provisions of the First Deficiency Appropriation Act, 1945, the net renegotiation rebate to which the contractor is entitled.

(d) *Determination of renegotiation rebate.* (1) The extent, if any, to which the additional amortization deduction for any fiscal year is attributable to contracts with the Departments and subcontracts will, for purposes of determining the gross renegotiation rebate, generally be determined upon the same basis and in the same manner as was used in fixing the amount of amortization or depreciation allowed as a cost in determining the excessive profits to be eliminated for such fiscal year. The War Contracts Board (or its duly authorized representative) may in any case, however, employ such method or methods as in the opinion of the War Contracts Board will properly reflect the amount of such additional amortization deduction for such fiscal year which is attributable to contracts with the Departments and subcontracts.

(2) Subsection (a) (4) (D) of the 1943 Act provides that the gross renegotiation rebate shall not exceed the excessive profits determined and eliminated for the fiscal year for which the claim for renegotiation rebate has been made. In the absence of such circumstances as would afford a basis for setting aside the determination of excessive profits, the allocation of excessive profits (i) to a fiscal year or (ii) between contractors if renegotiation was conducted on a consolidated basis, made in the order or agreement determining such excessive profits, will be conclusive in determining the amount of the gross renegotiation rebate. The gross renegotiation rebate may not exceed the amount of such excessive profits determined for such fiscal year which has been eliminated. If the order or agreement determining excessive profits has not allocated such excessive profits to a fiscal year or years such an allocation will be made by the War Contracts Board (or its duly authorized representative) in connection with the determination of the gross renegotiation rebate. In the case of an order or agreement determining excessive profits for more than one fiscal year if such excessive profits have not been entirely eliminated by payment or otherwise then the excessive profits determined for the earliest of such fiscal years shall be deemed to have been eliminated first, in the absence of compelling evidence to the contrary. [RR 383.3]

4. Section 1603.384 is amended and §§ 1603.384–1 and 1603.384–2 are added, as follows:

§ 1603.384 *Conversion to war production.* [RR 384]

§ 1603.384–1 *Cost of conversion.* The full amount of costs of converting facilities to war production which do not represent permanent additions, such as rearrangement of machinery, is allowed by the Bureau, and will be allowed in renegotiation, for the year in which it is incurred to the extent allowable to renegotiable business. This does not include losses on commercial inventory which has become unsaleable as a result of wartime regulations or loss of market, for such losses are not properly allocable to renegotiable business. [RR 384–1]

§ 1603.384–2 *Costs in connection with the discontinuance of renegotiable business*—(a) *General.* The costs of establishing or re-establishing peacetime operations are not costs of performing renegotiable contracts or subcontracts and are not allocable to renegotiable business regardless of whether such costs constitute deductions or exclusions under Chapters 1 and 2E of the Internal Revenue Code. However, certain costs in connection with the discontinuance of renegotiable business, are allocable to renegotiable business. Such costs and the extent to which they are allocable to renegotiable business are set forth in the following paragraphs of this section.

(b) *Inventory losses.* Losses established through the writedown, abandonment or sale of inventories acquired for the purpose of performing renegotiable business and reasonably necessary to the performance of such business are allocable thereto. Costs of protecting and handling such inventories to the extent that such costs are not reflected in losses so established on such inventories are likewise allocable to renegotiable business.

(c) *Losses from sale, exchange or abandonment of facilities used in performing renegotiable contracts and subcontracts.* Losses from sale, exchange or abandonment of facilities used in performing renegotiable contracts and subcontracts are allocable to renegotiable business in accordance with the provisions of §§ 1603.385–4 and 1603.385–5. Notwithstanding the method of computing such losses for Federal tax purposes, (1) the costs of moving, dismantling, demolishing, protecting and storing such assets will be taken into account in determining whether losses have been sustained and in computing the amount of such losses for the purposes of renegotiation; and (2) depreciation incurred with respect to such assets during a period between the end of their use in the performance of renegotiable business and their sale or other disposal will be disregarded in computing such losses.

(d) *Other costs and expenses.* In addition to the losses described in paragraphs (b) and (c) with respect to inventories and depreciable or amortizable property, certain other costs incurred in connection with the discontinuance of renegotiable business are also allocable to such business even though incurred after renegotiable business has ceased. Such costs are, in general, items for which the contractor became obligated in connection with the performance of renegotiable business, which were reasonably necessary to such performance and for which he is obligated notwithstanding the cessation of his renegotiable business. Such items include those set forth below.

(1) *Severance pay.* Amounts paid by a contractor to his employees in connection with their separation from his employment for which he is obligated by reason of law, contract or the custom of his business are allocable to renegotiable business to the extent such amounts relate to the services performed by the employees in renegotiable business. Generally such amounts are allocable to renegotiable business in the proportion which wages paid with respect to renegotiable business bear to the total wages paid during a period (ending with severance) equal to the average tenure of employment for all

employees on the payroll immediately prior to the severance. Where, however, by reason of the difference in location or the nature of work, employees used in one operation are not interchangeable with those used in the other business of the contractor, the principles of the foregoing sentence will be applied to such operation separately rather than to the entire business of the contractor.

(2) *Rent and other obligations in connection with property.* Items such as rents, royalties or other such costs which the contractor is required to pay by law or by contract in connection with the use of property belonging to another where the obligation arose in connection with and was reasonably necessary to the performance of renegotiable business but continues after such business has ceased, are allocable to renegotiable business to the extent warranted by the facts of the particular case. In determining the extent to which such items are allocable to renegotiable business, consideration will be given to the use the contractor made of such property during the performance of renegotiable business and to the use he has made or may make of it during the period between the cessation of such business and termination of the obligation.

(3) *Depreciation.* Inasmuch as paragraph (c) of this section excludes, in computing losses, depreciation on assets used in renegotiable business sustained during the period between the end of their use in performing such business and their sale or other disposal, depreciation during this period will not be allowed as a cost of performing renegotiable business. If such assets are retained for future use in non-renegotiable business depreciation thereon will be allowed as a cost of renegotiable business to the extent otherwise properly allocable to the end of the month immediately succeeding that in which the end of their use in the performance of renegotiable business took place provided that they are not sooner devoted to civilian production.

(4) *General overhead expenses.* Certain continuing expenses, such as executives' and officers' salaries, maintenance wages, light and heat, and insurance paid or incurred subsequent to the cessation of renegotiable business, may be allocated to such business in amounts considered fair and equitable in light of the circumstances of the particular case. In no event will such costs be so allocated if incurred more than a reasonable time beyond the discontinuance of renegotiable business. In determining the time which is reasonable for the purposes of this paragraph, consideration will be given to the time that would be required to eliminate all such expenses in an orderly liquidation of the organization set up for war production, without considering any requirements of the contractor's peacetime production. [RR 384.2]

5. Section 1603.388–5 is added as follows:

§ 1603.388–5 *Inventories.* If, in the opinion of the renegotiating agency, inventory valuation is a significant element in determining profits, no determination of excessive profits or of non-excessive profits should be made unless the renegotiating agency is satisfied as to the value of the inventory at the close of the period involved in the renegotiation.

(a) A physical inventory as of the close of the period involved in the renegotiation is the most satisfactory basis for an inventory valuation; however, a physical inventory taken within a reasonable time (ordinarily not in excess of three months) of the close of the period and reconciled to the close of the period may be acceptable.

(b) In the absence of a physical inventory at or within a reasonable time from the close of the period involved in the renegotiation, the contractor's book records will not be accepted as an appropriate basis for an inventory valuation as of the close of such period unless the renegotiating agency is satisfied (1) after spot checks or other tests, that the recorded inventory properly reflected the actual inventory on hand, or (2) that the method of determining inventory is such as to assure reasonable agreement between the recorded inventory and the actual inventory on hand.

(c) If necessary in order to arrive at a satisfactory valuation of inventory at the close of the period involved in the renegotiation, the renegotiating agency may, after approval by the Chairman of the Departmental Price Adjustment Board concerned, either (1) cause a physical inventory to be taken by or on behalf of the Government as near as possible to the close of the period involved in the renegotiation, or (2) if such a physical inventory is not feasible, estimate the inventory valuation as at the close of the period involved in the renegotiation, making such adjustments in the book inventory as, on the basis of the information then available, will protect the interests of the Government and minimize the likelihood of an understatement of profits for the period involved in the renegotiation. PART 1605—AGREEMENTS AND STATEMENTS

SUBPART B—STATEMENTS TO CONTRACTORS

1. Section 1605.522 is amended to read as follows:

§ 1605.522 *Request for statement.* A request for a statutory statement shall be made in writing by the contractor addressed to the agency which made the determination of excessive profits and it must be made within the time limits hereinafter prescribed in this subpart. For the purpose of determining whether a request has been made within such time limits, such a request will be deemed to have been made at the time:

(a) When mailed by registered mail, postage prepaid, to the appropriate renegotiation agency, or

(b) If not sent by registered mail, postage prepaid, when received by such agency.

The request for a statement need not be a formal document. [RR 522]

2. Section 1605.524–2 is amended to read as follows:

§ 1605.524–2 *Where a determination is by order which may not be final.* Whenever a determination is made by order under delegated authority (which pursuant to subsection d (5) of the Renegotiation Act is subject to review by the War Contracts Board), a statutory statement will be furnished to the contractor if requested of the agency which made such order within thirty days after the date of such order, and, if prior to the time such statement is furnished, no order of the War Contracts Board has been issued after a review of the order made under delegated authority. Such statement shall contain the following clause at the end of paragraph 1 thereof: "This statement is final only in the event that the determination by order to which it relates is final." [RR 524.2]

3. Sections 1605.525, 1605.525–1 and 1605.525–2 are added as follows:

§ 1605.525 *Statement in connection with a final determination.* [RR 525]

§ 1605.525–1 *Where a determination is by agreement.* Whenever a determination is made by agreement, a statutory statement will be furnished to the contractor if requested of the agency by which such agreement was made within thirty days after receipt by the contractor of a fully executed counterpart of the agreement. [RR 525.1]

§ 1605.525–2 *Where a determination is made by order which is final.* (a) Whenever upon review of an order determining excessive profits made under delegated authority the War Contracts Board makes a determination of excessive profits by order, a statutory statement will be furnished to the contractor by the War Contracts Board if requested of the War Contracts Board within thirty days after the mailing pursuant to § 1606.625–3, of the notice of the entry of such order of the War Contracts Board.

(b) Whenever an order determining excessive profits made under delegated authority is deemed the order of the War Contracts Board, no review of such order having been granted or initiated by the War Contracts Board, then, unless the contractor has been furnished with a statutory statement in accordance with the provisions of § 1605.524–2, a statutory statement will be furnished by the agency which made such order if requested of such agency at any time prior to the expiration of the thirtieth day after the mailing of the registered notice of the order becoming final pursuant to § 1606.625–3. [RR 525.2]

Regional and District Office Orders.

[Region III Order G–2 Under RMPR 251]

SPECIFIED INSTALLED SIDING IN CLEVELAND, OHIO, AREA

An opinion accompanying this order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

In the judgment of the Regional Administrator of Region III of the Office of Price Administration, the maximum prices established by this order are generally fair and equitable and are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

Therefore, under the authority vested in the Regional Administrator by section 9 of Revised Maximum Price Regulation No. 251, and by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, Order No. G–2 is hereby issued.

ARTICLE I—TRANSACTIONS COVERED BY THIS ORDER; ITS RELATIONSHIP TO REVISED MAXIMUM PRICE REGULATION NO. 251; AND GEOGRAPHICAL APPLICABILITY

SECTION 1. *Transactions covered by this order.* (a) This order covers (1) sales of composition siding on an installed basis, (2) construction services preparatory to such installations, and (3) additional services unrelated to such installations.

"Composition siding" means types of siding used in new and re-siding jobs such as asbestos-cement and insulated brick or stone but not wood shingles or wood siding.

"Installed basis" means a transaction in which the seller furnishes composition siding and related materials or services required to incorporate such siding into a building or structure.

"Related materials or services" means the furnishing and installation of leveling strips, felt, felt strips, corner beads, calking, mouldings, nails, and other materials, labor cost, other job costs, commissions or brokerage directly related to and necessary to such installations.

"Construction services preparatory to such installations" means all services which are necessary to place a structure in repair prior to installation. (Example—boxing in of concrete, cement block, natural stone, or brick basement walls, construction of new dormer, etc.)

"Additional services unrelated to such installations" means separate work or services which may be performed apart from siding installations (for example, roof repairs, painting, etc.) and not necessary for direct siding installation.

(b) The kinds of siding installation covered by this order are: (1) Asbestos-cement siding of standard surface hardness: (2) Asbestos-cement siding of hard surface: (3) Insulated brick or insulated stone siding.

SEC. 2. *Relationship of this Order No. G–2 to Revised Maximum Price Regulation No. 251.* (a) The provisions of this order supersede sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251, except as otherwise provided in this order, with respect to sales of siding on an installed basis.

(b) An employer paying labor rates higher than those in effect for him on the effective date of this order, by reason of a predetermination of wage rates by the Secretary of Labor under the Davis-Bacon Act or an order or authorization of the Wage Adjustment Board, National War Labor Board or Economic Stabilization Director, may add his increased labor cost to his maximum price as determined under this order. For the purpose of this paragraph "increased labor cost" means the difference in amount between the employer's labor cost based upon labor rates in effect on the effective date of this order, and his labor cost based upon such legally approved rates, plus his additional payments for Federal old-age benefits, unemployment compensation taxes, and public liability insurance. It should be noted that the increased labor cost is to be added to the maximum price determined by this order.

An application need not be made to the Office of Price Administration nor its prior approval obtained in order to put into effect the maximum price increases described in this paragraph (b).

(c) Except as otherwise provided herein, all transactions subject to this order shall remain subject to all provisions of Revised Maximum Price Regulation No. 251, together with all amendments that have been or hereafter may be issued.

SEC. 3. *Geographical applicability.* This order shall apply in the Cleveland, Ohio area, more particularly defined as the counties of Cuyahoga and Lake, all in the State of Ohio.

ARTICLE II—MAXIMUM PRICES FOR INSTALLED SIDING

SEC. 4. *Maximum prices for sales of siding on an installed basis including related materials and services.* The maximum prices for sales of siding on an installed basis including related material and services shall be as shown in the following Table I of this section, and shall be upon a price per square basis for the kinds and sizes described. Such prices include:

(a) The cost of siding materials delivered to the site where the installation is to be performed.

(b) The cost of accessories used in the insulation of the siding, which means, but is not limited to, leveling material, backer board, felt and/or felt strips, corner beads, calking, moulding, nails or other necessary material.

(c) Labor costs, including Federal old-age benefits, unemployment compensation taxes and workmen's compensation and public liability insurance.

(d) Other job costs, including but not limited to trucking, removal of rubbish, rental of scaffold or other equipment (if any).

(e) Margin, which includes commission or brokerage.

TABLE I

The maximum prices are as follows:

	Per square
Asbestos-cement siding of standard surface hardness:	
Installed over backer board	$27.50
Installed without backer board	26.50
Asbestos-cement siding of "hard surface:"	
Installed over backer board	29.00
Installed without backer board	28.00
Sizes 12" x 24" or 12" x 27" insulated brick or insulated stone siding (fiber insulation board base)	29.00

SEC. 5. *Measurements.* It shall be the seller's responsibility to ascertain that all measurements of the area to be covered are accurate; such measurements including allowance for wastage and overlap shall be made as follows:

(a) On installation jobs of ten squares or less, sellers shall compute the overall area to be covered with siding without allowance for doors or windows. On installation jobs of more than ten squares, the seller must deduct one-half of the area of doors and windows from the overall area, or

(b) Sellers may use the following alternative method of determining the net area on which the contract price shall be based: deduct the full area of all windows and door openings from the over-all area; to the net area so determined, add 8 percent, bringing the resulting figure up to the nearest larger half or full square.

A tolerance of 3 percent of the net area may be allowed in either of the computations under paragraphs (a) and (b) above; if in excess of 3 percent, an adjustment will be required to the area established by paragraphs (a) and (b) above.

SEC. 6. *Maximum prices for certain services.*—(a) *Construction services preparatory to installations.* The maximum prices that may be charged by sellers of preparatory construction services which are necessary to place a structure in repair prior to installation shall be the maximum prices established in accordance with Revised Maximum Price Regulation No. 251.

(b) *Additional services unrelated to installations.* The maximum prices that may be charged by sellers of additional services unrelated to installations shall be the maximum prices established in accordance with Revised Maximum Price Regulation No. 251.

SEC. 7. *Quoting a "guaranteed price".* The seller may offer to sell a siding job covered by this order on the basis of a "guaranteed price" wherein the seller agrees to charge a fixed amount: *Provided, however,* That the so-called "guaranteed price" must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order. Upon completion of the contract, if requested by the purchaser, the seller is required to furnish the purchaser with an itemized statement showing the number of squares, the net area and the maximum price per square for the material used as shown in Table I above, and an itemization of the amount for incidental work.

SEC. 8. *Notification to purchasers of existence of order and Revised Maximum Price Regulation No. 251.* Every person making sales subject to this order shall, if requested by the purchaser, show the purchaser a copy of this order and Revised Maximum Price Regulation No. 251.

This order No. G–2 shall become effective October 16, 1945.

Issued: October 16, 1945.

SOLID FUELS IN KENOSHA, WIS., AREA

(a) *Applicability.* This Appendix No. 19 applies to sales of solid fuels delivered within the city of Kenosha, Wisconsin, and all that territory adjacent to the city of Kenosha bounded by Kilbourn Road on the west, McKeon Road on the south, and Berryville Road on the north in the State of Wisconsin.

(b) *Price schedule.* Immediately below and as a part of this section (b) is a price schedule that sets forth maximum prices for delivered sales by dealers in lots of one (1) ton or more of specified kinds and sizes of solid fuels. Charges for treatment of coal are set forth in section (c). Discounts are set forth in section (d). Service charges are set forth in section (e). Definitions are set forth in section (f). Sales in lots of fractions of a ton or tons shall be governed by the price schedule as follows:

(i) On delivered sales of less than 1 ton, the price shall be proportional to the price per ton plus an additional charge of 50¢, but in no event shall the total price be in excess of that for a sale of 1 ton; for example, if the price of 1 ton is $10.15, the price of ½ ton would be $5.08 plus 50¢ or a total of $5.58; the price of ¾ ton would be $7.61 plus 50¢ or a total of $8.11.

(ii) On delivered sales of more than 1 ton, for each fraction of a ton sold, the price shall be proportional to the price per ton; for example, if the price of 1 ton is $13.70, the price of 1½ tons would be $20.55.

(iii) On yard sales of any fraction of a ton, whether more or less than 1 ton, the price shall be proportional to the price per ton; for example, if the price of 1 ton at the yard is $11.90, the price of ½ ton would be $5.95; of 1½ tons, $17.85.

The price schedule lists maximum prices for the sale of coal on the basis of the type of mine operation by means of which it is produced. On sales of coal produced in District Nos. 7, 8, 9, and 11, the prices established are similar for the same kind and size of fuel regardless of the type of mine operation. On sales of coal from District No. 10 (Illinois), prices for coal described in paragraph IV, A, 1 to 4, inclusive, apply to coal produced by deep machine mines only. District No. 10 (Illinois) prices for the sale of coal described in paragraph IV, B, 1, vary as specified for coal obtained from deep machine mines and strip mines. The prices of by-product coke and briquettes are unaffected by the type of mine operation.

[Region V Order G-1 under Gen. Order 61]

USED LUMBER IN DALLAS REGION

For the reasons set forth in the opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region V of the Office of Price Administration by General Order No. 61, it is hereby ordered:

ARTICLE I—COVERAGE OF THIS ORDER

SECTION 1. *Products, transactions and area covered.* This order applies to sales or purchases by any person of the categories of used lumber for which maximum prices are established in this order, when made for delivery in the States of Louisiana, Arkansas, Oklahoma, Texas, Kansas and Missouri, which States comprise Region V of the Office of Price Administration.

This order shall also apply to sales made from stock in this area for delivery outside of the area, if no dollar-and-cents ceiling prices have been issued under General Order No. 61 for the geographical location in which delivery is to be made.

ARTICLE II—DEFINITIONS

SEC. 2. *Used lumber.* Used lumber means lumber and lumber products which have been recovered from, and were at one time a part of, a building, structure or fabricated item made wholly or partially of lumber.

SEC. 3. *Categories of used lumber.* Maximum prices are established in this order for the categories of used lumber described below, including such lumber when run to standard or special patterns; but such descriptions are not intended to, and do not, include items customarily produced and sold as mouldings or millwork.

(a) *Boards.* Used lumber of less than 2" nominal thickness ("nominal thickness" means the thickness of the piece before planing. Actual thickness, after planing to produce an even and uniform surface, is generally ¼" to ⅜" less than nominal thickness).

(b) *Dimension.* Used lumber of 2" nominal thickness.

(c) *Planks or small timbers.* Used lumber of over 2" and up to and including 4" nominal thickness and of 12" or less nominal width; also nominal thicknesses over 4" up to and including 6" in all nominal widths up to and including 8".

(d) *Large timbers.* Used lumber of nominal sizes larger than 6" x 8"; also nominal thicknesses of more than 2" when wider than 12".

(e) *Flooring.* Used lumber planed to approximately $^{25}/_{32}$" thickness, and which has tongue and groove or other construction commonly used for flooring.

(f) *Plywood.* Three or more thin layers of lumber, glued together with the grain of each layer at an angle to that of the adjoining layer, to form a material having the general characteristics of a thin board.

(g) *Unreclaimed lumber.* Used lumber of any categories defined in (a) through (f) which has not been cleared of bolts, nails, or other foreign matter, and which if so cleared would meet the specifications of some grade of lumber defined in section 4.

(h) *Scrap lumber.* Lumber of any of the categories defined in (a) through (f) which, because of defects in quality or deficiencies in size, does not meet the grade specifications in section 4.

SEC. 4. *Grades.* The following are the grades of used lumber for which maximum prices are established by this order.

(a) *Grades of boards, dimension, planks, and timbers.* (1) Prime grade is used lumber in the form of boards, dimension, planks, or timbers which individually are at least 3' in length, and which are sound, strong, of uniform width and thickness, suitable for substantial construction purposes, free from loose or rotten knots, knot holes, and rot, cleared of bolts, nails, or other foreign matter, and without other defects which will materially impair the strength and serviceability of the piece.

(2) Secondary grade is used lumber in the form of boards, dimension, planks, or timbers which individually are at least 3' in length, and which though failing to qualify as prime grade are reasonably good construction lumber. They must be free from rot and cleared of bolts, nails, or other foreign matter, but may contain loose knots, knot holes, or other defects which do not interfere with their use for construction purposes. Each piece must show at least 50% prime grade lumber.

(b) *Grades of flooring.* (1) Reclaimed flooring is used flooring of standard $^{25}/_{32}$" thickness, entirely free of nails or other foreign matter and with upper surface whole or free from voids or splits. A tolerance of ⅛" in thickness will be permitted where flooring is worn or sanded. Not more than 25 percent of the tongue may be missing on any piece nor more than 25 percent of the lower surface representing the under part of the groove.

(2) Unreclaimed flooring is used flooring which meets the specifications for reclaimed flooring except that nails or other foreign matter have not been removed.

(c) *Grades of plywood.* (1) Prime grade is used plywood which is firmly bonded, free from rot, splits, foreign matter and holes other than nail holes, in pieces of square or rectangular shape at least four square feet in size, and having at least one smooth face suitable for painting.

(2) Secondary grade is used plywood in pieces at least two square feet in size, reasonably free from splits, holes and foreign matter, so that at least 75 percent of the piece meets the specifications for prime grade (except for size and shape).

SEC. 5. *Persons.* The term "person" includes an individual, corporation, partnership, association, or any other organized group of persons, or their legal successors or representatives; the United States, or any government, or any of its political subdivisions, or any agency of the foregoing.

SEC. 6. *Sales.* "Sale" includes a barter, exchange, lease or transfer, and an agreement or offer to sell, barter, exchange, lease or transfer.

SEC. 7. *Established yard.* Seller's established yard means premises occupied by the seller for the purpose of regularly and continually maintaining a stock of new and/or used lumber from various unrelated sources of supply.

ARTICLE III—SPECIFIC REQUIREMENTS

SEC. 8. *Posting ceiling prices.* Every person selling used lumber for delivery in, or from stock located in, the area covered by this order shall obtain from the Office of Price Administration at least two copies of the price schedules fixed in this order. One copy of such schedules must be posted and maintained in a prominent place at or near each location in the area where used lumber is offered for sale, in such manner that it can be easily read, and that purchasers can approach it within a distance of two feet. One other copy must be kept available so that it may be shown to and read by any customer at his request.

SEC. 9. *Sales slips and receipts.* Where a sale of used lumber is covered by this order and the total price of the sale is $5 or more, the seller shall, regardless of his previous practice and whether or not requested by buyers, give to the buyer a sales slip, bill, receipt, or other written evidence of the sale, setting forth the following:

Name and address of seller_____
Buyer's name_____
Place of delivery_____
Location from which stock is sold (seller's yard or site other than seller's yard)_____
Description of items sold and itemized prices (in terms of categories, grades, lengths, quantities and any other specification affecting the price)_____
Total price_____
Additions (for delivery or other extra)_____

SEC. 10. *Records and reports.* Every person who makes a sale of used lumber shall keep a record of such sale showing the name of the buyer and place of delivery, date of the sale, the grades sold, the quantities sold and the price charged in the same detail as required in section 9. Such records shall be kept for a period of 2 years or for the duration of the Emergency Price Control Act of 1942, as amended, whichever be the shorter.

ARTICLE IV—PROHIBITED PRACTICES AND PENALTIES

SEC. 11. *Sales of used lumber at higher than maximum prices prohibited.* (a) On and after the effective date of this order, regardless of any contract or obligation, no person shall make a sale or delivery of used lumber of the varieties covered by this order and no person shall buy or receive such used lumber under a sale, at prices higher than the maximum prices fixed by this order; and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 12. *Prohibited practices.* Any practice which is designed to get the effect of a higher than ceiling price is as much a violation of this order as a direct over-the-ceiling charge. Such practices include, but are not limited to, the following:

(a) Getting the effect of a higher price by changing the credit practices from what they were in March 1942. This includes decreasing credit periods, or making greater charges for extension of credit.

(b) Refusing to sell except in small quantities, or with or without delivery under circumstances which bring the seller an extra return.

(c) Wrongly grading used lumber for which maximum prices are fixed in this order; or incorrectly or incompletely recording the information required by section 9 to be set forth on the sales slip, receipt or other evidence of sale.

(d) Quoting a gross price above the maximum price, even if accompanied by a discount, the effect of which is to bring the net price below the maximum.

(e) Charging, paying or receiving a commission for the service of procuring, buying, selling, or locating used lumber covered by this order, or for any related service which does not involve actual

physical handling of used lumber, if the commission plus the purchase price results in a total payment by the buyer of such used lumber which is higher than the maximum price permitted by this order. For the purpose of this order, a commission is any compensation, however designated, which is paid, wholly or in part, for the procurement of lumber, and which is based directly or indirectly on the quantity, price or value of the lumber in connection with which the service is rendered.

SEC. 13. *Penalties.* (a) Any person violating any provision of this order is subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of license provided for in the Emergency Price Control Act of 1942, as amended.

(b) Any person making a sale of used lumber covered by this order for which the total price is higher than $5 and who either fails to give the buyer a sales slip, paid bill, receipt or other evidence of sale, or although such document is given, fails to set forth in it the information required to be set forth by section 9, so that a determination can be made as to whether or not the price charged was proper, shall be limited to making a charge of $5 per M'BM for all lumber delivered under such sale. The application or enforcement of this provision to a sale or against a seller shall not exclude the application or enforcement of the penalties provided in paragraph (a) of this section.

ARTICLE V—MAXIMUM PRICES

SEC. 14. Ceiling prices for any category of used lumber for which maximum prices are not fixed in this order are subject to the General Maximum Price Regulation.

SEC. 15. *Maximum prices.* New sellers shall establish their maximum prices.

(a) *Local sales out of seller's established yard.* When delivery is made at a seller's established yard of used lumber covered by this regulation, or by truck within a radius of 30 miles from such established yard, and the used lumber at the time the order is taken is a part of a stock at the seller's established yard, the maximum prices which may be charged are those set forth in Appendix A applicable to the zone defined therein in which the seller's yard is located.

(b) *Local sales from site other than the seller's established yard.* When a sale is made for delivery from stock located at a site other than the seller's established yard and delivery is made either at the site or by truck within a radius of 30 miles of such site, the maximum prices applicable to such sale shall be those set forth in Appendix A applicable in the zone in which the site is located, less $2.00 per M'BM.

(c) *Deductions*—(1) *When delivery is by truck.* When a sale is made for delivery by truck to the buyer, either from an established yard or a site other than an established yard and delivery is to be made to the buyer at a point located further than 30 miles from the place where the shipment originates, the maximum prices determined by paragraphs (a) and (b) above shall be reduced by $5.00 per M'BM.

(2) *When rail transportation is involved.* When a sale is made which involves a shipment by rail of used lumber, either by the buyer or seller, the maximum prices determined under Paragraphs (a) or (b) above must be reduced by $5.00 per M'BM.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and for the reasons set forth in the accompanying opinion, this Order No. G–31 is issued.

(a) *What this order does.* This Order No. G–31 establishes maximum prices for delivered sales of coal made by trucker-dealers, as herein refined, to consumers in the State of Wyoming on the basis of the cost to the trucker-dealer f. o. b. the mine or preparation facility plus graduated allowances for load-miles necessarily traveled.

(d) *Relation to other orders and regulations.* Section 1340.254 of Revised Maximum Price Regulation No. 122 is hereby superseded and has no application to sales made by trucker-dealers under this Order No. G–31, except insofar as otherwise provided by paragraph (e) hereof. However, all other provisions of Revised Maximum Price Regulation No. 122 that are not contradictory of or inconsistent with the terms and provisions of this Order No. G–31 remain in full force and effect and must be complied with by such trucker-dealers.

(e) *Higher established maximum prices may be maintained.* If any trucker-dealer has heretofore duly established delivered maximum prices for sales of coal covered by this Order No. G–31 in accordance with § 1340.254 of Revised Maximum Price Regulation No. 122 and has filed such duly established prices with the Cheyenne, Wyoming, District Office of the Office of Price Administration on Form 653–40, he may continue to charge and collect such higher maximum prices for such sales.

(f) *Definitions.* (1) The term "trucker-dealer", as used in this Order No. G–31, means a person who purchases coal f. o. b. a mine or preparation facility and transports the same by truck and sells to consumers on a delivered basis and does not have a rail connected yard where he receives coal by rail.

(2) "Load-miles traveled" means the distance necessarily traveled by the the loaded truck over the most direct route from the mine or preparation facility to the place where unloading takes place upon delivery to the purchaser.

(3) "Wheel-in" means to transport coal from the vehicle in which delivery is made or from the nearest accessible point of dumping or unloading and place the same in the buyer's bin or storage space, when the physical condition of the premises is such as to prevent dumping or unloading into such bin or storage space.

(4) "Pull-back" or "trimming" means to arrange and place coal in the buyer's bin by rehandling the same for the purpose of filling the bin, and applies only to the amount of coal actually rehandled.

(5) "Carrying up or down stairs" means the labor involved in carrying coal up or down stairs for depositing in the customer's bin or storage space.

(6) "Delivery in less than two-ton lots" means delivery of a quantity of less than two tons on a single order.

(g) *Invoice covering sale.* A trucker-dealer making a sale and delivery under this Order No. G–31 must at the time of the transaction deliver to the buyer an invoice plainly indicating thereon:

(2) The number of miles traveled with his load and his charge therefor;

(3) Each service charge made by him.

(h) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(i) *Right to revoke or amend.* This order may be revoked, modified or amended at any time by the Price Administrator or the Regional Administrator.

PLUMBING AND HEATING SERVICES IN WASHINGTON AND IDAHO

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, *It is hereby ordered:*

(a) *Geographical applicability.* This order applies to sellers located in Northern Idaho, southward to and including Idaho County, and in the State of Washington with the exception of Clark, Cowlitz, Klickitat, Skamania, and Wahkiakum Counties, which are covered by Order No. G–7 under Revised Maximum Price Regulation No. 251. This territory is divided for pricing purposes into the following three areas:

Area 1. In the State of Washington: Kitsap County and the Seattle Metropolitan area, the boundary of which proceeds as follows: Commencing at the northwest corner of Woodway Park eastward along the northern boundary line of such park and along an extension of said line to a point north of the northernmost point of Lake Ballinger; thence due south to Lake Ballinger and southward along the western shore of said lake to the northern boundary of King County; thence eastward along said county boundary to a point north of the easternmost limit of Kenmore; thence due south to Lake Washington; thence southward along the western shore of Lake Washington to the southernmost point of said lake; thence due east to a point north of the easternmost limit of Renton; thence due south to Renton and southward along the boundary of said city to East Valley Road; thence southward along said road to a point midway between the northern and southern boundaries of Section 8, Township 22 North, Range 3, East Willamette Meridian; thence due west to Puget Sound; thence northward along the eastern shore of Puget Sound to the point of beginning.

Area 2. The remainder of the part of the State of Washington covered by this order and lying west of the crest of the Cascade Mountains.

Area 3. The remainder of the part of the State of Washington covered by this order and lying east of the crest of the Cascade Mountains; and the following Counties in the State of Idaho: Benewah, Bonner, Boundary, Clearwater, Idaho, Kootenai, Latah, Lewis, Nez Perce, and Shoshone.

(b) *Maximum prices.* The maximum price of plumbing and heating services in the areas described above is the sum of a charge for labor, the maximum price of the materials used, and such other charges as may be permitted by this order. The maximum charge for labor shall be the sum of the number of hours of labor performed in each category multiplied by the maximum hourly rate applicable to that category, as provided by subparagraph (b) (1). The maximum price of the materials used shall be determined as is provided by subparagraph (b) (2). The maximum prices established by this order include all expenses; no fees, commissions, or other charges, as for rental or use of equipment or other incidental services, may be charged except as may be otherwise specified in this order.

(1) *Maximum labor charge.* (i) The maximum hourly rate shall be either the rate in Column A or the labor cost per hour multiplied by the percentage in Column B, rounded out to the nearest 5 cents, whichever is lower:

	In area 1		In area 2		In area 3	
	Col. A	Col. B	Col. A	Col. B	Col. A	Col. B
		Pct.		Pct.		Pct.
Journeyman plumber	$3	170	$2.75	160	$2.50	175
Apprentice plumber, semiskilled and common labor	2	150	1.75	150	1.50	150

(ii) *Overtime.* If overtime work is performed for which employees are actually paid 1½ or 2 times the straight time or normal wage rate, then in determining the maximum hourly rate for such work the hourly rate stated in Column A may be increased by 1½ or 2 times, as the case may be. However, the maximum hourly rate provided by subparagraph (b) (1) (i) above, may not be increased unless the overtime work is performed at the customer's request and unless it is performed on Saturdays, Sundays, holidays, or between the hours of 5:00 p. m. and 8:00 a. m.

(iii) *Measurements of hours.* The number of hours to be charged against any job is to be counted from the time the workman leaves the shop or the previous job (whichever is later) until he completes the job if he proceeds to another job, or until he returns to the shop if he proceeds there directly. For any job extending into more than one day, time in transit to or from the job may be charged only once. The hours for which charges are made shall not exceed those shown on the seller's payroll records nor those shown on any records or invoices which this order may require the seller to prepare or keep.

(iv) *Minimum charge.* If a job requires less than one man-hour, there may be collected a minimum charge equal to the rate for one hour.

(v) A journeyman plumber doing his own work shall take as his labor cost the labor cost applicable to journeyman plumbers.

(2) *Materials.* The maximum price of any new material shall be the highest price charged for such material by the seller during March 1942, or the price published as of the date of issuance of this order, in Moore's Price Service, published by Moore's Price Service, Inc., Lloyd Building, Seattle 1, Washington, whichever is lower. The maximum price of any used materials or any new materials which cannot be priced as provided above, shall be the seller's maximum price determined under the appropriate maximum price regulation.

(ii) *Out of town travel expenses.* A seller who furnishes men on "out of town" work for the installation of building materials, shall be reimbursed to the extent of the amount he shall have to pay for travel expense and subsistence where this work necessitates the men being away from their home office. (d) *Jobs selling for more than $350.00.* The maximum price of jobs in excess of $350.00 shall be the maximum price calculated under this order but shall not exceed a price calculated under section 7 of Revised Maximum Price Regulation No. 251, using the sum of labor costs, material costs, direct costs, and a margin not exceeding the margin used on the most comparable job in the period January 1, 1939, to March 31, 1942, or, for sellers not in business in March 1942, a margin not exceeding 30% of the sum of labor and material and other direct costs.

(e) *Guaranteed prices.* A seller may supply plumbing and heating services covered by this order on the basis of a guaranteed price, the seller agreeing to charge a fixed amount, but such guaranteed price may not exceed the maximum price established by this order, and with respect to such job the seller shall keep records and furnish invoices as required by other provisions of this order.

(f) *Notification to purchasers.* Every person making sales subject to this order shall furnish to the customer an invoice or sales slip on which he has itemized charges for materials and labor (including wage rates and hours of labor) and any other additions permitted by this order, and on which he has certified that the price charged does not exceed the prices permitted by this Order No. G–13 under Revised Maximum Price Regulation No. 251. In the case of sales subject to paragraph (d) (Jobs Selling for More than $350.00), invoices or sales slips need show only total charges for labor, materials, and other additions.

(g) *Records.* Duplicates of the invoices or sales slips required by paragraph (f) shall be kept by the seller at his place of business. Additionally, every person making sales subject to this order shall keep a permanent record of all employee's time and materials consumed for each job. The material used on a job shall be listed according to the trade names and shall be properly identified according to the serial number and grade. The job cards showing both the time and material consumed shall be signed by the employee. Travel time or other additions permitted in this order shall be clearly listed as such on the record. All of such records shall be available for inspection at any time by the Office of Price Administration.

(h) This order supersedes sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to the plumbing and heating services to which it relates, except where it is otherwise provided herein.

(i) This order may be amended, corrected, or revoked at any time.

This order shall become effective October 21, 1945.

Issued this 12th day of October 1945.

templated under the plan provides for the transfer of such capital stock to Pennsylvania without prior reduction; and

Pennsylvania having requested that the Commission enter an order finding that the proposed issue and sale of 440,000 shares of new preferred stock, any interim deposit certificates issued in connection therewith, the issue and sale of 1,818,719 shares of new common stock by Pennsylvania, and the issuance of any rights to subscribe thereto by Pennsylvania and the assignment of any such rights by National to its stockholders, the receipt of cash by Transit for any of the 15,469 shares of $7 preferred stock of Pennsylvania not exchanged for new preferred stock of Pennsylvania, and the transfer of 12,317 shares of the capital stock of The Edison Illuminating Company of Easton by National to Pennsylvania are necessary and appropriate to the integration or simplification of the holding company system of which parties to the plan are members and necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and that such order conform to the pertinent requirements of Sections 371 and 1808 of the Internal Revenue Code, as amended, and contain the recitals, specifications, and itemizations therein required; and

The Commission having considered the record and having entered its findings and opinion herein and deeming it appropriate in the public interest and in the interest of investors and consumers to approve Pennsylvania's plan of recapitalization, subject to certain conditions and reservations of jurisdiction hereinafter ordered:

It is ordered, That pursuant to the applicable provisions of the act and the rules and regulations promulgated thereunder, the aforesaid plan of recapitalization and the declaration and applications incident thereto are approved and permitted to become effective, subject, in addition to the terms and conditions contained in Rule U-24, to the following conditions:

It is further ordered, That jurisdiction be, and hereby is, reserved over all legal fees and expenses proposed to be paid in connection with the transactions incident to the plan, including fees and expenses of financial advisers and fees of counsel for the dealer-managers effecting the preferred stock exchange and with respect to provisions to be contained in the offer of rights by National to protect the interests of members of the armed services who, because of being overseas, are not in a position to either exercise or sell their rights.

It is further ordered, That the application of Lehigh Valley Transit Company (designated Application 9, File No. 54–51), as amended, to exchange its 15,469 shares of Pennsylvania's preferred stock, which it owns for new 4½% preferred stock of Pennsylvania and to receive the call price of $110 per share for any share not selected by lot for exchange as provided for in Pennsylvania's plan is approved subject to the condition that our jurisdiction over the status of this intercorporate holding shall not be deemed to be prejudiced by virtue of Transit's receiving shares of new preferred and cash for shares of the old preferred now held by Transit.

Public hearings having been held on the amended plan in the consolidated proceedings after appropriate notice in which all interested persons were given opportunity to be heard, and briefs having been filed and oral argument having been heard; and the Commission having on April 26, 1945, issued its findings and opinion requiring an amendment to the amended plan so that the balance in the pro forma "paid-in" surplus account of $4,989,007 as of December 31, 1943, be transferred to the reserve for depreciation; and Minnesota having filed on July 10, 1945, such amendment to the amended plan;

The Commission having issued a memorandum opinion on October 12, 1945, stating its view that the amended plan should be further amended to reduce the stated value of the proposed common stock of Minnesota from $6.75 to $6.00 per share, thus creating a pro forma capital surplus of $6,162,171, which will be available for the disposition of all known and probable maximum adjustments to the balance sheet accounts of Minnesota and having afforded a period of 15 days from the date of such opinion for the filing of such an amendment and for any interested person to request a hearing thereon; and Delaware and Minnesota having each filed amendments to the plan on October 26, 1945, in which such reduction in the stated value of the common stock is proposed to be effected, no requests for hearing having been received by the Commission; and Delaware and Minnesota having requested the Commission, pursuant to section 11 (e) of the act, to apply to a court in accordance with the provisions of section 18 (f) of the act to enforce and carry out the terms and provisions of the amended plan;

In accordance with said findings and opinion dated April 26, 1945 and said memorandum opinion dated October 12, 1945,

It is further ordered, That Minnesota shall annually retain $445,207 in its earned surplus account over a period of 16¾ years from April 1, 1942 until a total of $7,457,220 has accumulated therein, which retained earned surplus will not at any time be available for dividends on any class of its stock;

It is further ordered, That counsel for the Commission be, and they hereby are, authorized and directed to make application forthwith on behalf of the Commission to an appropriate United States District Court, pursuant to the provisions of section 11 (e) and in accordance with section 18 (f) of the act, to enforce and carry out the terms and provisions of the amended plan;

It is further ordered, That this order shall not be operative to authorize any reclassification, issuance or retirement of securities, transfer, distribution or acquisition of securities or of assets, or distribution of cash contemplated by said plan, nor the consummation of such plan in any respect, until an appropriate District Court of the United States shall have entered an order enforcing said plan pursuant to an application duly made by the Commission for that purpose;

MIDDLE WEST CORP. ET AL.

MEMORANDUM OPINION AND ORDER RECONVENING HEARING FOR LIMITED PURPOSE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of October, A. D. 1945.

In the matter of The Middle West Corporation, Central and South West Utilities Company and American Public Service Company, File No. 54-81.

This Commission issued its findings, opinion and order under section 11 (b) (2) of the Public Utility Holding Company Act of 1935 ("act") on June 4, 1942 directing, among other things, the termination of the corporate existence of either Central and South West Utilities Company ("Central") or American Public Service Company ("American") and a change in the capitalization of Central and American to a capitalization in a single corporation consisting of one class of stock, namely common stock. Holding Company Act Release No. 3580. On review, this order was affirmed by the United States Court of Appeals for the District of Columbia on June 7, 1943. *Central and South West Utilities Company, et al., v. S. E. C.*, 136 Fed. (2nd) 273.

On August 2, 1943, the Middle West Corporation ("Middle West"), a registered holding company and its subsidiaries, Central and American, both registered holding companies, in compliance with the Commission's order of June 2, 1942, filed joint applications and declarations designated as a "Plan" pursuant to section 11 (e) of the act proposing action designed to merge American and Central to a single class of common stock in a corporation to be called Central and South West Corporation.

The Commission on September 4, 1943, issued its notice of filing and order for hearing with respect to the Plan and set the matter down for hearing on October 12, 1943. Holding Company Act Release No. 4542. The notice and order contained a summary of the terms of the Plan and Central and American were directed to cause a copy to be mailed to the holders of the outstanding stocks of Central and American at their last known addresses at least 20 days prior to the date of the hearing.

In October, November and December of 1943, hearings were held on the Plan before a trial examiner. Although notice was given to all stockholders of Central and American, in the manner above described, apart from counsel for the companies and the staff of the Public Utilities Division only one person appeared before the examiner and requested to be heard. Extensive testimony was adduced at the hearings, numerous exhibits were offered and participants given full opportunity to examine and cross examine witnesses and to file briefs. On December 15, 1943, after all participants had indicated their satisfaction with the completeness of the record, hearings were continued subject to the call of the trial examiner or order of this Commission.

Thereafter in August 1945 Middle West, Central and American filed amendments to the original plan, substantially modifying the allocations of securities to the respective stockholders of Central and American, together with supplemental financial statements in support thereof. Since it appeared to the Commission that the record had been fully developed at the date of the last hearing and that the supplemental data which was filed merely brought the record up to date with respect to the financial condition of the Central system, we did not order a hearing before a trial examiner but instead issued a notice of filing of amendments to the Plan and ordered the matter set down for oral argument and hearing on September 11, 1945, before the Commission. Holding Company Act Release No. 5982. Copies of this notice and order were also required to be sent to the holders of the outstanding stock of Central and American. We adopted this procedure because the matter had been before the Commission for a considerable period of time and because there had not been theretofore any indication of a desire on the part of the public security holders to participate in the proceedings, with the single exception noted.

There appeared at the argument and hearing before the Commission on September 11, 1945, in addition to those theretofore appearing in this matter, representatives of various groups of stockholders who had not previously participated. Motion was made by counsel for certain stockholders requesting, in general, that the record be kept open to permit an examination and cross-examination of witnesses for the applicants with respect to the financial statements and material filed in connection with the Plan, as amended, and more specifically, to permit evidence relating to maintenance charges and depreciation reserves of the companies, the possibility of refunding operations and the results which would be accomplished therefrom, the earnings of the system and the value of the proposed new common stock. Motion was also made by counsel for one of the applicants that representatives of stockholders be required to state the names of the stockholders represented, the amount and class of stock owned by such stockholders and the time of purchase of such stock. We reserved our ruling on both motions, heard argument, and set the time for filing proposed findings by counsel for the staff of the Public Utilities Division and answers thereto.

We have examined the record in this proceeding and we are satisfied that the evidence therein up to the close of the hearing in December 1943 is fully adequate with respect to the historical and financial data of Central and its subsidiaries, as well as the managerial, accounting, and financial practices and relationships between Middle West (or its predecessor) and the Central system. In addition the record includes a projection of earnings of Central and its subsidiary companies to and including 1947. We shall not grant leave to duplicate evidence already appearing in the record. Neither shall we permit evidence pertaining to matters which could have been investigated at previous hearings. However, stockholders have not had opportunity to examine witnesses or to adduce evidence with respect to the facts arising since 1943, including the data filed in support of the Plan as amended. Accordingly, we believe it appropriate to afford such opportunity to persons having a bona fide interest.

With respect to the motion to require a disclosure of the nature and extent of the holdings of the stockholders, it appears that Middle West and the representative who participated in the proceeding, prior to the date of the argument on September 11, 1945, have produced for the record the amount and class of stock which they hold or represent, the price paid for such stock and the time of purchase. Under Rule XVII of our rules of practice pertaining to intervention, leave to be heard, and informal participation, it is provided that any person filing an application for leave to be heard shall set forth the nature and extent of his interest in the proceeding. In connection with extending the privilege of participation to persons claiming to have an interest in the proceeding, we deem it appropriate that such persons indicate fully the nature and extent of that interest, including the time such interest came into being. Accordingly, we shall grant the motion requiring that each participant produce for the record the names of the stockholders he represents, the amount and class of stock owned by each and the time of the purchase thereof.

It appearing, therefore, that the above mentioned motions should be granted to the extent indicated, for the limited purpose heretofore specified, and that the hearing should be reconvened before a trial examiner:

It is ordered, In accordance with the foregoing opinion and for the limited purpose therein specified, that the hearing in the above matter be reconvened under the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules of the Commission thereunder, on December 4, 1945, at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in the room designated on said day by the hearing room clerk in Room 318.

It is further ordered, That the Secretary of the Commission shall serve notice of the matters contained herein by mailing forthwith a copy of this opinion and order by registered mail to the respondents and to their respective counsel and to all persons granted the right to be heard and participate in the above described proceedings and argument, and shall give notice to all other interested persons by publication in the FEDERAL REGISTER.

It is further ordered, That the time schedule adopted at the date of the argument for filing of proposed findings by counsel for the Public Utilities Division of the Commission and for answers thereto by other counsel and stockholders be, and hereby is, rescinded.

It is further ordered, That the motion to require each participant to state or produce for the record the names of the stockholders whom he represents, the amount and class of stock owned or beneficially owned by each and the date of purchase of such stock be, and hereby is, granted.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matters. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That all persons desiring to be heard or otherwise wishing to participate herein shall notify the Commission to that effect in the manner provided by Rule XVII of the Commission's rules of practice, on or before November 27, 1945, and shall at that time submit the names of the stockholders whom they represent, the amount and class of stock owned or beneficially owned by such stockholders and the time of the acquisition of such stock.

By the Commission.

SURPLUS PROPERTY ADMINISTRATION.

[Special Order 24]

PRICING AND DISTRIBUTION POLICY FOR CONSUMER GOODS

The Congressional policy announced by the Surplus Property Act of 1944 is to foster wide distribution of surplus commodities to consumers at fair prices utilizing normal channels of trade in such manner as to strengthen and preserve the competitive position of small business concerns. This special order is intended to implement that policy with respect to consumer goods and shall be administered accordingly.

Pursuant to the authority vested in me by Public Law 181, 79th Cong., 1st Sess., and by the Surplus Property Act of 1944 (58 Stat. 765; 50 U. S. C. App. Sup. 1611), *It is hereby ordered*, That:

1. The minimum quantity which should be offered for sale by the disposal agency should to the extent feasible be a quantity which will enable small independent retailers who normally buy direct from manufacturers to participate in these offerings. The price on such quantity shall be known as the net price.

2. Another minimum quantity applicable to the wholesale trade should be offered to wholesalers of the commodity offered who agree to use their best efforts to sell to small retail establishments unable or unwilling to buy in quantities as great as the minimum established according to paragraph 1. This minimum quantity may be less than the minimum quantity offered to large retailers pursuant to paragraph 3 hereof. The price to the wholesaler should be such as to compensate for the distributive function to be performed by the wholesaler, taking into consideration the type of goods, the turn-over potential, the cost of care and handling, the value, and the quantity offered.

3. Certain large retailers, including chain stores, mail order houses and cooperative organizations, normally purchase in quantities far in excess of those purchased by the small retailer and small wholesaler. To facilitate the disposal of surplus property, and thereby to protect the interest of the Government in such property, and in recognition of the fact that retailers who buy in large quantities usually perform an intermediate distributive function in the movement of the goods to the consumer level, such purchases should generally be made at a discount of not more than 5 percent from the net price. The minimum quantity subject to this discount shall be specified in the offering.

4. No other reductions or discounts shall be given and there shall be no graded discounts within the same class of buyers.

5. The price levels contemplated by this order shall be established by the disposal agency as to each kind of property to be sold. Subject to Office of Price Administration ceilings, surplus consumer goods shall be priced by the disposal agency to effectuate orderly and prompt disposal, giving due considera-

tion to the kind, quantity, condition, and value of each item at the time of the offering.

6. The disposal agency shall allocate surplus property equitably among purchasers in accordance with this policy. When the total supply of a commodity is less than the demand, consideration should be given to the needs of other purchasers before large quantities are sold to one or a few purchasers. Precedence should be given to orders received from small retailers and from wholesalers who serve small independent retailers. Manufacturers who perform the distributive functions of serving small independent retailers may buy as wholesalers subject to the rules applicable to purchases made by wholesalers. Wholesalers and manufacturers who own, operate, or control retail stores are required to buy as retailers for their company owned or controlled retail stores. Buying offices of associated groups of retail stores operated on the voluntary chain system of buying will buy as retailers.

7. Copies of all proposed offerings shall be filed with the Surplus Property Administrator at least six calendar days in advance of publication, except where the declared value of the entire commodity to be offered is less than $50,000.

This order shall become effective October 31, 1945.

W. STUART SYMINGTON,
Administrator.

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5482]

PART 190—RECTIFICATION OF SPIRITS AND WINES

MISCELLANEOUS AMENDMENTS

Pursuant to sections 2801, 2813, 3176 and 3250 (1), Internal Revenue Code, (USC, Title 26, Secs. 2801, 2813, 3176 and 3250 (1)), Regulations 15 (26 CFR, Part 190) is hereby amended as follows:

Section 190.9 is amended to read as follows:

§ 190.9 *Prohibited manufacture or storage.* None of the products specified in § 190.5 may be manufactured or stored at a rectifying plant except as specifically provided herein. While rectifiers may use flavors and flavoring extracts on which drawback of tax on the spirits used therein has been allowed under section 3250 (1), Internal Revenue Code, and Regulations 29 issued pursuant thereto, the premises used for manufacturing the flavors or flavoring extracts, if contiguous to the rectifying premises, must be completely separated from the rectifying premises by solid unbroken partitions and the two premises must not have means of communication with each other within the building. The rectifier may not transfer distilled spirits from the rectifying plant to the flavoring extract manufacturing premises or from the flavoring extract plant premises to the rectifying plant notwithstanding that the two premises may be owned and operated by the same person. Distilled spirits used at the flavoring extract manufacturing premises must be received direct from the vendor and all records governing the receipt and use of distilled spirits and other ingredients in the manufacture of flavoring extracts must be kept on the flavoring extract manufacturing premises and not on the rectifying premises. Where flavors or flavoring extracts are manufactured on premises of the rectifying plant, they must be used exclusively in the manufacture of taxable products and no drawback of tax may be claimed thereon. Nonalcoholic grenadine containing less than one-half of 1 per cent of alcohol by volume and sufficient sugar to render it wholly unfit for use for beverage purposes, or other such flavoring materials, may not be manufactured on the premises of a rectifying plant unless they are to be used by the rectifier in making his taxable products. (*; Sec. 3250 (1), I.R.C.)

Section 190.177 is amended to read as follows:

§ 190.177 *Application, Form 122.* When the rectifier desires to dump spirits for rectification, he will carefully gauge each package and prepare Form 122, in duplicate, giving a complete description of the packages and making application for permission to dump the spirits, except that where spirits are transferred to the rectifying plant directly upon taxpayment from a contiguous distillery or internal revenue bonded warehouse or a distillery or internal revenue bonded warehouse located in the immediate vicinity of the rectifying plant and owned by the proprietor of the rectifying plant or a subsidiary and dumped for rectification within three days after receipt, the withdrawal gauge will be considered as satisfying the requirement that the spirits shall be gauged when dumped for rectification. The supervisor will determine from all the circumstances in each case whether the distillery or warehouse and the rectifying plant are in the immediate vicinity. Where the spirits are so dumped on the withdrawal gauge, details of such gauge will be copied on Form 122 and in addition thereto, if the rectifying plant is equipped with processing tanks mounted on scales, the spirits may be dumped and gauged by weight in such processing tanks. In such case, the composite proof and proof gallons determined by such gauge shall also be reported on Form 122. The difference in proof gallons between the withdrawal (taxpayment regauge) and such tank gauge shall also be reported on Form 122. If the spirits are to be drawn from the storage tank, the rectifier will likewise execute Form 122 giving all the information applicable. Each Form 122 will be given a serial number beginning with "1" for the 1st day of January of each year and running consecutively thereafter to December 31, inclusive. (*; Sec. 2813, I. R. C.)

NOTE: The asterisk at the end of sections refers to sections 2801 (e) (1) and 3176, Internal Revenue Code.

Commissioner of Internal Revenue.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[MPR 569,[1] Incl. Amdts. 1-6]

MAXIMUM PRICES FOR USED MOTORCYCLES

This compilation of Maximum Price Regulation 569 includes Amendment 6, effective November 7, 1945. The text amended or revoked is indicated by underscoring or notes.

In the judgment of the Price Administrator, dollar-and-cents maximum prices better effectuate the purposes of the Emergency Price Control Act of 1942, as amended, than the method in the General Maximum Price Regulation for determining maximum prices. Therefore, the Price Administrator has caused this regulation, which establishes dollar-and-cents regulations for used motorcycles, to be issued and made effective.

The Price Administrator has ascertained and given due consideration to the prices of used motorcycles prevailing between October 1 and 15, 1941, and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has consulted with and has been advised by representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.[2]

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

ARTICLE I—SCOPE OF REGULATION AND PROHIBITION

SECTION 1. *Applicability of this regulation*—(a) *To what sales this regulation applies.* This regulation applies to sales by all persons of used motorcycles manufactured new by Harley-Davidson Motor Company and Indian Motocycle Company (called used motorcycles in this regulation).

(b) *Geographical applicability.* This regulation applies to the forty-eight states of the United States and the District of Columbia, but not to the territories and possessions of the United States.

SEC. 2. *Prohibition against dealing in used motorcycles at prices above the maximum.* (a) Regardless of any contract or other obligation except as provided in paragraphs (b), (c) and (d):

(1) No person shall sell or deliver any used motorcycle at a price higher than the maximum price permitted by this regulation, except as provided in paragraph (d); and

(2) No person, in the course of trade or business, shall buy or receive a used motorcycle at a price higher than the maximum price permitted by this regulation, except as provided in paragraph (d), but if he, the purchaser, has received from the seller a written statement that the price charged does not exceed the maximum price, and he has no knowledge to the contrary, he shall be deemed to have complied with this paragraph (a); and

(3) No dealer shall retain payment in excess of the adjusted maximum price where the maximum price has been adjusted downward, pursuant to section 5 (c), because of his refusal to make the repairs or replacements required under his warranty.

(4) No person shall agree, offer or attempt to do any of the acts prescribed in subparagraphs (1), (2) and (3) of this section.

[Subparagraph (4), formerly (3) redesignated and amended; new (3) added by Am. 2, 10 F.R. 6938, effective 6-13-45]

(b) A war procurement agency as defined in section 15 (d), or any contracting officer thereof, or any country whose defense the President deems vital to the defense of the United States under the terms of the Lend-Lease Act, or any government agency of such a country, shall not be subject to the provisions of paragraph (a) (2). Moreover, any war procurement agency contracting officer, with respect to purchases he makes, in his official capacity, of used motorcycles, and any paying finance officer of the United States, with respect to payments he may make, in his official capacity, in connection with purchases of used motorcycles, shall be relieved of any and every liability, civil or criminal, imposed by this regulation or by the Emergency Price Control Act of 1942, as amended.

(c) Nothing in this regulation shall prevent the fulfillment of any written contract for the purchase of a used motorcycle whether in the nature of a conditional sales agreement, rental contract providing for purchase or other arrangement, entered into before the effective date of the regulation and under which the used motorcycle has been delivered prior to that date.

(d) Where a promissory note covering payment to a dealer or other seller for a used motorcycle is discounted by a bank, finance company, or other person, and the latter takes possession of the used motorcycle after default by the maker of the note, the return of the repossessed used motorcycle to the dealer in connection with the recovery from him of the unpaid balance of the note does not constitute a sale, purchase, or transfer, subject to the regulation. However, the sale of a repossessed used motorcycle by such a holder of "motorcycle paper" at public or private sale, except the return of a used motorcycle in connection with a contract to repurchase, is subject to the regulation. Notwithstanding the provisions of this paragraph, where a promissory note covering payment to a dealer or other seller for a motorcycle is discounted by a bank, finance company or other person, and the latter takes possession of the used motorcycle after default by the maker of the note, nothing in this regulation shall prevent the bank, finance company, or other person who discounted the note from selling the used motorcycle for an amount not exceeding the unpaid balance on the note, or the applicable maximum price, if it is higher, in the case of a used motorcycle delivered prior to the effective date of the regulation by the dealer or other seller to the person making the note.

SEC. 3. *Relation to other regulations*—(a) *In general.* The transactions, persons, and commodities subject to this regulation shall not be subject to any other regulation issued by the Office of Price Administration in so far as they are affected by this regulation, except as provided in paragraph (b). This regulation, therefore, with respect to the used motorcycles it covers, supersedes the General Maximum Price Regulation [3] and orders issued thereunder, and orders issued under Supplementary Order 94.[4]

(b) *Exports.* The provisions of this regulation do not apply to the purchase,

[1] 9 F.R. 14294.

[2] Statements of considerations are also issued simultaneously with amendments. Copies may be obtained from the Office of Price Administration.

[3] 9 F.R. 1386, 5169, 6106, 8150, 10193, 11274.

sale or delivery for export from the Continental United States of a used motorcycle. Such a sale, purchase or delivery is covered by the Second Revised Maximum Export Price Regulation.[8]

SEC. 4. *Less than maximum prices.* Prices lower than maximum prices established by this regulation may be charged and paid.

ARTICLE II—MAXIMUM PRICES

SEC. 5. *Maximum prices for used motorcycles.* To figure the maximum price of a used motorcycle, the seller must:

(a) Find the base price according to section 6; and

(b) Add to it $75.00 for a side car or delivery body, if any, (no other additions may be added to the base price even though the motorcycle is equipped with accessories or other extra equipment); and

(c) If the used motorcycle is sold as a warranted used motorcycle (as defined in section 7), and the sale is by a dealer to a nondealer, add $50.00 or, if it is higher, add 25% of the total of the base price and the $75.00 allowance, if any. If the amount to be added is in cents (that is, a certain number of dollars and cents) the amount shall be evened to the nearest dollar.

The inclusion in the maximum price of an additional amount when a used motorcycle is warranted is conditioned on the used motorcycle being in good operating condition as defined in section 7 (b). If a dealer sells at the warranted maximum price a used motorcycle not in good operating condition he makes an overcharge in excess of the permitted maximum price (the non-warranted maximum price).

The inclusion in the maximum price of an additional amount when a used motorcycle is warranted is also conditioned upon the making of repairs or replacements in accordance with the dealer's warranty. If the dealer refuses to make these repairs or replacements, the maximum price for the used motorcycle shall be the maximum price for the used motorcycle when warranted reduced by 50% of the amount the purchaser would have to pay for the repairing or replacement which the dealer should have made under his warranty, and the dealer shall refund the amount of that reduction to the buyer. Refusal to refund that amount will constitute an overcharge in excess of the maximum price. If upon the dealer's refusal to make repairs or replacements in accordance with his warranty, the purchaser has such work done by another before receiving a refund from the dealer, the actual cost of such work shall be considered the amount by which the maximum price is reduced. For the purposes of this section, failure to make repairs or replacements required by the warranty within a reasonable time from the date the used motorcycle is delivered to the place of business of the dealer shall constitute a refusal to make such repairs or replacements regardless of the reasons why they are not made.

[Above two paragraphs added by Am. 2, 10 F.R. 6938, effective 6-13-45]

SEC. 6. *Base prices*—(a) *How to find the base price.* In figuring his maximum price, the seller shall take as his base price a price found by following the directions given below which apply to the used motorcycle he is selling, always using, when he does so, the prices given in Appendix B for the particular region in which the used motorcycle is located at the time of sale, except where the used motorcycle is located at the time of sale not more than 100 miles from the boundary between regions A and B.

If the used motorcycle is located only 100 miles, or a lesser number of miles from this boundary, the following shall determine what region shall be used for the purpose of selecting the price in Appendix B.

If the seller is a dealer or other seller generally engaged in the business of selling used motorcycles, he shall use the Appendix B price for the region in which is located his established place of business. If he has an established place of business in more than one region, he shall use the first applicable of the following: The Appendix B price for the region in which is located the place of business from which the sale is made; the Appendix B price for the region in which is located the established place of business closest to the place of sale.

If the seller is a person not generally engaged in the business of selling used motorcycles, he shall use the Appendix B price for the region which contains the state where the used motorcycle is registered at the time of sale, or if not registered at the time of sale, the state where it was last registered before the time of sale.

The regions for which prices are listed in Appendix B, and the states included in each region, are stated in Appendix A.

(b) *Base price for a used motorcycle of model year 1937, or a later model year, complete with standard equipment.* Take the base price listed in Appendix B when the used motorcycle is complete with standard equipment. "Standard equipment" means all functional parts of a motorcycle and other parts with which it is equipped when delivered as a new vehicle from the factory.

(c) *Base price for a used motorcycle of model year 1936 or before, complete with standard equipment.* Base prices are listed in Appendix B only for model years 1937 and later model years. To determine the base price of a used motorcycle of model year 1936 or before, complete with standard equipment, take the base price in Appendix B for the most comparable 1937 model of the same make.

(d) *Base price for a used motorcycle minus standard equipment.* The base prices in Appendix B are for used motorcycles complete with standard equipment. Where a used motorcycle is minus standard equipment at the time of sale, the base price shall be the price in Appendix B that would be applicable under paragraph (b) or (c) if it were complete with standard equipment less 50% of the retail list price which would be charged for each piece of missing standard equipment if it were new.

SEC. 7. *Warranted used motorcycle*—(a) *Definition.* A warranted used motorcycle is a used motorcycle:

(1) Which is in good operating condition as defined in paragraph (b); and

(2) For which a dealer (as defined in section 16 (b) furnishes in writing to the purchaser at the time of sale the warranty in paragraph (c); and

(3) In the case of a dealer who does not have a shop and equipment adequate for repairing or reconditioning used motorcycles, it shall be a used motorcycle which, in addition to satisfying the conditions in (1) and (2), is one for which the service supplier that makes the repairs or replacements for the dealer in accordance with section 16 (b) guarantees in writing the making of the repairs or replacements the dealer is obligated to make under his warranty. The guaranty shall be made in the manner stated in paragraph (d).

(b) *Good operating condition.* A used motorcycle is in good operating condition when its functional parts, and those of its non-functional parts which are customarily attached to a motorcycle, are in a condition that will permit the used motorcycle to be driven safely and efficiently.

(c) *Dealer's warranty.* The warranty a dealer shall furnish in writing to a purchaser at the time of sale is:

DEALER'S WARRANTY

The used motorcycle described below is hereby warranted to be in good operating condition, and to remain in such condition under normal use and service for a period of 30 days after delivery, or 1000 miles, whichever may first occur.

We agree, if said vehicle is delivered during the above period to our place of business, to make with reasonable promptness any repairs or replacements which may be necessary to its good operating condition in accordance with normal use and service at a cost to the purchaser named below of not more than 50% of the normal charge for such repairs and replacements. Our normal charge is not in excess of OPA ceilings.

This warranty does not extend to tires, tubes, paint, glass, upholstery, or to any repairs or replacements made necessary by misuse, negligence or accident.

(e) *Additional warranties by dealer.* A dealer may extend to the purchaser warranties in addition to those provided in the warranty stated in paragraph (c) but this shall be done in warranties separate and in addition to the warranty provided in paragraph (c), and the maximum price established by section 5 shall not be increased thereby.

(f) *Purchaser's customary legal remedies for dealer's failure to perform obligations of warranty or service supplier's failure to perform obligations of his guaranty.* Nothing in this regulation restricts the legal remedies available to a purchaser of a used motorcycle under the applicable state law for the breach either of a dealer's warranty or a service supplier's guaranty.

SEC. 8. *Special maximum prices*—(a) *Maximum prices for used motorcycles which cannot be priced under sections 5 and 6.* The maximum price for a used motorcycle (Harley-Davidson or Indian) which cannot be priced under sections 5 and 6 shall be a price, in line with the level of maximum prices established by this regulation, specifically authorized by the Office of Price Administration. Any seller seeking such an authorization shall file an application with the Office of Price Administration, Washington, D. C. If the seller does not file under this section, the Office of Price Administration may establish a maximum price of its own accord. This price shall be in line with the level of maximum prices established by this regulation. Authorization of prices under this paragraph shall be by order.

[Paragraph (a) amended by Am. 1, 10 F.R. 2658, effective 3-13-45]

(b) *Application for a special maximum price for the resale of a used Harley-Davidson or Indian motorcycle purchased from the United States Government*—(1) *When an application may be filed.* Application for a special maximum selling price may be made under this paragraph if:

(2) *What the application must contain.* The application shall contain (i), a showing that the conditions in subparagraph (1) above are present; and

(ii) The make (Harley-Davidson or Indian), model, model year, motor number and serial number if any, of the motorcycle for which a special maximum price is requested; and

(iii) An indication as to whether there is or is not a side car to be resold with the motorcycle for which a special maximum price is requested;

(iv) A copy of the invoice covering the sale to the applicant by the United States Government, or any of its agencies, of the motorcycle for which a special maximum price is requested.

(3) *Action by the Office of Price Administration.* If the applicant demonstrates that he purchased the motorcycle prior to December 2, 1944, from the United States Government, or any of its agencies, at a price higher than the base price in Appendix B (plus the allowance of $75 for a side car when there is one) then a special maximum price will be authorized by order. This special maximum price will be the maximum amount that may be charged for a non-warranted sale and will include the allowance of $75 for a side car when there is one to be resold with the motorcycle.

When the applicant makes a warranted sale of the motorcycle for which he receives a special maximum price, in addition to the special maximum price, he may charge a markup of 25% on this special maximum price or $50, whichever is higher.

SEC. 11. *Certificate of Transfer that must be completed for a sale of a used motorcycle.* Every person when he sells a used motorcycle covered by this regulation shall prepare a Certificate of Transfer, Appendix C, in duplicate, in accordance with the instructions in that appendix, sign both copies of the certificate, give one copy to the purchaser at the time of sale, and not later than five days from the date of sale turn in the original copy to his local War Price and Rationing Board.

For the purposes of this section, a trade-in of a used motorcycle is a sale, and the person trading in the used motorcycle must take the steps required of sellers by this section.

Copies of the Certificate of Transfer may be obtained from sellers generally engaged in the business of selling used motorcycles or from local War Price and Rationing Boards.

[Sec. 11 amended by Am. 2, 10 F.R. 6938, effective 7-10-45 (effective date of Am. 2 amended by Am. 4, 10 F.R. 6956, effective 6-13-45); and Am. 6, effective 11-7-45]

SEC. 12. *Records and reports*—(a) *Records.* Every person generally engaged in the business of selling used motorcycles shall, so long as this regulation remains in effect, keep and make available for examination by the Office of Price Administration the following information in regard to every used motorcycle he has acquired for resale:

(1). A complete description of the used motorcycle including make, model year, serial number, motor number and type;

(2) The name and address of the person from whom he acquired the used motorcycle;

(3) The price he paid for the used motorcycle either on an outright basis or on a trade-in;

(4) The cost of repairs and replacements made in the used motorcycle and a description of the repairs and replacements made;

(5) The name and address of the person to whom he sold the used motorcycle;

(6) The price he charged the purchaser for the used motorcycle excluding taxes and finance charges;

(7) The amount he charged the purchaser to cover taxes and the taxes for which the amount was charged;

(8) The amount he charged the purchaser for financing the sale on an instalment basis, if any;

(9) A copy of the warranty he furnished the purchaser if he sold the used motorcycle at a price higher than the as-is price.

[8] 8 F.R. 4132, 5987, 7662, 9998, 15193; 9 F.R. 1036, 5435, 5923, 7201, 9834, 11273, 12919, 14346; 10 F.R. 863, 923, 2432.

(b) *Additional records and reports.* Every dealer, or other seller generally engaged in the business of selling used motorcycles, shall keep such records in addition to those required by paragraph (a), and file such reports, as the Office of Price Administration may from time to time require. Such records and reports, however, shall be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Sec. 12 amended by Am. 2, 10 F.R. 6938, effective 6-13-45]

SEC. 13. *Evasion.* It shall be a violation of this regulation to charge a price above the applicable maximum price in connection with any sale of a used motorcycle, either alone or in conjunction with any other consideration even though the price increase appears only indirectly. Specifically, but not exclusively, the seller is not permitted to require the purchaser, as a condition of the sale or transfer of the used motorcycle, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts, or services so as to increase the total compensation above the maximum price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring or trading in any other vehicle, product or commodity. Where there is an exchange, transfer or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the vehicle, product or commodity, exchanged, transferred, or traded in, which is less than its reasonable value.

Furthermore, the seller is prohibited from providing for the purchase of the used motorcycle by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable maximum price at the time the rental contract is entered into, and from making the terms and conditions of sale more onerous to purchasers than they customarily have been except to the extent allowed by this regulation. However, the Office of Price Administration may upon written request grant written permission to any dealer subject to this regulation to change his credit terms, where such change is necessitated by orders issued by, or at the request of, the United States Government.

It shall also be a violation for any person to charge, pay or receive a finder's fee or other compensation in connection with the procurement of a used motorcycle where the finder's fee or other compensation plus the purchase price for the used motorcycle exceeds the permitted maximum price, except that this prohibition shall not apply to the case of a bona fide employer-employee relationship between a seller generally engaged in the business of selling used motorcycles and an employee of the type of employee generally considered by the motorcycle trade to be a used motorcycle salesman.

[Sec. 13 amended by Am. 2, 10 F.R. 6938, effective 6-13-45]

SEC. 14. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, proceedings for suspension of licenses, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1 [8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 16. *Definitions.* When used in this regulation, the term:

(a) "Person" includes an individual, corporation, partnership, association or any other organized group of persons, or legal successor or representative of any of the foregoing and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(b) "Dealer" is a person who has received an order from the Office of Price Administration authorizing him to charge for a warranted used motorcycle defined in section 7 a warranted maximum price permitted by section 5, and whose authorization has not been revoked in accordance with paragraph 2 or 5 below. (1) *Application for dealer authorization*—(i) *Preparation of application form.* A person who seeks authorization to act as a dealer must request this authorization from the Office of Price Administration on OPA Form No. 694-2163, "Application for Authorization to Act as a Dealer in Automotive and Related Vehicles." This form is Appendix E of the regulation. The form will be acceptable as an application only when the information the form requests is inserted in, or attached to, the form, and it is signed by the applicant or his authorized representative.

(ii) *Place of filing.* The application must be filed in the district office of the Office of Price Administration having jurisdiction of the area in which the place of business of the applicant is located. If applicant has a place of business in more than one district office area a separate application must be filed for each place of business with the district office having jurisdiction over the area in which the place of business is located. If the applicant has more than one place of business within one district office area, he shall file one application for the group of businesses in the area.

(iii) *Investigation of application.* Upon receipt of an application for dealer authorization, the authorized district office may make such investigation of the facts involved in the application, hold such conferences, and request the filing of such supplementary information, as may be necessary to the disposition of the application.

(iv) *Disposition of application for dealer authorization by District Director.* The District Director of the district office having jurisdiction over the area in which the applicant's place of business is located shall either grant or deny by order an application for dealer authorization. The requirements that must be present before the grant shall be made are contained in (v) below. If they are not all present the application shall be denied.

(v) *Requirements for grant of application by District Director.* An application for authorization to sell as a dealer shall be granted if:

(a) The applicant is generally engaged in the business of acquiring for sale, selling, displaying, repairing and reconditioning used motorcycles; and

(b) The applicant has a place for selling and displaying used motorcycles; and

(c) The applicant has a shop and equipment for repairing and reconditioning which in general are adequate for placing used motorcycles in good operating condition as defined in section 7 (b) and for fulfilling the terms of the warranty in section 7 (c). (The location of the shop and equipment beyond a reasonable distance from the place of delivery of used motorcycles to purchasers, is one of the reasons why such facilities are not adequate); but

(d) In the case of an applicant who does not have the facilities described in (c) above, as a substitute for them, he may have a working arrangement, evidenced by a written contract, with a service supplier, who has adequate repairing and reconditioning facilities described in (c) above, whereby the service supplier will perform the reconditioning and make the replacements the applicant, as a dealer, is required to make to place a used motorcycle in good operating condition as defined in section 7 (b) or to fulfill the terms of the warranty in section 7 (c).

(vi) *Publicizing of dealer authorization.* Every person who receives an order authorizing him to sell as a dealer shall place this order in a conspicuous place in his place of business. Such a person shall also state on every Certificate of Transfer he prepares in accordance with the regulation the dealer authorization number which he shall receive in the dealer authorization order.

(2) *Revocation of dealer authorization*—(i) *General.* The District Director of a district office having jurisdiction over the area in which a dealer's place of business is located may by order revoke a dealer's authorization for the reasons stated in (ii) below. However, no order of revocation shall be effective unless the dealer against whom the order is directed was notified by registered mail or by personal service of the District Director's intention to revoke the authorization and the reasons for such action at least ten days prior to the issuance date of the revocation order, and had a reasonable opportunity prior to the issuance of the order to present information either orally or in writing to the District Director, or a responsible official in the district office designated by the District Director, to show that the authorization should not be revoked.

(ii) *Basis for revocation of dealer authorization.* An order granting a dealer

[8] 8 F.R. 13240.

authorization may be revoked if the District Director finds from substantial evidence that:

(a) Any one of the requirements in (b) (1) (v) was not in existence at the time the applicant filed his application although he represented in his application that the requirement was in existence; or

(b) Any one of the requirements in (b) (1) (v) is not in existence after the date of filing of the application; or

(c) A person authorized to sell as a dealer does not comply with the provisions of the regulation which permit a markup of the base price and the allowance of $75 for side car, if any; or

(d) Repairing and reconditioning facilities are beyond a reasonable distance from the dealer's place of delivery of used motorcycles.

(3) *Request for review*—(i) *General.* Any person generally engaged in the business of selling used motorcycles whose application for dealer authorization has been denied, or whose dealer authorization has been revoked, by an authorized District Director of a district office may file with that district office a request for review by the Regional Administrator for the region in which the district office is located. However, where an application for dealer authorization is denied in the first instance or a dealer authorization is revoked by an authorized Regional Administrator the request for review shall be filed with his regional office. The request for review shall be made on OPA Form 694-2350 set out in Appendix F and shall be filed not later than 60 days after the date on which the order of denial or revocation was mailed. Requests for review shall be deemed filed on the date received by the district office. However, requests for review addressed to the appropriate district office bearing a postmark dated within the 60 days after the date the order of denial or revocation was mailed which are received after the expiration of the 60 day period shall be considered filed within that period.

(ii) *Action on review.* After due consideration, the Regional Administrator shall grant or deny the application for dealer authorization or affirm or reverse the order of revocation issued by the District Director. However, where the authorized Regional Administrator denied the application for dealer authorization in the first instance or revoked the dealer authorization the Administrator shall grant or deny the application for dealer authorization or affirm or reverse the order of revocation. The person whose application has been reviewed or the person who has had the revocation of his dealer authorization reviewed, shall be informed by order of the action taken.

[Subparagraphs (1) and (ii) amended by Am. 5, 10 F.R. 7930, effective 6-27-45]

(iii) *Maximum prices of applicant for dealer authorization or of persons whose dealer authorization has been revoked*—(a) *Applicant for dealer authorization.* No applicant for dealer authorization shall charge prices higher than base prices in Appendix B plus the allowance of $75 for side car, if any, unless he is specifically authorized by order to charge maximum warranted prices in section 5 for warranted used motorcycles defined in section (7).

(b) *Person whose dealer authorization has been revoked.* No person whose dealer authorization has been revoked shall charge prices higher than base prices in Appendix B plus allowance of $75 for side car, if any, unless he is specifically authorized by order to resume charging warranted maximum prices for warranted used motorcycles defined in section (7).

[Headnote amended by Am. 6, effective 11-7-45]

(4) *Protest of denial of application for dealer authorization or of revocation of dealer authorization.* When on request for review the Regional Administrator or the Administrator, whoever is applicable, issues an order denying an application for dealer authorization, or affirming a revocation of a dealer authorization, the applicant, or the person whose dealer authorization has been revoked, whoever it may be, may file a protest against such order in accordance with the provisions of Revised Procedural Regulation No. 1. There is no specific statutory limit of time within which protests must be filed. However, if the filing of a protest is unduly delayed, the defense of laches (unreasonable delay) may be available to the Administrator. Where an order is issued denying an application for dealer authorization or revoking a dealer authorization ordinarily there will be no reason why a protest cannot be filed promptly after the order of denial is issued. Accordingly, if a protest is filed more than 90 days after the issuance of the order, the Administrator will ordinarily regard the delay as unreasonable and dismiss the protest unless special circumstances are shown which justify the delay.

[Subparagraph (4) amended by Am. 6, effective 11-7-45]

(5) *Revocation of authorization to sell as dealers in effect prior to August 1, 1945.* Any and all authorizations to sell as dealers which were granted under section 16 (b) prior to its amendment by Amendment 3 either by the wording of that section alone or by its wording and a special authorization issued by the Office of Price Administration are revoked as of August 1, 1945.

[Paragraph (b) amended by Am. 3, 10 F.R. 6955, effective 8-1-45, except as to the filing and processing of applications and the issuance of orders of authorization and denial it shall become effective June 27, 1945]

(c) "Sale" includes sales, dispositions, exchanges, and other transfers and contracts and offers to do any of the foregoing. It includes conditional sales and sales under rental contracts, lease agreements or other agreements except as excluded by section 2 (c). It also includes transfers by banks, finance companies, or other persons discounting promissory notes following the taking of possession by such persons upon default of the persons making such promissory notes except as excluded by section 2 (d). The term "sale" does not refer to the adjustments of losses made in connection with settlements of claims under contracts of insurance against fire, theft, collision, other loss of property or other coverage, even though the right of subrogation may be involved, or to transfers to insurers in connection with adjustments of total losses under insurance contracts. The term "sale", "seller", "selling", "purchase", "purchaser" and "purchasing" shall be construed accordingly.

(d) "War procurement agency" includes the War Department, the Department of the Navy, the United States Maritime Commission, the Lend-Lease Section of the Procurement Division of the Treasury Department, and the following subsidiaries of the Reconstruction Finance Corporation: Rubber Reserve Corporation, Metals Reserve Corporation, Defense Plant Corporation, and the Defense Supplies Corporation or any agency of the foregoing.

SEC. 17. *Petitions for amendment.* Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 [9] issued by the Office of Price Administration.

SECTION 1. *Applicability.* Except as provided in paragraph (a) of this section this regulation shall apply to all sales and deliveries within the 48 States and the District of Columbia of the United States of raw and unprocessed soybeans of the 1945 crop.

(a) *Sales excepted.* This regulation shall not apply to

(1) Any sale or delivery of soybeans sold for use as seed for planting in 1946;

(2) Any sale or delivery of soybeans specially cleaned for use in the production of any products for human consumption not involving the extraction of soybean oil;

(3) Any sale or delivery of soybeans to the Commodity Credit Corporation (pursuant to processors' contracts under the Commodity Credit Corporation soybean program for 1945);

(4) Any sale or delivery of soybeans by the Commodity Credit Corporation;

(5) The maximum price at which any person may export soybeans of the 1945 crop shall be determined in accordance with the provisions of the Second Revised Export Price Regulation;

(6) Any purchase by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative, and as to render it impossible to secure, or unfair to require immediate delivery at the maximum price which would otherwise be applicable, if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation, as amended: *Provided, however,* That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group of purchases, upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suited to the circumstances.

SEC. 2. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall, in the course of trade or business, buy or receive any soybeans whose transfer is covered by this regulation at a price above the maximum price established by this regulation, nor shall any person agree, solicit, offer or attempt to do any of the foregoing except as provided in the following subparagraph (1) of this paragraph (a).

(1) Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. Such authorization shall be given by an order issued by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(b) Prices lower than the maximum prices established by this regulation may be charged or paid.

SEC. 3. *Addition of transportation tax to maximum prices.* Whenever a maximum price is determined by the addition of transportation charges, the seller may include as a part of such transportation charges the 3 percent transportation tax, when incurred, as provided for under section 620 of the Revenue Act of 1942.

SEC. 4. *Records and reports.* (a) Every seller subject to this regulation shall keep for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect his customary records including, if any, all bills, invoices and other documents relating to every sale or delivery of soybeans after the effective date of this regulation.

(b) Upon demand every such seller shall submit such records to the Office of Price Administration.

SEC. 5. *Evasion.* The maximum prices set forth in this regulation shall not be evaded in any manner whatsoever in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to soybeans alone, or in conjunction with any other charge, discount, premium or privilege, or by tying agreement or other trade understanding or by changing a previous business practice.

SEC. 6. *Enforcement.* Persons violating any provision of this regulation are subject to the license revocation or suspension provisions, civil enforcement actions, suits for treble damages and criminal penalties as provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 7. *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended. These provisions do not apply to any producer selling soybeans produced by him.

SEC. 8. *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an amendment to any provision of this regulation may do so in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

SEC. 9. *Definitions.* The definitions set forth in the General Maximum Price Regulation shall apply to this regulation except as follows:

"Producer" means, with respect to any lot of soybeans, a person who grows or harvests the soybeans, whether land owner, landlord or tenant.

"Trucker-merchant" means, with respect to any lot of soybeans, a person who purchases soybeans at the farm from the producer and delivers them to a buyer by truck without warehousing.

(1) A trucker-merchant shall, with respect to every sale of soybeans by him, render an invoice to his purchaser stating separately the price for the soybeans and the transportation charge being made; the invoice shall also show the name and address of the producer, the quantity secured at that point, the date of purchase, and the name and address of the trucker-merchant.

(d) *All other sales.* The maximum price for the sale of soybeans by any seller not specifically provided for in paragraphs (a) through (c) of this section, shall be the maximum price which the seller's supplier could lawfully have charged the seller, plus actual lawful transportation charges necessarily incurred by the seller in delivering to his purchaser, plus, to the extent permitted under subparagraph (1) of this paragraph, the appropriate one of the following markups:

APPENDIX A—BASE PRICES

All prices herein are for a bushel of 60 pounds of soybeans after deducting the weight of foreign material and dockage in excess of 2 percent.

For the purpose of determining the applicable base price, all mixtures of green soybeans in class I and yellow soybeans in class II shall be disregarded, and the base price of $2.10 shall be applicable to all such soybeans unless they contain more than five percent of brown, black, and/or bi-colored soybeans, either singly or in any combination.

(b) *Premiums and discounts.* The following premiums and discounts apply to the applicable base price:

Foreign material percentages shall be rounded to the nearest $\frac{1}{10}$ percent.

This regulation shall become effective November 2, 1945, except that the provisions of this regulation shall not apply to deliveries prior to September 30, 1946 of soybeans of the 1945 crop made pursuant to contracts entered into on or before November 2, 1945.

[1] When soybeans contain total damage in excess of 3 percent, the first 3 percent of total damage shall be considered to be damage other than green damage. For the purpose of computing these discounts, total damage and green shall be rounded to the nearest whole percent before computing damage other than green.

In rounding to the nearest whole number of percent, a fraction of one-half or less shall be disregarded and a fraction of more than one-half shall be considered a whole number or whole percent.

FREEZING MEAT IN CARCASS IN CONNECTION WITH PURCHASE BY PRODUCTION AND MARKETING ADMINISTRATION FOR EXPORT

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

A new section 18 is added to read as follows:

SEC. 18. *Freezing meat in carcass under export program of Production and Marketing Administration, U. S. Department of Agriculture.* (a) The maximum total charge for the complete service of freezing meat in carcass in connection with the export program of the Production and Marketing Administration, U. S. Department of Agriculture, shall be 50 cents per hundredweight, subject to the following conditions and rules:

(1) The authorized "total charge for the complete service" includes all charges for in-and-out handling, freezing, and first-month's storage.

(2) Weights to be used shall be "in" weights on receipt before freezing.

(3) The maximum total charge permitted by this Section shall be applicable to meat received in carloads or truckloads (regardless of the number of separate lots contained therein). For lesser quantities, the total maximum charge shall be 50 cents a hundredweight or the warehouseman's established maximum charge for such quantities under Maximum Price Regulation No. 586, whichever is higher.

(4) The freezing service must meet the specifications prescribed therefor by the Production and Marketing Administration.

(5) Identification of shipments as being under the afore-mentioned export program may be accomplished by any means mutually satisfactory to the shipper, the cold storage warehouseman and the Production and Marketing Administration.

(b) Insofar as concerns the particular services and maximum charges covered by this section, the filing requirements of section 12 (b) (4) of Maximum Price Regulation 586 are waived, and warehousemen need not file the supplements to statements of maximum rates ordinarily required thereunder.

(c) This section shall not be effective beyond December 31, 1945 unless, prior to that date, its effectiveness shall have been extended by express amendment of this paragraph (c).

This amendment shall become effective November 2, 1945.

Issued this 2d day of November 1945.

FEDERAL POWER COMMISSION.

[Docket No. G-674]

COLORADO INTERSTATE GAS CO.

NOTICE OF APPLICATION

NOVEMBER 2, 1945.

Notice is hereby given that on October 19, 1945, an application was filed with the Federal Power Commission by Colorado Interstate Gas Company (Applicant), a corporation organized under the laws of the State of Delaware, having its principal place of business in Colorado Springs, Colorado, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of certain facilities hereinafter described.

Applicant receives its gas supply from Canadian River Gas Company and operates a natural gas pipe line system extending from a point of connection with Canadian River Gas Company at Clayton measuring station, Union County, New Mexico, to Denver, Colorado, a distance of approximately 254 miles, where gas is delivered to the Public Service Company of Colorado for resale in the Denver metropolitan area, and to Colorado-Wyoming Gas Company for resale to consumers in Colorado and Wyoming. Applicant also operates branch lines extending to Pueblo, La Junta, Colorado Springs and other points in Colorado. Applicant's entire gas supply originates in the Texas Panhandle.

The facilities which Applicant seeks authorization to construct and operate are described as follows:

(1) One new 800 H. P. natural gas engine and compressor, with necessary appurtenant equipment, at Applicant's Clayton Compressor Station in Union County, New Mexico.

(2) Two new 800 H. P. natural gas engines and compressors, with necessary appurtenant equipment, at Applicant's Cimarron Compressor Station in Union County, New Mexico.

(3) Two new 800 H. P. natural gas engines and compressors, with necessary appurtenant equipment, at Applicant's Canyon Compressor Station in Las Animas County, Colorado.

(4) One new 800 H. P. natural gas engine and compressor, with necessary appurtenant equipment, at Applicant's Devine Compressor Station in Pueblo County, Colorado.

(5) A complete new compressor station, to be known as Applicant's Colorado Springs Compressor Station, to be constructed in El Paso County, Colorado, at a location approximately 10 miles northeast of the City of Colorado Springs, Colorado. This compressor station will initially consist of four new 800 H. P. angle type natural gas engines and compressors, with the necessary appurtenant equipment, together with power generators, after-cooling equipment, circulating pumps, suction discharge lines, the compressor station and auxiliary buildings, and houses for the operators of such station, and all other facilities constituting a complete compressor station.

The application states that the compressor station facilities which Applicant proposes to install will constitute additions to Applicant's existing main line transmission system and will serve to increase the delivery capacity of that system by approximately 8,000 Mcf per day; that Applicant does not expect to serve any additional customers, and no new communities are to be served; that the new construction is primarily for the purpose of meeting the increased demands of the ultimate consumers.

It is estimated that the total cost of these proposed facilities will be $1,196,978.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 17th day of November, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

[Docket No. G-645]

COLORADO-WYOMING GAS CO.

NOTICE OF APPLICATION

NOVEMBER 5, 1945.

Notice is hereby given that on June 21, 1945, an application was filed with the Federal Power Commission by Colorado-Wyoming Gas Company (Applicant), a Delaware corporation, having its principal place of business in Denver, Colorado, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the acquisition, construction and operation of certain facilities hereinafter described.

(1) To purchase from Colorado Interstate Gas Company, at an estimated cost of $58,872, the Arapahoe lateral pipe line, consisting of 39,270 feet of 10-inch pipe line extending from a point on Colorado Interstate's 20-inch line approximately 4 miles south of the Denver town border station to the present location of the Arapahoe measuring station approximately a mile north of Littleton, Colorado, at which station Applicant presently purchases its gas requirements from Colorado Interstate.

(2) To abandon Applicant's 1,200 H. P. compressor station, known as the Arapahoe compressor station at its present location on the Platte River and to reconstruct such compressor station at a new location on the 10-inch Arapahoe lateral pipe line (as described in (1) above) immediately adjacent to the 20-inch main line of Colorado Interstate Gas Company, with necessary appurtenant equipment and facilities to provide a complete compressor station in the new location, including electric generators, a well to provide necessary cooling water, and in addition approximately 1,000 feet of roadway.

The estimated net increase in capital investment to construct the compressor station facilities at the new location is $99,461. This estimate is exclusive of the material to be salvaged in the abandonment of the compressor station facilities in the present location.

Applicant states that it proposes to acquire the 39,270 feet of 10-inch pipe line from Colorado Interstate in order that it may relocate its Arapahoe compressor station at the nearest point practicable to the 20-inch main line of Colorado Interstate and thus materially increase the capacity of its existing facilities, thereby eliminating additional compressors which would otherwise be necessary if such station remained in its present location.

Applicant further states that the relocation of the compressor station facilities will increase the capacity of its existing facilities to 18,000 Mcf daily and place Applicant in a better position to serve ultimate consumers; that Applicant does not contemplate taking on any new business; and that the facilities proposed are to provide capacity to supply the demands of present customers in Colorado and Wyoming.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 19th day of November, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Acting Secretary.

The Commission, with due regard for the public interest and the protection of investors, deeming it appropriate that trading in said Common Stock on the New York Curb Exchange be summarily suspended;

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159c of Maximum Price Regulation No. 188, *It is ordered:*

SECTION 1. *Purpose of this order.* Metal toys have been found to be a reconversion product in accordance with the standards set forth in § 1499.159c of Maximum Price Regulation No. 188. This order specifies a price increase factor for this product; and it sets forth the specific pricing provisions which all sellers are to follow in calculating their maximum prices for sales of the product.

SEC. 2. *Manufacturer's maximum prices.* Manufacturers of metal toys may increase by 14 per cent their f. o. b. factory maximum prices (exclusive of any adjustment charge heretofore authorized) for sales of those articles to each class of purchaser in effect during the period October 1–15, 1941 or which are established under the pricing provisions of Maximum Price Regulation No. 188 (Sections 1499.153 through 1499.158). (b) Stamped metal toys including metal mechanical toys

SEC. 3. *Maximum Prices of purchasers for resale.* A purchaser for resale shall determine his maximum resale price for an article covered by this order pursuant to the method set forth in § 1372.102 of Maximum Price Regulation No. 210 by adding his "initial percentage markup" to the actual invoice price (not to exceed his supplier's ceiling price) to him.

SEC. 4. *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser.

SEC. 5. *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a maximum price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the method established in section 3 for determining adjusted maximum prices for resales of metal toys. This notice may be given in any convenient form.

SEC. 6. *Relationship of this order to Maximum Price Regulations Nos. 188 and 210.* (a) The provisions of this order supersede the provisions of Maximum Price Regulations Nos. 188 and 210 only to the extent that they are inconsistent with the provisions of those regulations.

(b) Any manufacturer establishing a maximum price for a new metal toy under the third pricing method of Maximum Price Regulation No. 188 shall, in stating the maximum price of his comparable articles, use the unadjusted maximum prices of the articles, and not the maximum prices of the articles as adjusted under this order. The price so determined is subject to the increase factor authorized by this order.

SEC. 7. *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

SEC. 8. *Effective date.* This order shall become effective on the 2d day of November 1945.

[SO 133, Order 7]

JAMES HILL MANUFACTURING CO., INC.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to sections 4 and 6 of Supplementary Order No. 133, *It is ordered:*

(a) James Hill Manufacturing Co., Inc., 20 Gordon Avenue, Providence, Rhode Island, may increase by no more than 8.3 percent its existing maximum prices to each class of purchaser for galvanized metal articles covered by Maximum Price Regulation No. 188, of its manufacture.

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of articles which the manufacturer has sold at adjusted maximum prices permitted by paragraph (a) above, shall determine their adjusted maximum prices as follows:

(1) A purchaser for resale who has already established his maximum prices under the General Maximum Price Regulation for his resales of such articles prior to the issuance of this order, may increase such maximum prices by the percentage increase charged by his supplier as permitted by this order, but not by more than 8.3 percent.

(2) A purchaser for resale who has not established his maximum prices for such articles under the General Maximum Price Regulation shall proceed to do so, and may increase the maximum prices established under § 1499.2 of that regulation by the percentage increase charged by his supplier as permitted by this order, but not by more than 8.3 percent.

However, if the applicable pricing provision of the General Maximum Price Regulation is § 1499.3 (a) which requires his maximum prices to be determined on his bases of cost, the seller shall use the actual invoice price to him as his cost, and the price as computed shall not be increased in any amount.

Ceiling prices which will be established under § 1499.3 (c) of that regulation, if that is the applicable pricing provision, will be based upon the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a price adjusted in accordance with the terms of this order, the seller shall notify such purchaser in writing of the methods established in section (b) for determining adjusted maximum prices for resales of the articles covered by the order and the percentage by which he has increased his prices as permitted by this order. This notice may be given in any convenient form.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on November 6, 1945.

Issued this 5th day of November 1945.

CHESTER BOWLES,
Administrator.

TWENTY-DAY INVENTORY ON COKE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of coal and coke for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

(a) No person, including a Government operated establishment, may accept delivery of any coke if his inventory of it is or will by virtue of such acceptance become more than he expects to use during the succeeding twenty days on the basis of his current or scheduled method and rate of operation.

(b) This direction does not apply to:

(1) Coke which on the effective date of this direction was billed or in transit;

(2) Any delivery of a carload of coke or less to any person who at the time of delivery has in his inventory less than a twenty day supply of coke. However, he may not thereafter accept delivery of any additional quantities until his inventory is again less than a twenty day supply;

(3) Delivery of coke to any person who acquires it for space heating, domestic hot water, or cooking;

(4) Delivery of coke to any person buying for resale.

(c) No person may place any order for coke requesting delivery which would result in an inventory in excess of that permitted by this direction. A person must immediately cancel, reduce or defer any order for coke which has been placed where the scheduled delivery would result in an inventory in excess of that permitted by this direction.

(d) No person may deliver any coke if he knows or has reason to believe that acceptance of such delivery would be in violation of this direction.

(e) Any appeal from this direction should be filed by letter in triplicate to the Civilian Production Administration, Steel Division, Washington 25, D. C., Ref: PR 32, Direction 4, referring to the provision appealed from and stating fully the grounds of the appeal.

During the period from March 1 to August 31, 1944, they completed the manufacture of 1,285 pairs of women's shoes in a price line of $6.25 to $6.50, and 124 pairs in a price line of $7.00, without authorization from the War Production Board and in violation of Conservation Order M-217. During the period from September 1, 1944 to February 28, 1945, they completed the manufacture of 11,652 pairs of women's shoes in a price line of $6.25 to $6.86, 75 pairs in a price line of $7.00 to $7.70, 406 pairs in a price line of $8.00 to $8.80, 155 pairs in a price line of $9.00 to $9.90, and 781 pairs in a price line of $10.00 to $11.00, all without authorization from the War Production Board and in violation of Conservation Order M-217. § 1010.910 *Suspension Order No. S-910.* (a) During the four month period beginning September 1, 1945 and ending December 31, 1945, Max Horowitz and Esther Horowitz shall reduce their manufacture of women's shoes in the $5.00 to $5.49 and the $5.50 to $6.05 price ranges by 6,000 pairs less than they would otherwise be entitled to manufacture under the provisions of Conservation Order M-217.

(b) Nothing contained in this order shall be deemed to relieve Max Horowitz and Esther Horowitz from any restriction, prohibition, or provisions contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to Max Horowitz and Esther Horowitz doing business as Royal Footwear Company, or under any other name, their successors or assigns, or persons acting on their behalf. PART 4500—UTILITIES

[Utilities Order U-10, as Amended Nov. 6, 1945]

CONSERVATION OF COAL BY MANUFACTURED GAS UTILITIES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of coal for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 4500.66 *Utilities Order U-10*—(a) *Purpose of the order.* The purpose of this order is to save coal by reducing the amount used in producing manufactured gas.

(b) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Utility" means any person in the United States engaged in producing, transmitting or supplying manufactured gas directly or indirectly for general use by the public. "Utility" does not include any person supplying only natural gas or mixed natural and manufactured gas.

(3) "Non-utility producer" means any person who owns or operates any manufactured gas production or transmission facilities and who is not included in the definition of "utility" in paragraph (b) (2).

(4) "Consumer" means any ultimate user of manufactured gas produced, transmitted or distributed by any utility or by any non-utility producer which is interconnected with any utility.

(5) "Manufactured gas" means any combustible gas produced by any manufacturing process (other than liquefied petroleum gas unmixed with any gas produced by any other manufacturing process).

(6) "Standby facilities" means equipment designed to use another fuel to replace gas, and for the operation of which a supply of fuel is available or obtainable.

(c) *Restriction on use of coal gas facilities.* (1) Each utility and each non-utility producer shall conserve coal by the employment of all practical methods.

(2) Each utility and each non-utility producer having facilities for obtaining manufactured gas directly or indirectly from water gas and coal gas manufacturing facilities, shall, so far as practicable, operate its facilities so as to maximize supplies of gas obtained from water gas facilities and reduce the operation of coal gas facilities.

(d) *Standby facilities.* Each consumer having standby facilities shall so far as practicable maximize his use of those facilities and to a corresponding extent reduce his acceptance of manufactured gas from his utility supplier. Each utility, without regard to its contractual rights or those of any consumer, shall reduce deliveries to all consumers who have standby facilities, to the extent to which the operation of such facilities as required by this paragraph has reduced the consumers' requirements for the delivery of manufactured gas from the utility.

(e) *Exceptions.* The provisions of paragraphs (c) (2) and (d) above do not apply to persons west of the Mississippi River.

(f) *Directions.* The Civilian Production Administration may from time to time issue directions with respect to deliveries of manufactured gas.

(g) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional or unreasonable hardship on him may appeal for relief to the Civilian Production Administration, which may grant such specific exemptions or take such action as may be consistent with the purposes of this order.

(h) *Violations.* Any person who wilfully violates any provision of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority or allocation control.

(i) *Communications.* Communications concerning this order may be addressed to the Civilian Production Administration, Washington 25, D. C., Ref: U-10.

(j) *Expiration date.* This order expires November 15, 1945.

Issued this 6th day of November 1945.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 478, Amdt. 10]

COATED AND COMBINED FABRICS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 478 is amended in the following respects:

A new section designated section 15a is added to read as follows:

SEC. 15a. *Industry-wide adjustments for reconversion products.* Special pricing provisions applicable to particular products may be established by orders issued under this section when, with respect to the product, the Administrator finds:

(a) That in 1944 its production was approximately one-half or less of its production in its last representative period of peacetime production;

(b) That this reduction in dollar volume resulted from (1) governmental restrictions on the manufacture of products or on the use of materials, facilities, or manpower, or (2) the use of facilities for the production of war goods, or (3) other direct needs of the war effort; and

(c) That because of change in government restrictions or in the needs of the war program, manufacturers of the product generally are able to begin or to increase substantially the production of the product line.

If in the judgment of the Administrator, the purposes of this section will be effectuated, as to a particular product, without any special pricing provisions, an order under this section will not be issued with respect to that product even though the above findings could be made as to it.

Orders under this section, will generally authorize industry-wide increases in the established maximum prices of manufacturers in those industries, based upon surveys conducted by the Price Administrator, either upon the request of the particular industry or upon his own motion. Those orders will establish adjusted maximum prices or methods of determining such prices by the use of price increase factors. Where, however, in the judgment of the Price Administrator, the use of an industry-wide factor will, by reason of the diversity in the products made by the member firms, the wide variation in cost experience among them, or other reasons, be an inequitable and inappropriate means of establishing reconversion prices, he may provide for the calculation and application of individual price increase factors.

Broadly stated, the new maximum prices will represent costs experienced during the last period of normal production adjusted for subsequent lawful changes in the level of materials prices and in basic wage rate schedules of factory workers, plus the industry's average peacetime profit margin over cost. Changes in materials prices may be measured by materials cost increase factors, determined by the Administrator, in those cases where such action may be necessary to eliminate temporary or artificial influences. In the case of an industry for which the Administrator has decided that price increase factors should be determined and applied for each firm, the profit element in each increase factor will be the firm's own base period profit margin or one-half of the industry's average peacetime margin, whichever is the higher.

Orders issued under this section may also modify or supersede the provisions of Maximum Price Regulation No. 478 with respect to the establishment of maximum prices, if, on the basis of the particular characteristics of the industry involved, the Administrator finds that another method of price determination will effectuate the purposes of this regulation better that the general pricing provisions of the regulation. In addition, those orders may establish new maximum prices or a method of determining new maximum prices for sales by persons other than manufacturers which will supersede maximum prices fixed by other regulations for such sales and which will be consistent with the standards applied by the Office of Price Administration for the reasonable absorption of necessary cost increases.

Orders issued under this section will not ordinarily reduce higher maximum prices which manufacturers have previously established in accordance with the applicable provisions.

A manufacturer of a product covered by an order issued under this section may not obtain an adjustment of his maximum prices under any adjustment provision other than Supplementary Orders Nos. 118 and 119, unless the adjustment provision itself or the order issued under this section covering his product expressly provides otherwise.

Small volume manufacturers may use as their new maximum prices those which they calculate under Supplementary Order No. 118, and general orders issued pursuant thereto, if the maximum prices so calculated are higher than maximum prices set under orders issued under this section. Any other manufacturer may apply for an individual adjustment under Supplementary Order No. 119 if, after the adjustment authorized for his industry by an order under this section, his maximum price still continues eligible for adjustment in accordance wth the provisions of that supplementary order.

Orders issued under this section may require a manufacturer to arrange the production and distribution of his products so that they will be representative of his production and distribution in a specified past period for goods in a particular category. The Administrator may also require authorized price increases to be applied among articles or price lines in a manner consistent with the need, under the stabilization program, to maintain the production of lower-priced articles.

This amendment shall become effective November 10, 1945.

Issued this 6th day of November 1945.

CHESTER BOWLES,
Administrator.

PHOSPHATE ROCK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Two new paragraphs are added to the end of Appendix A 2 of Revised Maximum Price Regulation 240 to read as follows:

PART 1499—COMMODITIES AND SERVICES

[SR 14-H, Amdt. 5]

PICK-UP AND DELIVERY AND LOCAL TRANSFER SERVICES

A statment of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 9 is amended to read as follows:

SEC. 9. *Establishment and adjustment of maximum rates of carriers, other than common carriers, performing pick-up and delivery or local transfer services for line-haul carriers.* The maximum charges of carriers of property, other than common carriers, engaged in "pick-up and delivery" and "local transfer" operations are established basically under § 1499.2 and other applicable provisions of the General Maximum Price Regulation. They are also subject to certain provisions for adjustment contained in the latter regulation and in Supplementary Regulation No. 15. The purpose of this section 9 is to establish a further, and supplemental, provision for individual establishment and adjustment of rates for "pick-up and delivery" and "local transfer" services.

(a) *Definitions.* As used in this section:

(1) "Pick-up and delivery services" means the local transportation of property between a terminal of a line-haul carrier on the one hand and the premises of the consignee or consignor on the other.

(2) "Local transfer service" means the local transportation of property which is moving through under line-haul carriers' published rates from one terminal of a line-haul carrier to another terminal of the same carrier or to that of another connecting line-haul carrier.

(3) "Line-haul" includes freight forwarders, express companies, and air carriers, as well as railroads, motor carriers, and water carriers.

(4) "Applicable base date" refers to services performed during March 1942 and means October 1, 1941, or the date prior to March 31, 1942 upon which the present maximum rate became effective, whichever is closer to March 31, 1942; except that if, the present maximum rate became effective after March 31, 1942 pursuant to approval of the Office of Price Administration, the date upon which such approved rate became effective is the "applicable base date".

(5) "Pick-up and delivery carrier" or "local operator" means a carrier who performs "pick-up and delivery" or "local transfer" services for a "line-haul carrier".

(6) "Base period" means April 1, 1941 through March 31, 1942. If the service was not performed during that period the twelve-month period following the establishment of the service is the base period.

(b) *Adjustment*—(1) *When adjustment may be made.* An increase in the maximum rate for performance of "pick-up and delivery" and "local transfer service" may be approved by the Office of Price Administration in any case where, upon application filed in accordance with the provisions of paragraph (c), it is shown that:

(i) The actual cost of materials and labor used in supplying the service exceeds those costs in the "base period" by an amount so large as to threaten the continued performance of the service; and

(ii) The "line-haul carrier" cannot procure satisfactory performance of the service from applicant or from any other "local operator" at rates lower than the requested rate; and

(iii) Discontinuance of the service will result in higher transportation cost to shippers and consignees; and

(iv) The "line-haul carrier" expressly agrees to pay and absorb the requested higher rate for "pick-up and delivery" or "local transfer service", and states that it will not increase its own charges on that account. (This statement is made without prejudice to the "line-haul carriers' " right to present for consideration by any regulatory authority, the increased cost resulting from the new "pick-up and delivery" or "local transfer" rates, together with any cost increases, in any future application for a general rate increase based on revenue needs.)

(v) The requested increased rate does not exceed the limit prescribed in subparagraph (2), immediately following.

(2) *Adjustment to be allowed.* The Office of Price Administration may approve an increase in rate under this section up to a rate which will not result in a higher ratio of net income to revenue than in the "base period" or which will remove substantial hardship resulting from existing maximum rates.

(c) *Applications*—(1) *Form.* Applications for adjustment under this section shall be filed on Form OPA 383-8, or as subsequently revised, and shall contain all the information and statements called for therein.

(2) *Where to file.* Applications shall be filed directly with the Transportation and Public Utilities Division, Office of Price Administration, Washington 25, D. C.

(3) *Who may file.* Applications under this section may be filed by either the "local operator" or the "line-haul carrier".

(4) *National War Labor Board cases.* Regardless of the foregoing, if the application is based on a voluntary wage increase requiring approval of the National War Labor Board, such application must be filed within 15 days after the wage-adjustment application is filed with the N. W. L. B.; if it is based on a disputed wage increase case, it must be filed within 15 days after the "local operator" shall have received notice of the N. W. L. B.'s proposed decision.

(d) *Approval, modifications, and effectiveness of adjustments*—(1) *Action by OPA.* Upon consideration of the application, the Administrator will issue an order denying, in whole or in part, the requested adjustment in rate, or the Director of the Transportation and Public Utilities Division will issue a notice of approval or require that additional information be submitted. If none of these actions is taken within 30 days after the filing of the application, or after additional information has been supplied, the application shall be deemed to be approved. Note, however, that all approvals—whether made by affirmative action or by operation of the 30-day provision—are subject to revocation or modification by the Administrator at any time.

(2) *Charging the adjusted rate.* An increased rate requested under this section may be charged on open billing pending consideration of the application. Collection may not be made until an order has been issued (and then only to the extent permitted thereby) or until written notice of approval by the Transportation and Public Utilities Division of the Office of Price Administration has been received, or until the 30-day period has run, as provided in paragraph (d) (1) above. Increased rates based on wage increases requiring approval by the National War Labor Board may be charged on open billing pending consideration of the application but may not be collected until receipt of written notice of approval by the Office of Price Administration after the wage increase is made finally effective.

If any charge not permitted by this section is collected by the "local operator" pending consideration of the application by OPA, such collection constitutes a price violation of this regulation.

(3) *Effective date of adjusted rate.* Notices of approval shall provide a definite effective date for application of the adjusted rate. The effective date will be a date within the 30-day period after filing, or, in an appropriate case, a date expressly agreed upon by the "line-haul carrier" and the "local operator" as set forth in the application as the date for effectiveness of the adjusted rate.

In cases where the requested rate is deemed approved through operation of the 30-day rule (paragraph (d) (1)), the effective date shall be the date on which the 30-day period expires.

The adjusted rate may not in any case be applied to services performed prior to the effective date as thus determined.

(e) *Successors may use predecessor's rate.* The maximum rates of a "local operator" for a given "pick-up and delivery" or "local transfer" service having been established pursuant to OPA regulations (or adjusted pursuant to this section), those rates may continue to apply as the lawful maximum rates for those services performed by any transferee, subcontractor, or other carrier who may succeed to and operate that service. This rule applies regardless of whether there is a formal purchase of business and asssets, etc., as between the "local operators", or whether the successor is merely a "replacement" supplying the service which has been abandoned or discontinued, for any resaon, by the preceding "local operator."

(f) *Establishment of new rates.* In any instances where there is no existing maximum price for a particular service, application may be made on OPA Form 383:8 in accordance with the procedure described above, using estimated expenses and revenues in lieu of actual expenses and revenues, or previously established maximum rates for similar services.

(g) *Establishment of area maximum rates.* The Administrator may consolidate individual applications or undertake an investigation on his own motion and by general order issued under this section, prescribe maximum rates to apply to all pick-up and delivery carriers in a given city or other area.

This amendment shall become effective November 10, 1945.

NOTE: All reporting requirements of this Amendment have been approved by the Budget Bureau in accordance with the Federal Reports Act of 1942.

Issued this 6th day of November 1945.

CHESTER BOWLES,
Administrator.

Chapter XVIII—Office of Stabilization Administrator, Office of War Mobilization and Reconversion

[Directive 86]

PART 4003—SUPPORT PRICES; SUBSIDIES

DRY EDIBLE BEANS, 1945 CROP

S. No. 2 provided they grade U. S. No. 3 off-color or better.

Accordingly, pursuant to the authority vested in the Stabilization Administrator by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4681), Executive Order 9599 of August 18, 1945 (10 F.R. 10155), Executive Order 9620 of September 20, 1945 (10 F.R. 12033), the directive of October 13, 1945, issued by the Director of War Mobilization and Reconversion (10 F.R. 12812), and Executive Order 9651 of October 30, 1945 (10 F.R. 13487), *It is hereby ordered:*

S. No. 2, provided they grade U. S. No. 3 off-color or better. The subsidy payments shall be in the amounts by which the support prices for such beans exceed the applicable Office of Price Administration maximum prices on such beans sold into civilian trade channels. This directive shall not affect the payment of subsidies on beans grading U. S. No. 2 or better in accordance with Directive 67 (10 F.R. 8750), issued by the Economic Stabilization Director.

(b) The selling agency shall determine the period of active use of the machine on the basis of the best information reasonably available. The period of active use shall be considered to run from the estimated date the machine was originally put into use to the date of sale, if the machine is then still in use. If the machine is not in use at the time of sale, the period shall run to the estimated date when the machine last became idle.

(c) The original price determined in accordance with paragraph (a) shall be used as a base. The price at which the machine shall be sold shall be computed by applying to that base the percentage appearing in paragraph (d) below opposite the period of active use of the machine calculated in accordance with

paragraph (b). The percentage appearing in Column B of paragraph (d) shall be applied where the buyer is the person who is using the machine at the time of sale or, if the machine is then idle, the person who last used it, and the percentage appearing in Column A shall be applied where the sale is to any other buyer. The price computed in accordance herewith shall be the sales price f. o. b. the location of the machine at the time of sale, except that in the case of sales made to a purchaser in possession, it shall be the sales price of the machine at its location.

(d) The percentages of original cost to be applied are as follows:

FEDERAL POWER COMMISSION.

[Docket Nos. G-507, G-508]

HOPE NATURAL GAS CO. AND NEW YORK STATE NATURAL GAS CORP.

NOTICE OF PETITIONS FOR MODIFICATION OF ORDER ISSUING CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

NOVEMBER 5, 1945.

Notice is hereby given of the several petitions of New York State Natural Gas Corporation ("New York State Company" and "Petitioner"), a corporation organized under the laws of the State of New York with its principal place of business at 30 Rockefeller Plaza, New York, New York; and Hope Natural Gas Company ("Hope" and "Petitioner"), a corporation organized under the laws of the State of West Virginia with its principal place of business at 445 West Main Street, Clarksburg, West Virginia, filed with the Federal Power Commission on October 11, and October 30, 1945, respectively, requesting modification of paragraph (C) of the Commission's order of April 26, 1944, issuing to petitioners certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, In the matters of Hope Natural Gas Company, et al., Docket Nos. G-507, G-508, G-510, G-516, and G-519, Opinion No. 114.

Paragraph (C) of the Commission's order of April 26, 1944, reads as follows:

(C) Until further order of the Commission, the facilities herein authorized shall be operated exclusively for the purpose of enabling Hope Natural Gas Company and New York State Natural Gas Corporation to supply the natural-gas requirements of the following-named customers of New York State Natural Gas Corporation in accordance with the terms and provisions of existing contracts covering the sale and delivery of such requirements, limited, however, to the maximum annual quantities of natural gas set forth in the following tabulation:

	Annual volume (m.c.f.)
New York State Electric & Gas Corp	1,900,000
Central New York Power Corp	3,300,000
Empire Gas and Fuel Co. (Pa.)	303,750
Godfrey L. Cabot, Inc	592,750
North Penn Gas Co. and Allegany Gas Co	1,581,250
Penn-York Natural Gas Corp	1,718,000

In its petition filed October 11, 1945, New York State Company requests the Commission to modify the limitation imposed by paragraph (C) of the order of April 26, 1944, upon the sale and delivery of natural gas to Empire Gas and Fuel Company. The petitioner requests that the limitation be modified in such manner as to permit petitioner to increase from 303,750 Mcf to at least 669,000 Mcf the maximum annual quantity of natural gas deliverable to Empire Gas and Fuel Company.

The present limitation of 303,750 Mcf on the maximum annual quantity of natural gas deliverable to Empire Gas and Fuel Company is the total of the daily deliveries provided for in New York State Natural Gas Corporation Rate Schedule FPC No. 19; that is, 1,000 Mcf per day during the months of January through April and 750 Mcf per day during the other eight months of each year. In its petition, New York State Company states that on September 6, 1945, it entered into a supplemental agreement with Empire Gas and Fuel Company which would amend New York State Natural Gas Corporation Rate Schedule FPC No. 19, and provide for the delivery by New York State Company to Empire Gas and Fuel Company of an additional quantity of 1,000 Mcf per day after January 1, 1946. The supplemental agreement further provides that December deliveries beginning December 1, 1945, are to be 1,000 Mcf per day instead of 750 Mcf and April deliveries thereafter will be 750 Mcf per day instead of 1,000 Mcf.

The supplemental agreement, New York State Company states in its petition, was entered into at the instance and request of Empire Gas and Fuel Company to meet anticipated requirements of that company. The change or increase in quantity, the petitioner states it has been advised, will enable Empire Gas and Fuel Company to sell an additional quantity of gas to Empire Gas and Fuel Company, Ltd., and the receipt thereof by that company will offset anticipated declines in its own production and purchases from its affiliate, the Empire Producing Corporation, and from local producers, and thus make possible adequate service to consumers.

In its petition filed October 30, 1945, Hope requests the Commission to modify the limitation imposed by paragraph (C) of the order of April 26, 1944, so as to permit the petitioner to sell and deliver to New York State Company such additional quantities of natural gas as to enable New York State Company to meet the requirements of Dempseytown Gas Company, 304,000 Mcf per year,[1] and the additional requirements of Empire Gas and Fuel Company hereinbefore referred to.

In its petition, Hope states that it is presently selling natural gas to New York State Company pursuant to an agreement of November 1, 1943, Hope Natural Gas Company Rate Schedule FPC No. 9, which agreement provides in part that Hope will deliver and sell natural gas to the New York State Company in quantities varying between 14,000,000 Mcf per year and 6,000,000 Mcf per year. Hope, in the petition, further states that it believes the limitation imposed by paragraph (C) of the Commission's order of April 26, 1944, is designed to curb the marketing operations of New York State Natural Gas Corporation and is inapplicable to Hope as such, and that any limitation on Hope should be based upon its own contractual relation with New York State Company.

Hope requests the Commission to modify paragraph (C) of the order of April 26, 1944, in such manner as to permit Hope to supply the natural-gas requirements of New York State Company in accordance with the terms and provisions of the existing contract between the companies and up to the maximum quantity of 14,000,000 Mcf per year.

Any person desiring to be heard or to make any protest with reference to said petitions should, on or before the 20th day of November, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

[SEAL] LEON M. FUQUAY,
Secretary.

[1] On October 16, 1945, New York State Natural Gas Corporation, Docket No. G-508, filed with the Federal Power Commission an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authority to deliver and sell to Dempseytown Gas Company natural gas to be transported through the facilities authorized by the Commission by the order of April 26, 1944.

On October 3, 1945, Dempseytown Gas Company, Docket No. G-670 filed with the Federal Power Commission an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authority to construct and operate facilities for the purpose of transporting natural gas to be purchased from New York State Natural Gas Corporation and selling such gas at wholesale and retail in the counties of Clarion, Venango and Forest, all within the State of Pennsylvania.

§ 105.1 *Accounts and records.* The term "accounts", as used in this part, means the monthly or periodical accounting required by law and regulations for all money obtained and disposed of while acting in an official capacity as an officer of the United States Government. Accounts shall contain full details of each official or semi-official financial transaction. Accounts shall be supported by fully itemized vouchers, schedules and other supporting documents together with such additional explanations and justifications as may be necessary to support the transactions.

The term "records," as used herein, means the accounting documents, papers, records and books of record which an officer is required to maintain as a permanent record of the financial and related transactions of his office.

Diplomatic, consular, and all other disbursing officers in the Foreign Service shall keep separate general accounts of all moneys of the United States or other moneys coming into their possession, in their official capacities, from any source and for any purpose whatever, and shall render accounts of the same in such manner, on such forms, and at such times as may be prescribed by the Secretary of State. These officers shall keep a general cash book and such other account books as may be required, according to the needs of their offices, to show all details of receipts and expenditures, to insure accuracy, and to enable the principal officers to exercise complete control over the funds of their offices.

* * * * *

§ 105.4 *Disbursing officers and authorized certifying officers*—(a) *Disbursing officers*—(1) *Disbursing officer defined.* The term "disbursing officer" as used in this part means an officer or employee who has been bonded, and delegated authority by the Division of Disbursement, Treasury Department, to perform disbursing functions in the Foreign Service, pursuant to the provisions of Executive Order 6166, dated June 10, 1933, section 4, (5 U.S.C. 124).

(2) *Responsibility of disbursing officers.* Pursuant to the provisions of 31 U.S.C. 82b, disbursing officers shall:

(i) Disburse moneys only upon, and in strict accordance with, vouchers duly certified by the head of the Department, establishment, or agency concerned, or by an officer or employe thereof duly authorized in writing by such head to certify vouchers;

(ii) Make such examination of vouchers as may be necessary to ascertain whether they are in proper form, duly certified and approved; and

(iii) Be held accountable accordingly.

(3) *Officers qualified to disburse and render accounts.* Officers qualified to disburse funds and render accounts are:

(i) All Foreign Service officers;

(ii) All vice consuls not included in (i);

(4) *Officers authorized to disburse.* Officers authorized to disburse are:

AT MISSIONS

(i) The Foreign Service officer acting as chargé d'affaires ad interim or the ranking Foreign Service officer on duty;

(ii) Any special disbursing agent appointed and designated by the Department;

(b) Any vice consul at a combined office; and

(c) Any other American officer or clerk who has specially qualified to disburse.

Disbursing and certifying functions must be performed by different officers whenever either function is delegated to subordinates.

AT CONSULAR OFFICES

(v) The consular officer in charge;

(vi) Any special disbursing agent appointed and designated by the Department; and

(vii) Any of the following officers after recommendation by the consular officer in charge and advance designation by the Department to perform disbursing functions:

(b) Any other American officer or clerk who has specially qualified to disburse.

Disbursing and certifying functions must be performed by different officers whenever either function is delegated to subordinates.

(5) *Assistant disbursing officers.* In the event that any disbursing officer (as defined in subparagraph (1) of this paragraph) requires the services of an assistant authorized to sign checks on a local Government depositary or on the Treasurer of the United States in the name of the disbursing officer followed by the signature of the assistant, or to render the accounts in the name of the disbursing officer during temporary absences, the need therefor should be explained to the Division of Budget and Finance of the Department by airgram or despatch recommending by name and title the person desired to act as assistant. Any special disbursing officer may nominate a qualified member of the staff for such duty. No person shall act as an assistant disbursing officer who has not been designated as such by the disbursing officer on Treasury Form M-92 furnished by the Department after receipt of the officer's explanation of the need for an assistant and the Department of State and the Treasury Department have approved such designation and the disbursing officer has been notified of the approval. The assistant disbursing officer must be bonded in accordance with the provisions of § 101.7 of this chapter.

(b) *Authorized certifying officers—*(1) *Authorized certifying officer defined.* The term authorized certifying officer for the Department of State means an officer or employee who has been bonded in accordance with § 101.7 of this chapter and who has been authorized by the Secretary of State, in writing, to certify vouchers for payment from the appropriations of this Department pursuant to 31 U.S.C. 82c, 82d and 82f.

(2) *Responsibility of authorized certifying officers.* An authorized certifying officer certifying a voucher shall:

(i) Be held responsible for the existence and correctness of the facts recited in the certificate or otherwise stated on the voucher or its supporting papers; for the legality of the proposed payment under the appropriation or fund involved; and for the correctness of the computations therein;

(ii) Be required to give bond to the United States, with good and sufficient surety, as provided in § 101.7; and

(iii) Be held accountable for and required to make good to the United States the amount of any illegal, improper, or incorrect payment resulting from any false, inaccurate, or misleading certificate made by him, as well as for any payment prohibited by law or which did not represent a legal obligation under the appropriation or fund involved.

(3) *Officers and employees authorized to certify vouchers.* The following officers are hereby authorized to certify any voucher chargeable to an appropriation under the control of the Department of State for payment in the United States or abroad:

(i) All Foreign Service officers;

(ii) All vice consuls; and

(iii) Any bonded ambassador, minister, or other officer or employee, when specially authorized by the Secretary of State to act as an authorized certifying officer, provided the disbursing officer has been notified by the Department of the special authorization.

Certifying and disbursing functions must be performed by different officers whenever either function is delegated to subordinates.

(4) *Who shall certify vouchers for payment.* The ranking Foreign Service officer on duty at a mission or combined office, or the consular officer in charge of a consular office shall certify all vouchers prior to payment by the disbursing officer unless another Foreign Service officer, vice consul, or specially qualified employee has been recommended by the officer in charge of the office and designated by the Department to perform these duties. Any authorized certifying officer may certify his own vouchers for reimbursable travel expenses in proceeding to or from a post under official orders.

§ 105.5 *Officers temporarily in charge.* (a) Where a principal officer is absent temporarily for one or more brief intervals during an accounting period and the officer temporarily in charge during such absence draws no drafts and makes no disbursements, the principal officer may submit the account for the full accounting period and it will be a sufficient accounting by the relief officer if he:

(1) Complies with the provisions relating to fee stamps (see § 105.20);

(2) Executes the certificate for a vice consul or other officer in charge, on the reverse of the principal officer's account current; and

(3) Submits with such certificate a schedule of collections on the form prescribed and a sworn record of fees collected by him supported by the receipt of the principal officer for the amount of such collections turned over to him.

(b) If an officer temporarily in charge makes any disbursements or draws any drafts he shall make a complete accounting for all funds coming into his possession and for all disbursements made during the period.

(c) Except where provision is expressly made therefor, no officer should take over vouchers paid by another officer, charge himself with drafts drawn by another officer, or include such items in his accounts.

* * * * *

§ 105.8 *Special deposits, seperate drafts, and separate accounts.* (a) When an officer is instructed to draw a separate draft for a special deposit or for any other purpose he shall not include any other amount on the draft drawn under that authority and, unless otherwise specifically instructed, the draft, the payments made therefrom, and other related transactions shall be accounted for in the regular office accounts.

(b) When an officer is instructed to draw a separate draft and render a separate account he shall not include any other amount on the draft drawn under that authority and he shall prepare and forward to the Department a separate account showing the draft, the payments made therefrom, and other related transactions. When a separate accounting is required the transaction shall not be included in the regular accounts of the office.

* * * * *

§ 105.10 *Appropriations.* Appropriations as used herein are sums made available by acts of Congress for expenditure by the Department of State for specified purposes and, except as otherwise provided by law, sums appropriated for the various branches of expenditure in the public service shall be applied solely to the objects for which they are respectively made, and for no others. (31 U.S.C. 628.)

§ 105.11 *Deposit of public money.* (a) The Secretary of the Treasury may designate such depositaries of public moneys in foreign countries and in the Territories and insular possessions of the United States as may be necessary for the transaction of the Government's business, under such terms and conditions as to security and otherwise, as he may from time to time prescribe: *Provided*, That in designating such depositaries American financial institutions shall be given preference wherever, in the judgment of the Secretary of the Treasury, such institution is safe and able to render the service required. (31 U.S.C. 473). When the Secretary of the Treasury has designated a depositary of public moneys for use by an office of the Foreign Service, the deposit of public moneys by that office with another banking institution is not authorized.

(b) At posts at which a depositary of public moneys has not been designated for their use, officers of the Foreign Service of the United States may when necessary, in their discretion and at their own risk, make temporary deposits of funds on hand and maintain accounts with banking institutions which they may select for the purpose. Nothing in this authorization may be construed to relieve them of complete responsibility to account for official funds coming into their possession.

(c) When official funds are deposited temporarily in a bank, the deposit should be made in the name of and to the credit of the office rather than the officer wherever the banking facilities at a given post permit such practice. Official and personal bank accounts must be kept separate and distinct in all cases.

(d) All officers of the Foreign Service, before depositing funds in a bank of the United States, shall determine that such bank has been delegated as a depositary of public moneys received by such officers.

* * * * *

§ 105.16 *Other services for which no fee is charged.* In addition to the no-fee requirements contained in the tariff, the following services are to be performed without fee:

(a) Any services which officers may be called upon to perform under Items Nos. 24, 28, 31, 32, 34, 36, 37, and 46 of the Tariff of United States Foreign Service Fees when performed in connection with the settlement of the estate of any employee of the United States dying abroad while on official duty;

(b) Any service which officers may be called upon to perform under Items Nos. 24, 28, 31, 32, 34, 36, and 37 of the Tariff of United States Foreign Service Fees for the use of any person in the collection of claims from the United States, or in connection with any claim or application for service from the United States Veterans' Administration, or from any State or from the Veterans' Administration, for compensation, pensions, back pay, bounty, bonus, or for property loss in the service of the United States; and

(c) Any service performed for the purpose of establishing the right to and obtaining the return of property held by the custodian of alien property.

* * * * *

§ 105.21 *Fees for services for foreign governments.* In representing foreign interests, belligerent or otherwise, the United States Government will uniformly apply the following principles with respect to the collection of fees for services performed in connection with such representation:

(a) Notarial services will be performed by diplomatic or consular officers of the United States in connection with the representation of foreign interests as United States services, subject to the Tariff of United States Foreign Service Fees and all such fees shall be paid into the United States Treasury. Notarial services analogous to those performed gratis for American nationals under Items Nos. 25, 29, 38 and 39 of the Tariff of United States Foreign Service Fees may be performed gratis for represented nationals. United States Foreign Service fee stamps shall be used for such services; the services shall be entered in the regular "Record of Fees"; and each service shall be assigned a number from the regular series. Notarial services performed in connection with the representation of foreign interests shall be signed in accordance with the provisions of § 112.4 of this chapter, note 4, and the provisions of the Foreign Service regulations concerning notarial services shall be observed except where they are clearly inapplicable.

(b) All other services performed by diplomatic or consular officers of the United States in connection with the representation of foreign interests shall be performed gratis. Whenever the gratis service involves a document of any character, a notation to the following effect will be made on the document: "Performed gratis, subject to interested party's settlement with represented Government of fee prescribed by its Tariff." All such gratis services shall be numbered from a separate series of numbers for each Government represented and recorded in a separate Record of Fees headed "Services for the Government of ----------" maintained for each government represented. An extra copy of each such Record of Fees marked "Copy for the Government of ----------" shall be submitted to the Department with the regular accounts in order that it may be forwarded to the other government.

§ 105.22 *Fees of consular agents.* (a) Consular agents shall be entitled to retain as compensation one-half of the fees received in their offices provided that in no case shall such compensation exceed $1,000 per annum. The balance of all fees received shall be accounted for and paid into the Treasury of the United States. (22 U.S.C. 99.)

(b) For official services to American vessels for which no fees are charged consular agents who are compensated by fees must furnish the master of every such vessel with an itemized statement of the services performed on acount of said vessel showing the fee prescribed by the Tariff of United States Foreign Service Fees for each service. If the amount received or due consular agents from regular fees collected by them is not equivalent to compensation at the rate of $1,000 per annum, they will be allowed from the appropriation therefor such additional compensation as they would have received, and would have been entitled to retain to a maximum total compensation of $1,000, but for the exemption of American vessels from the payment of such fees. (22 U.S.C. 89; 31 U.S.C. 725a (5); 46 U.S.C. 101.) Such services will not be compensated unless they are necessarily rendered. (22 U.S.C. 89.)

(c) Consular agents shall account for fees collected and furnish reports of services to American vessels and seamen, including the fees prescribed therefor, and shall be compensated for such services in accordance with the provisions of these regulations and the instructions of the Secretary of State.

BRAZILIAN CRUZEIROS

CONVERSION FOR ASSESSMENT OF DUTIES ON MERCHANDISE IMPORTED INTO THE UNITED STATES

NOVEMBER 6, 1945.

Conversion of Brazilian cruzeiros for the purpose of the assessment of duties on merchandise imported into the United States. T. D. 51283 and T. D. 51310 amended as to deposit of estimated duties.

Reference is made to T. D. 51283 of July 24, 1945, and T. D. 51310 of September 12, 1945, containing instructions for the disposal of certain cases in which appraisement has been suspended or liquidation withheld pending the determination of a proper rate for the Brazilian cruzeiro for customs currency conversion purposes.

It has been determined that in many cases importers of merchandise from Brazil are able to present, at the time of making entry, evidence satisfactory to the collector concerned as to the proper rate or the proper percentages of the exchange to which the free and official rates are applicable. In such cases it is believed that the interests of the Government would be reasonably protected by the collection of estimated duties calculated at such rate or proportionate use of rates.

T. D. 51283 is therefore amended by changing the last sentence thereof to read as follows:

Where, at the time of making entry or upon the acceptance of an amended entry, information is presented to the collector or is in his possession which establishes to his satisfaction the rate or the proportionate use of the free and official rates for the particular importation in accordance with the pertinent requirements of numbered paragraphs 2, 3, and 4 of these instructions, deposit of estimated duties or of any supplemental estimated duties shall be accepted calculated in accordance with that information. Otherwise the deposit of estimated duties or of supplemental estimated duties shall be required on the basis of the official rate of exchange as certified for the date of exportation.

FEDERAL POWER COMMISSION.

[Docket No. IT-5969]

BONNEVILLE PROJECT, COLUMBIA RIVER, OREGON-WASHINGTON

NOTICE OF REQUEST FOR APPROVAL OF RATES AND CHARGES FOR SALE OF POWER FROM BONNEVILLE PROJECT

NOVEMBER 5, 1945.

Notice is hereby given that the Administrator of the Bonneville Project has filed with the Federal Power Commission for confirmation and approval, pursuant to the provisions of the Bonneville Act (50 Stat. 731), as amended, a proposed wholesale power Rate Schedule R-1.

This schedule is to apply to at-site and transmission firm power made available by the Government under appropriate contracts to railroads for their own use primarily for traction purposes. The points of delivery shall be so located that the capacity required for the estimated load at each point of delivery shall be not less than 7,500 kva, unless in any particular case the Administrator shall determine that it would be to the interest of the Government to supply lower capacity.

The schedule provides that energy shall be sold at four mills per kilowatt-hour of net energy supplied adjusted for power factor. Such net energy before adjustment for power factor will be determined as the aggregate number of kilowatt-hours delivered to the purchaser's system at all points of delivery less the number of kilowatt-hours received by the Government from the purchaser's system. The energy flowing in both directions will be metered separately as of each point of delivery.

The net minimum charge under this schedule is to be $0.40 per month times the aggregate kva capacity of all the points of delivery.

The net energy before adjustment for power factor will be increased 1% for each 1% or major fraction thereof by which the average power factor is less than .95 lagging. This adjustment may be waived in whole or in part to the extent that the Administrator determines that a power factor of less than .95 would in any particular case be advantageous to the Government. Unless specifically otherwise agreed, the Administrator shall not be obligated to deliver power at any time at a power factor below .75.

Sales of power under this schedule shall be subject to the provisions of the Bonneville Act and to the General Rate Schedule Provisions except as the terms of section 8 Power factor adjustment of the general rate schedule provisions are modified by this schedule.

Any person desiring to make representations with respect to the foregoing should, on or before November 19, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and regulations.

POWER KING TOOL CORP.

ESTABLISHMENT OF MAXIMUM PRICES

Order No. 529 under Revised Maximum Price Regulation 136. Machines, parts and industrial equipment. Power King Tool Corporation; Docket No. 6083-136.21-590.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 21 of Revised Maximum Price Regulation 136; *It is ordered:*

(a) The maximum prices for sales of wood and metal working tools by Power King Tool Corporation, Warsaw, Indiana, shall be determined as follows:

(1) *List of established price items.* For any of the foregoing tools, or replacement parts therefor, for which the Power King Tool Corporation had a published list price or an established price in effect on October 1, 1941, it shall multiply the maximum price it had in effect to a purchaser of the same class on October 1, 1941, by 120%.

(2) *Formula priced items.* For any other products, the prices of which are determined by the price determining method which the company had in effect on October 1, 1941, the maximum prices shall be the higher of the prices computed under the following subdivisions (i) and (ii):

(i) Power King Tool Corporation shall compute the cost for purchased parts and sub-assemblies used in the fabrication of the product to be priced under section 10 (d) (2) of Revised Maximum Price Regulation 136 and shall reduce the resulting cost figure by 36%. Power King Tool Corporation shall then multiply by 120% the price for the product computed under section 10 (a) of Revised Maximum Price Regulation 136, using as the cost for purchased parts and sub-assemblies the reduced cost computed in accordance with this paragraph.

(ii) Power King Tool Corporation shall compute the maximum prices for the products under section 10 (a) of Revised Maximum Price Regulation 136.

This provision does not waive any obligation on the part of the company to file proposed new list prices so determined with the Office of Price Administration. These prices must be filed on Form 694-2167, stating base date factors and separately applying the increase permitted by this order.

(b) The maximum prices for sales of wood and metal working tools by resellers shall be determined as follows: The reseller shall increase the maximum net price he had in effect to a purchaser of the same class, just prior to the issuance of this order, by the percentage by which his net invoiced cost has been increased due to the adjustment granted the manufacturer by this order.

Where the reseller's practice is to sell at or off of Power King Tool Corporation's list prices, he may continue to sell at or off the list prices as established pursuant to paragraph (a) of this order, applying thereto all discounts, allowances and other terms of sale in effect to a purchaser of the same class just prior to the issuance of this order.

(c) Power King Tool Corporation shall notify each person who buys wood and metal working tools for resale of the amounts by which this order permits the reseller to increase his maximum net prices. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington 25, D. C.

Regional and District Office Orders.

[Region II Basic Order 1 Under RMPR 251]

INSTALLED RE-SIDING AND RE-ROOFING AND RELATED AND INCIDENTAL CONSTRUCTION WORKS IN NEW YORK REGION

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region II by the Emergency Price Control Act of 1942 as amended, by section 9 of Revised Maximum Price Regulation No. 251 and by Revised Procedural Regulation No. 1, it is hereby ordered:

(a) *What this order does.* This basic order puts into one document the provisions which will be common to all future orders establishing flat (dollars-and-cents) maximum prices for installed re-siding and re-roofing and related and incidental construction work to be issued by the New York Regional Office, Region II pursuant to the authority contained in section 9 of Revised Maximum Price Regulation No. 251. The orders to be issued under this basic order are referred to herein as "adopting orders" and when issued will expressly adopt the provisions of this basic order. Various area orders have heretofore been issued under section 9 of Revised Maximum Price Regulation No. 251, fixing maximum prices for installed re-siding and re-roofing and related and incidental construction work in various areas within the Region. These orders remain in full force and effect in the areas covered thereby. The provisions of Revised Maximum Price Regulation No. 251 cover all sales of installed re-siding and re-roofing and related and incidental construction work in all areas not covered by these orders unless and until adopting orders are issued under this order. When such adopting orders are issued they will supersede the provisions of sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to installed sales of re-siding and re-roofing and related and incidental construction work.

(b) *Transactions covered by this order.* This order covers all sales of composition re-siding and re-roofing on an installed basis together with accessories on residential structures and also includes related and installed construction work when sold by installers of re-siding and re-roofing whether such sale is made as a part of a general contract or not.

The term "composition re-siding" includes asphalt shingle re-siding, asbestos cement re-siding, insulated brick or stone re-siding and roll brick re-siding but shall not include wood shingles or wood re-siding.

The term "re-roofing" includes composition re-roofing such as asphalt shingles and mineral surface roll re-roofing and smooth surface roll re-roofing but does not include wood, metal or slate re-roofing.

The term "related" and "incidental" construction work means any installation of building materials or construction work other than installed re-roofing and re-siding, when sold by installers of re-roofing and re-siding.

(c) *Relationship of this order and all adopting orders to Revised Maximum Price Regulation No. 251.* The provisions of this order when and if adopting orders are issued supersede sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of re-roofing and composition re-siding on an installed basis on residential structures and with respect to related and incidental construction work sold by installers of composition re-siding and re-roofing on an installed basis in the areas affected by such adopting orders. All other provisions of Revised Maximum Price Regulation No. 251 are applicable to transactions subject to this order unless otherwise provided in this order.

On and after the effective date of any adopting order issued under this basic order, regardless of any contract or other obligation no person shall sell, offer to sell or deliver composition re-siding and re-roofing on residential structures on an installed basis or related and incidental construction work as herein defined in the area covered by such adopting order at prices higher than those established by such adopting order: *Provided*, That deliveries made not more than thirty days after the effective date of any such adopting order on bona fide contracts executed prior to the effective date of such adopting order shall not be considered violations of such adopting order or of this order.

An employer paying or about to pay labor rates higher than those in effect for him on the effective date of any adopting order under this basic order by reason of the predetermination of wage rates by the Secretary of Labor under the Davis-Bacon Act or any order or authorization of the Wage Adjustment Board, National War Labor Board, Economic Stabilization Director or any Board or officer performing the functions of the Boards and officers above named may file an application for an amendment of such adopting order to reflect such increased labor rates. Such a petition for amendment shall conform in all respects to the provisions of Revised Procedural Regulation No. 1 except that it shall be filed with the New York Regional Office of the Office of Price Administration.

(d) *Pricing provisions applicable to adopting orders.* The maximum prices to be fixed by adopting orders under this basic order shall be upon a price per square basis for re-roofing and re-siding and separate charges will be stated for extras.

On all sales of composition re-siding and re-roofing on an installed basis covered by any adopting order under this basic order, where the maximum price of the entire job figured in accordance with such adopting order is less than $50.00, the seller may make a minimum charge of $50.00.

On all sales of composition re-siding and re-roofing on an installed basis covered by any adopting order issued under this basic order an additional charge of 50% of the maximum price per square may be made for the actual areas only which consist of the following on re-siding jobs: bay windows, towers, eye brows, dormer gables and dormer cheeks, porch columns, bulkheads and arches; on re-roofing jobs—towers, eye brows, bay windows, overhangs and shelves.

(e) *Guaranteed price.* A seller may sell a composition re-siding or re-roofing job covered by any adopting order issued under this basic order on the basis of a guaranteed price but such guaranteed price must not be higher than the maximum price figured in accordance with the pricing methods and requirements of the applicable adopting order and of this basic order.

(f) *Related and incidental construction work.* If on any job, any installed building materials are furnished or any construction service performed by the seller, other than composition re-siding and re-roofing, the cost of such work shall not be included in the cost of installed composition re-siding and re-roofing, but shall be separately priced and billed on all invoices. The maximum price of any such related and incidental work shall be determined under Revised Maximum Price Regulation No. 251.

(g) *Measurements.* It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. A "measurement with reasonable accuracy" shall be considered to have been made if the price based on such estimate does not vary by more than 10% from the maximum price computed under the terms of this order and of the applicable adopting order.

(h) *Notification.* Every person making sales subject to an adopting order issued under this basic order shall, if requested by the purchaser, make available to the purchaser a copy of this order, applicable adopting order, and a copy of Revised Maximum Price Regulation No. 251. Upon completion of any contract for installed re-siding and/or re-roofing, and/or related and incidental construction work, the seller, if requested by the purchaser, must furnish to him an itemized statement showing the number of squares, the maximum price per square of re-siding and re-roofing installed, a list of all extras and the quantities and price of each and a separate statement of any related and incidental construction work other than installed re-siding and re-roofing giving a description of such work and an itemized statement of the prices thereof. The seller shall also include in such statement the date on which the installation was completed, the names and addresses of the sellers and buyers and the terms of sale.

(i) *Evasion.* Any practice or device which results in a higher price to the purchaser of composition re-siding and re-roofing on an installed basis and/or related and incidental construction work than is permitted by an applicable adopting order under this order is as much a violation as an outright over ceiling charge and subjects the seller to all the penalties provided by Revised Maximum Price Regulation No. 251.

(j) *Records.* All sellers of installed composition re-siding and re-roofing and/or related and incidental construction work covered by any adopting order issued under this basic order must keep records concerning each sale subject to such order, including the name and address of the purchaser, the location of the job, the date of the transaction, a description of the materials and services involved, the number of squares and price per square of re-siding and re-roofing, a list of all extras permitted under such order with the quantity and price of each, and a separate statement of any related and incidental construction work. All such records shall be made available for inspection by representatives of the Office of Price Administration so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(k) *Revocation or amendment.* This order may be revised, amended, revoked or modified at any time by the Office of Price Administration.

This order shall become effective immediately.

Issued this 29th day of October 1945.

LEO F. GENTNER,
Acting Regional Administrator.

[Little Rock Order G-1 Under Supp. Service Reg. 43 to RMPR 165]

COTTON PICKING SERVICES IN ARKANSAS

For the reasons set forth in the opinion issued simultaneously herewith and pursuant to the authority vested in the Little Rock District Office of the Office of Price Administration under Delegation of Authority No. 75 issued under Supplementary Service Regulation No. 43 to Revised Maximum Price Regulation No. 165, it is ordered:

(a) *What this order does.* This order establishes maximum prices for the services of picking, pulling and snapping cotton when supplied by independent contractors in the counties of: Arkansas, Ashley, Chicot, Clay, Craighead, Crittenden, Cross, Desha, Drew, Green, Jefferson, Lee, Lincoln, Lonoke, Mississippi, Monroe, Phillips, Poinsett, Prairie, Pulaski and St. Francis, Arkansas. The above area to be covered in this order is identical with that covered by the Order of the United States Department of Agriculture. This order also defines

"limited service contractors" and "full service contractors".

(b) *Maximum prices.* The maximum prices which a limited service contractor may charge in the area defined in (a) for services in connection with the picking of well-picked, clean seed cotton, and the pulling or snapping of cotton are established as follows:

(1) Limited service contractors may add to the amount per 100 pounds paid to cotton pickers, provided pickers wages do not exceed the wage ceilings established by the United States Department of Agriculture ($2.05 per cwt. for picking, and $1.15 per cwt. for pulling or snapping), the following amounts:

(i) Recruiting and hauling pickers 15 miles or less, 20 cents per 100 pounds of seed cotton picked, pulled or snapped.

(ii) Hauling pickers in excess of 15 miles, one cent per 100 pounds of seed cotton picked or pulled.

(iii) Weighing in the field and keeping picking records, field weights, etc., three cents per 100 pounds of seed cotton.

(iv) Hauling seed cotton to gin, seven cents per 100 pounds of seed cotton hauled.

Limited service contractors' maximum price would therefore be the sum of the amount per 100 pounds paid to pickers not to exceed wage ceilings, plus the permitted additions shown above.

(2) Full service contractors may add to the amount per 100 pounds paid to pickers, provided pickers' wages do not exceed the wage ceiling established by the United States Department of Agriculture ($2.05 per cwt. for picking, and $1.15 per cwt. for pulling or snapping), the following amounts:

(i) Thirty cents per 100 pounds of seed cotton picked, pulled or snapped, and;

(ii) Hauling pickers in excess of 15 miles, one cent per 100 pounds of seed cotton picked, pulled or snapped.

(3) Maximum prices herein established shall include the following services to be rendered growers and pickers by such independent contractors, at the contractors' own expense:

(i) Securing cotton pickers;

(ii) Hauling cotton pickers to the field;

(iii) Supervising the picking of the cotton;

(iv) Supplying drinking water to the pickers in the field;

(v) Weighing the cotton in the field and keeping records of the field weights by each picker;

(vi) Hauling the cotton to the gin, and;

(vii) Full payment of all wages under the contract.

(4) *Extra services.* No extra charge may be made by an independent contractor for the performance of services other than those listed in subparagraph (3).

(c) *Prohibited practices.* All practices which are designed to obtain prices higher than the maximum prices established under this order are prohibited, including, but not limited to, the giving or offering of a bonus to an independent contractor by a cotton producer, gin operator or other person, and the demanding or receiving of a bonus from a cotton producer, gin operator, or other person, by an independent contractor.

(d) *Record keeping.* Independent contractors who supply services subject to this order are required to keep the following records and make them available for inspection upon request from authorized officials of the Office of Price Administration, or officials of the United States Department of Agriculture:

(1) Name and address of producers to whom services subject to this order are supplied.

(2) Number of pounds of cotton picked for each producer.

(3) The amount per 100 pounds paid to pickers by independent contractors and the field weights on which such payments were made.

(4) The amount of payment received from producers for services supplied pursuant to this order.

(e) *Definitions and terms used in this order.* "Limited service contractor" as used in this order, refers to an independent contractor who merely recruits and transports pickers to and from cotton fields. "Full service contractor" as used in this order refers to an independent contractor who performs services in addition to those performed by a limited service contractor such as supervising the pickers, supplying drinking water, weighing, keeping required records, hauling and payment of wages to the pickers.

This order may be revoked, revised or modified at any time by the Office of Price Administration.

This order shall remain in effect for a period of 90 days from the issuance hereof. However, this order may be continued in effect by amendment issued either prior to or after the expiration of the 90-day period.

Notice is hereby given that Cities Service Company ("Cities"), a registered holding company, and two of its subsidiaries, Consolidated Cities Light, Power & Traction Company ("Consolidated") and Dominion Natural Gas Company, Limited ("Dominion"), have joined in filing declarations pursuant to the Public Utility Holding Company Act of 1935, particularly Section 12 thereof and Rules U-42, U-43 and U-44 thereunder.

All interested persons are referred to said document, which is on file in the offices of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

(1) The acquisition by Dominion for cash at 100% of principal amount, plus accrued interest, of $1,350,000, principal amount of 5% First Mortgage Gold Bonds, 1953, of Southern Ontario Gas Company, Limited, assumed by Dominion and representing all of its outstanding bonds, and the sale by Consolidated and Cities to Dominion of their respective holdings of such bonds in principal amounts of $150,000 and $1,200,000 respectively.

(2) The dissolution of Consolidated and the distribution to its shareholders of its assets, consisting entirely of cash in the approximate amount of $471,000 following sale of the Dominion bonds. Consolidated has presently outstanding 2,509 shares of capital stock (other than treasury shares), of which Cities owns 2,500 shares, the holders of the remaining 9 shares being unknown. Cities will receive all the assets of Consolidated as a liquidating dividend and will agree to pay to the holders of the said 9 shares, in the event the certificates representing such shares are surrendered, or proof of ownership is otherwise established, at any time within six years after dissolution of Consolidated, the amount which the holders of said 9 shares are entitled to receive on liquidation.

Expenses, including legal fees, in connection with the proposed transactions are estimated at $5,500.

Notice is further given that any interested party may, not later than November 19, 1945, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. TITLE 10—ARMY: WAR DEPARTMENT

Chapter I—Aid of Civil Authorities and Public Relations

PART 108—COMPETITION WITH CIVILIAN BANDS

USE OF BANDS OFF MILITARY RESERVATIONS

Sections 108.1 and 108.2 are superseded by the following §§ 108.1 to 108.3 inclusive.

Sec.
108.1 Use of bands off military reservations.
108.2 Responsibility for enforcement of instructions.
108.3 Policy.

AUTHORITY: §§ 108.1 to 108.3, inclusive, issued under Sec. 35, 39 Stat. 188; 10 U.S.C. 609.

SOURCE: §§ 108.1 to 108.3, inclusive, contained in AR 250-5, 24 October 1945.

§ 108.1 *Use of bands off military reservations.* (a) Section 35, Act 3 June 1916 (39 Stat. 188; 10 U.S.C. 609), provides that no enlisted man in the active service of the United States in the Army • • • whether a non-commissioned officer, musician, or private, shall be detailed, ordered, or permitted to leave his post to engage in any pursuit, business, or performance in civil life, for emolument, hire, or otherwise, when the same shall interfere with the customary employment and regular engagement of local civilians in the respective arts, trades, or professions.

(b) This law is intended to prevent the competition of military personnel with civilians.

(c) The following instructions pertaining to the use of bands which conform to the law quoted above will govern:

(1) Bands may be furnished on the following occasions:

(i) All military uses and occasions, that is, whenever and wherever a service band functions as part of the Nation's military forces. The music may be broadcast with the other features of the official program for the occasion.

(ii) All uses upon military and naval reservations, military and naval vessels, and other places or circumstances where a band is on duty with service forces.

(iii) When music is an appropriate part of official occasions attended by the superior officers of the Government and of the Army, Navy, and Marine Corps in their official capacities and in the performance of official duties. The music may be broadcast with the other features of the official program for the occasion. Such occasions do not include social occasions and entertainments, such as dinners, luncheons, etc., given by civilians or civil associations with such officers as guests.

(iv) Broadcasts from a military reservation of concerts by Army bands and music furnished by an Army band as part of an entertainment program when such program conforms to (ii) above.

(v) Broadcasts from a military reservation by Army bands or any part thereof for purely recruiting drives or, for the specific official purpose of presenting to the public certain matters considered by the War Department to be of sufficient importance to require dissemination by means of the radio systems and networks of America and which are not connected in any way with a commercial enterprise.

(vi) Musical programs at any United States hospital for the entertainment of its patients.

(vii) Concerts in the Capitol Grounds, Capitol buildings, and public parks of the city of Washington only.

(viii) At free social and entertainment activities conducted exclusively for the benefit of enlisted men and their guests in service clubs and social centers maintained for the use of enlisted men.

(ix) At official occasions and free social and entertainment activities held on or off military reservations: *Provided*, That such free social and entertainment activities are conducted exclusively for the benefit of officer personnel and their guests. The furnishing of bands or musicians on such occasions is discretionary with the commanding officer having jurisdiction in the matter.

(x) For parades and ceremonies incident to national gatherings of officers of the Army of the United States, veterans and patriotic organizations. These occasions do not include dinners, dances, or luncheons.

(xi) At public rallies and parades held exclusively for the sale of war bonds and stamps. If admission is charged the entire proceeds must be used for the purchase of stamps or bonds. The commanding officer having jurisdiction may determine the extent of participation with due consideration being given to interference with training. The cost of transporting the band for such activities may be charged against appropriated funds.

(xii) At public rallies and parades to stimulate munitions production. This applies particularly to such celebrations held at manufacturing plants in connection with plant awards.

(xiii) The Army Relief, the Army Emergency Relief, and the National Red Cross, when the entire proceeds are donated to these agencies.

(xiv) Football, baseball, basketball, track meets and other athletic contests in which one or more Army teams are participating.

(2) *Bands will not be furnished on the following occasions:*

(i) For civic parades, ceremonies, expositions, regattas, contests, festivals, local baseball or football games, activities or celebrations, etc., except as provided in subparagraph (1) of this paragraph.

(ii) For the furtherance, directly or indirectly, of any public or private enterprise, functions by chambers of commerce, boards of trade and commercial clubs or associations.

(iii) For any occasion that is partisan or sectarian in character or purpose.

(iv) For civilian clubs, societies, civic or fraternal organizations.

(v) For so-called charitable purpose of a local sectarian, or partisan character or any so-called charity that is not of a national character.

(vi) For broadcasts off a military reservation, except as stated in subparagraph (1) (v) of this paragraph.

(vii) For any occasion in violation of subdivision (i) of this subparagraph unless specifically authorized by the provisions of subparagraph (1) of this paragraph.

§ 108.2 *Responsibility for enforcement of instructions.* The enforcement of the instructions governing the use of bands is a command function and the responsibility therefore rests with appropriate commanders.

§ 108.3 *Policy.* It is not the policy of the War Department for officials of the Army to make arrangements with musicians' unions which would nullify the provisions of §§ 108.1 and 108.2.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

[T. D. 51344]

PART 9—IMPORTATIONS BY MAIL

UNENDORSED SEALED ARTICLES, FIREARMS, AND CONTRACEPTIVE LITERATURE

1. Section 9.5 (b) and (c), Customs Regulations of 1943 (19 CFR, Cum Supp., 9.5 (b) and (c)), is hereby amended to read as follows:

§ 9.5 *Sealed mail parcels to bear label or endorsement.* • • •

(b) When a sealed envelope or other parcel (other than parcel post) believed to contain merchandise is not endorsed or labeled as required, the postmaster will detain it in his custody and request the addressee to furnish written authority for a customs officer to open the parcel in the presence of a representative of the postmaster. If the addressee does not furnish such written authority within 30 days after the date of notice by the postmaster or within such further time as may be allowed, the parcel will be treated as undeliverable mail matter. If the parcel, upon being opened under proper written authority, is found to contain merchandise free of internal-revenue tax and free of duty either because unconditionally free or because the aggregate value of the shipment is not more than $1 and the expense and inconvenience of collecting the duty accruing thereon would be disproportionate to the amount of such duty, the parcel may be delivered to the addressee without the collection of any fine on account of the article not having been endorsed or labeled in accordance with paragraph (a).

(c) Except as provided for in paragraph (b), if a sealed letter or other parcel not endorsed or labeled as required by paragraph (a) is found to contain merchandise subject to duty (including conditionally free merchandise) or subject to internal-revenue tax, the merchandise is subject to seizure and forfeiture as having been imported contrary to law. Under the authority contained in section 618, Tariff Act of 1930, any forfeiture so incurred is hereby mitigated to an amount equal to 10 percent of the loss of revenue which was or might have been sustained, provided there is no evidence indicating to the collector that failure to label or endorse the parcel was due to willful negligence or to an intent to defraud the revenue. If there is any such evidence, or if for any other reason the collector believes that it would not be in the interest of the United States to grant this relief, the matter shall be reported to the Bureau of Customs for instructions. When the shipment does not exceed $100 in value, customs Form 3421 shall be used for the entry of the merchandise and the duty, any internal-revenue tax, and the amount of the mitigated forfeiture shall be entered as separate items thereon. If a parcel for which a mail fine entry has been issued in accordance with the foregoing provision is undeliverable, it will be returned to the collector of customs at the port where the mail entry was issued, for disposition in accordance with § 9.12 (d) relating to articles subject to seizure. The addressee or sender may file a petition with the collector of customs at the port where the mail fine entry was issued for relief from the forfeiture incurred and for the release of the seized merchandise to the addressee or sender. (Secs. 593 (b), 618, 624, 46 Stat. 751, 757, 759; 19 U.S.C. 1593 (b), 1618, 1624)

2. Section 9.12, Customs Regulations of 1943 (19 CFR, Cum. Supp., 9.12), is hereby amended as follows:

a. Paragraph (a) is amended by adding the following sentence: "Pistols, revolvers, and other firearms capable of being concealed on the person are nonmailable, with certain exceptions (18 U.S.C. 361), and when received in the mails such nonmailable articles are subject to seizure and forfeiture under the customs laws."

b. Paragraph (d) is amended by inserting the words "and contraceptive literature" after the words "lottery matter" in the first sentence and by deleting the last sentence.

c. Paragraph (e) is amended by deleting the parenthetical matter at the end and adding the following:

Mail parcels which upon inspection or examination are found to contain contraceptive literature will be retained by the Postal Service, or shall be delivered to that Service by the Customs Service, for disposition under the Postal Laws and Regulations. If the Postal Service shall determine in any case that it is proper to release contraceptive literature to an addressee, such literature before delivery to the addressee will be turned over to the nearest customs officer located at a post office for treatment by customs in the same manner as other articles imported in the mails. TREASURY DEPARTMENT.

Fiscal Service: Bureau of the Public Debt.

[1945 Dept. Circ. 776]

2½ PERCENT TREASURY BONDS OF 1967–72

OFFERING OF BONDS

OCTOBER 29, 1945.

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for bonds of the United States, designated 2½ percent Treasury Bonds of 1967–72. The amount of the offering is not specifically limited.

2. These bonds will not be available for subscription by or for the account of others than individuals until December 3, 1945. Individuals are defined for this purpose as including partnerships (other than securities dealers and brokers) and personal trust accounts.

3. These bonds will not be available for subscription, for their own account, by commercial banks, which are defined for this purpose as banks accepting demand deposits, except as follows: A commercial bank holding savings deposits or issuing time certificates of deposit (as each is defined in Regulation Q of the Board of Governors of the Federal Reserve System) may subscribe, from December 3 to December 8, 1945 (both dates inclusive), to the bonds offered hereunder, to the 2¼ percent Treasury Bonds of 1959–62 and the ⅞ percent Treasury Certificates of Indebtedness of Series K–1946 offered simultaneously herewith under Treasury Department Circulars Nos. 777 and 778, respectively, and to Series F–1945 and Series G–1945 United States Savings Bonds, under Treasury Department Circular No. 654, Second Revision, as amended, but the amount of such subscriptions shall not exceed, in the aggregate, 10 percent of the combined amount of time certificates of deposit (but only those issued in the names of individuals, and of corporations, associations, and other organizations not operated for profit), and of savings deposits, as shown on the bank's books as of the date of the most recent call statement required by the supervising authorities prior to the date of subscription for such securities, or $500,000, whichever is less, except that the aggregate amount of Series F and Series G Savings Bonds (Series 1945) held by such bank may not exceed the annual limitation of $100,000 (issue price).

II. *Description of bonds.* 1. The bonds will be dated November 15, 1945, and will bear interest from that date at the rate of 2½ percent per annum, payable on a semiannual basis on June 15 and December 15, 1946, and thereafter on June 15 and December 15 in each year until the principal amount becomes payable. They will mature December 15, 1972, but may be redeemed at the option of the United States on and after December 15, 1967, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The income derived from the bonds shall be subject to all Federal taxes, now or hereafter imposed. The bonds shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys. They will not be entitled to any privilege of conversion.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $500, $1,000, $5,000, $10,000, $100,000 and $1,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury. Except as provided in Section I of this circular, these bonds may not, before December 15, 1962, be transferred to or be held by commercial banks, which are defined for this purpose as banks accepting demand deposits; however, the bonds may be pledged as collateral for loans, including loans by commercial banks, but any such bank acquiring such bonds before December 15, 1962, because of the failure of such loans to be paid at maturity will be required to dispose of them in the same manner as they dispose of other assets not eligible to be owned by banks.

5. Any bonds issued hereunder which upon the death of the owner constitute part of his estate, will be redeemed at the option of the duly constituted representatives of the deceased owner's estate, at par and accrued interest to date of payment: [1] *Provided*,

(a) That the bonds were actually owned by the decedent at the time of his death; and

(b) That the Secretary of the Treasury be authorized to apply the entire proceeds of redemption to the payment of Federal estate taxes.

Registered bonds submitted for redemption hereunder must be duly assigned to "The Secretary of the Treasury for redemption, the proceeds to be paid to the Collector of Internal Revenue at _____ for credit on Federal estate taxes due from estate of _____." Owing to the periodic closing of the transfer books and the impossibility of stopping payment of interest to the registered owner during the closed period, registered bonds received after the closing of the books for payment during such closed period will be paid only at par with a deduction of interest from the date of payment to the next interest payment date; [2] bonds received during the closed period for payment at a date after the books reopen will be paid at par plus accrued interest from the reopening of the books to the date of payment. In either case checks for the full six months' interest due on the last day of the closed period will be forwarded to the owner in due course. All bonds submitted must be accompanied by Form PD 1782,[3] properly completed, signed, and sworn to, and by a certificate of the appointment of the personal representatives, under seal of the court, dated not more than six months prior to the submission of the bonds, which shall show that at the date thereof the appointment was still in force and effect. Upon payment of the bonds appropriate memorandum receipt will be forwarded to the representatives, which will be followed in due course by formal receipt from the Collector of Internal Revenue.

6. Except as provided in the preceding paragraphs, the bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. *Subscription and Allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. It is requested that there be no trading in the securities allotted hereunder and no purchases of such securities other than on direct subscription until after December 8, 1945. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than banking institutions will not be permitted to enter subscriptions except for their own account. Subscriptions must be accompanied by payment in full for the amount of bonds applied for.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, and to the limitations on commercial bank subscriptions prescribed in Section I of this circular, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par and accrued interest, if any, for bonds allotted hereunder to individuals must be made on or before November 15, 1945, or on later allotment. 2¼ PERCENT TREASURY BONDS OF 1959–62

OFFERING OF BONDS

OCTOBER 29, 1945.

2¼ percent Treasury bonds of 1959–62, dated and bearing interest from November 15, 1945; due December 15, 1962; redeemable at the option of the United States at par and accrued interest on and after December 15, 1959; interest payable June 15 and December 15.

I. *Offering of Bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for bonds of the United States, designated 2¼ percent Treasury Bonds of 1959–62. The amount of the offering is not specifically limited.

2. These bonds will not be available for subscription by or for the account of others than individuals until December 3, 1945. Individuals are defined for this purpose as including partnerships (other than securities dealers and brokers) and personal trust accounts.

3. These bonds will not be available for subscription, for their own account, by commercial banks, which are defined for this purpose as banks accepting demand deposits, except as follows: a commercial bank holding savings deposits or issuing time certificates of deposit (as each is defined in Regulation Q of the Board of Governors of the Federal Reserve System) may subscribe, from December 3 to December 8, 1945 (both dates inclusive), to the bonds offered hereunder, to the 2½ percent Treasury Bonds of 1967–72 and the ⅞ percent Treasury Certificates of Indebtedness of Series K-1946 offered simultaneously herewith under Treasury Department Circulars Nos. 776 and 778, respectively, and to Series F–1945 and Series G–1945 United States Savings Bonds, under Treasury Department Circular No. 654, Second Revision, as amended, but the amount of such subscriptions shall not exceed, in the aggregate, 10 percent of the combined amount of time certificates of deposit (but only those issued in the names of individuals, and of corporations, associations, and other organizations not operated for profit), and of savings deposits, as shown on the bank's books as of the date of the most recent call statement required by the supervising authorities prior to the date of subscription for such securities, or $500,000, whichever is less, except that the aggregate amount of Series F and Series G Savings Bonds (Series 1945) held by such bank may not exceed the annual limitation of $100,000 (issue price).

II. *Description of bonds.* 1. The bonds will be dated November 15, 1945, and will bear interest from that date at the rate of 2¼ percent per annum, payable on a semiannual basis on June 15 and December 15, 1946, and thereafter on June 15 and December 15 in each year until the principal amount becomes payable. They will mature December 15, 1962, but may be redeemed at the option of the United States on and after December 15, 1959, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The income derived from the bonds shall be subject to all Federal taxes, now or hereafter imposed. The bonds shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys. They will not be entitled to any privilege of conversion.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $500, $1,000, $5,000, $10,000, $100,000 and $1,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury. Except as provided in section I of this circular, these bonds may not, before December 15, 1952, be transferred to or be held by commercial banks, which are defined for this purpose as banks accepting demand deposits; however, the bonds may be pledged as collateral for loans, including loans by commercial banks, but any such bank acquiring such bonds before December 15, 1952, because of the failure of such loans to be paid at maturity will be required to dispose of them in the same manner as they dispose of other assets not eligible to be owned by banks.

5. Any bonds issued hereunder which upon the death of the owner constitute part of his estate, will be redeemed at the option of the duly constituted representatives of the deceased owner's estate, at par and accrued interest to date of payment: [1] *Provided*,

(a) That the bonds were actually owned by the decedent at the time of his death; and

(b) That the Secretary of the Treasury be authorized to apply the entire proceeds of redemption to the payment of Federal estate taxes.

Registered bonds submitted for redemption hereunder must be duly assigned to "The Secretary of the Treasury for redemption, the proceeds to be paid to the Collector of Internal Revenue at _____ for credit on Federal estate taxes due from estate of _____." Owing to the periodic closing of the transfer books and the impossibility of stopping payment of interest to the registered owner during the closed period, registered bonds received after the closing of the books for payment during such closed period will be paid only at par with a deduction of interest from the date of payment to the next interest payment date; [2] bonds received during the closed period for payment at a date after the books reopen will be paid at par plus accrued interest from the reopening of the books to the date of payment. In either case checks for the full six months' interest due on the last day of the closed period will be forwarded to the owner in due course. All bonds submitted must be accompanied by Form PD 1782,[3] properly completed, signed and sworn to, and by a certificate of the appointment of the personal representatives, under seal of the court, dated not more than six months prior to the submission of the bonds, which shall show that at the date thereof the appointment was still in force and effect. Upon payment of the bonds appropriate memorandum receipt will be forwarded to the representatives, which will be followed in due course by formal receipt from the Collector of Internal Revenue.

6. Except as provided in the preceding paragraphs, the bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. It is requested that there be no trading in the securities allotted hereunder and no purchases of such securities other than on direct subscription until after December 8, 1945. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than banking institutions will not be permitted to enter subscriptions except for their own account. Subscriptions must be accompanied by payment in full for the amount of bonds applied for.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, and to the limitations on commercial bank subscriptions prescribed in section I of this circular, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par and accrued interest, if any, for bonds allotted hereunder to individuals must be made on or before November 15, 1945, or on later allotment. Payment at par and accrued interest to December 3, 1945, or to date of later allotment, for bonds allotted to all others must be made on or before December 3, 1945, or on later allotment; *Provided, however*, That bonds allotted to life insurance companies, to savings institutions, and to States, municipalities, political subdivisions and similar public corporations, and agencies thereof, may be paid for, in whole or in part, at par and accrued interest, at any time or times, with payment to be completed not later than February 28, 1946. One day's accrued interest is $0.061 per $1,000. Any qualified depositary will be permitted to make payment by credit for bonds allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its District.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

FEDERAL COMMUNICATIONS COMMISSION.

MATHESON RADIO CO., INC.

PUBLIC NOTICE CONCERNING PROPOSED TRANSFER OF CONTROL

The Commission hereby gives notice that on September 24, 1945, there was filed with it an application (B1–TC–463) for its consent under section 310 (b) of the Communications Act (47 USCA 310) to the proposed transfer of control of Matheson Radio Company, Inc., (licensee of standard broadcast station WHDH, Boston, Massachusetts and certain broadcast stations associated therewith, i. e., developmental station WIXMR and relay station WAUC) from Alice E. Matheson to Fidelity Broadcasting Corporation (a Massachusetts corporation), 80 Mason Street, Boston, Massachusetts. The proposed transfer of control of the above licensee is based upon a contract entered into September 13, 1945 between Ralph G. Matheson, Alice E. Matheson, and three other stockholders of the licensee (sellers) and Fidelity Broadcasting Corporation (purchaser) under which the former agreed to sell to the latter all their common and preferred stockholdings in the licensee and to persuade other stockholders to do likewise for a purchase price for all the issued and outstanding preferred and common stockholders of $625,000 plus amounts expended by licensee for frequency modulation (not exceeding $25,000) plus the sum total of asset accounts (excluding fixed assets, (plant and equipment) and investment account of Broadcast Music, Inc., stock) over the total of current liabilities. The contract allocates specific amounts for payment of the preferred and common stock and provides that $100,000 of the purchase price will be placed in escrow, which, together with the balance of the purchase price, shall be paid by the purchaser on the date of settlement fixed as the thirtieth day after Commission consent to the plan is effective or such other date as may be agreed upon.

Further details of the contract as well as pertaining to the application may be determined from an examination of the application on file at the offices of the Commission.

In the Commission's decision of September 6, 1945, granting the application for transfer of control of the Crosley Corporation (Docket No. 6767), it was announced that public hearings would be held to consider proposed new rules and regulations for the handling of assignment and transfer applications including provision for public notice by the applicant and the Commission of the filing of such applications and pertinent details in cases where a controlling interest is involved. Thereafter, on October 3, 1945, the Commission also gave public notice (10 F.R. 12926) that pending the issuance of such proposed new rules, hearing thereon, and final adoption, consideration of such applications would be deferred unless applicants desired to follow the procedure proposed in the WLW decision, and supplement their applications so as to come within the framework of the announced procedure including the provision for public notice. Pursuant thereto, the Commission was advised on October 19, 1945, that notice was inserted in the Boston Post (a Boston paper of general circulation) of the proposed transfer of control of the licensee and sale of the properties of WHDH and associated stations as indicated above.

In accordance with the procedure proposed in the WLW decision and that announced in the Commission's release, no action will be had upon the WHDH application for a period of 60 days from September 24, 1945, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contract.

WFIL BROADCASTING CO.

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF LICENSE

The Commission hereby gives notice that on October 30, 1945, there was filed with it an application (B2–AL–501) for its consent under section 310 (b) of the Communications Act (47 U.S.C.A. 310) to the proposed assignment of the license of standard broadcast station WFIL, Philadelphia, Pennsylvania (and certain broadcast stations associated therewith, i.e., WFIL-FM and relay stations WELX and WELW) from WFIL Broadcasting Company to which they are at present licensed to Triangle Publications, Inc. (a Delaware corporation), 400 North Broad Street, Philadelphia, Pennsylvania. The proposal to assign said licenses is based upon an agreement between WFIL Broadcasting Company and Triangle Publications, Inc., dated September 27, 1945, under which the former agrees to sell to the latter the properties of the aforesaid stations including personal property, good will, contracts, and other rights described therein, free and clear of encumbrances for a purchase price of $1,900,000 of which $250,000 was paid at the time of signing the agreement, the balance of $1,650 000 to be paid by certified check at the time of closing fixed by the contract as within 21 days after the date on which approval of the proposed assignment by the Commission is effective.

Other details of the contract and concerning the application may be determined from the application on file at the offices of the Commission.

In the Commission's decision of September 6, 1945 granting the application for transfer of control of the Crosley Corporation (Docket No. 6767), it was announced that public hearings would be held to consider proposed new rules and regulations for the handling of assignment and transfer applications including provision for public notice by the applicant and the Commission of the filing of such applications and pertinent details in cases where a controlling interest is involved. Thereafter on October 3, 1945, the Commission also gave public notice (10 F.R. 12926) that pending the issuance of such proposed new rules, hearing thereon, and final adoption, such applications would be deferred unless applicants desired to follow the procedure proposed in the WLW decision, and supplement their applications so as to come within the framework of the announced procedure including the provision for public notice. Pursuant thereto the Commission was advised on October 13, 1945, that notice was inserted in the Philadelphia Inquirer and the Legal Intelligencer (both Philadelphia papers of general circulation) of the proposed assignment of the licenses and sale of the properties of WFIL and associated stations as indicated above.

In accordance with the procedure proposed in the WLW decision and that announced in the Commission's release no action will be had upon the WFIL application for a period of 60 days from October 30, 1945, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contract.

(b) A reseller of Ford Motor trucks is authorized to sell, delivered at its place of business, each of the Ford trucks referred to in paragraph (a) at a price not to exceed the total of list price in subparagraph (1) below and the applicable charges in subparagraph (2) below, subject to the discounts the reseller had in effect on March 31, 1942, to the applicable class of purchaser.

(ii) A charge for transportation which shall not exceed the actual rail freight charge Ford Motor Company would make for the transportation of the truck from the factory to the place of business of the reseller.

(iii) A charge to cover the Federal tax on tires and tubes and other federal excise taxes.

(iv) A charge to cover State and local taxes on the reseller's purchase, sale or delivery of the truck model being sold computed in accordance with the reseller's method in effect on March 31, 1942.

(v) The reseller's charge in effect on March 31, 1942, for handling and delivery.

(vi) The dollar amount of all other charges which the reseller had in effect to the applicable class of purchasers on March 31, 1942.

(c) A reseller that cannot establish a price under paragraph (b) because it was not in business on March 31, 1942, shall determine its maximum price by adding to the retail list price for the applicable truck determined in accordance with paragraph (b) (1), the following applicable charges:

(1) *Charges.* (i) The original equipment retail charge that the Ford Motor Company suggested on March 31, 1942, be made by resellers, for extra, special and optional equipment attached to the truck as original equipment.

(ii) A charge for transportation which shall not exceed the actual rail freight charge Ford Motor Company would make for the transportation of the truck from the factory to the place of business of the reseller.

(iii) A charge equal to the charge made to the reseller by the Ford Motor Company in accordance with its March 31, 1942 method, to cover the Federal tax on tires and tubes and other Federal excise taxes.

(v) A charge equal to reseller's actual expense for handling and delivery.

(d) A reseller of Ford motor trucks in a territory or possession of the United States is authorized to sell each of the trucks referred to in paragraph (a), at a price not to exceed the applicable maximum price established in paragraph (b) or (c), to which it may add a sum equal to the expenses incurred by or charged to it, for payment of territorial and insular taxes on the purchase, sale or introduction of the truck; export premiums; boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage and terminal operations.

(g) This order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer has an established price in accordance with section 8 of Revised Maximum Price Regulation 136, which is different than a price permitted under paragraph (a) because of substantial changes in design, specifications or equipment of the truck, the reseller may add to its price under paragraph (b), (c) or (d) any increase in price to it over the price it would otherwise pay under paragraph (a), plus its customary markup on such a cost increase, but in the case of a decrease in the price under paragraph (a) the reseller must reduce its price under paragraph (b), (c) or (d) by the amount of the decrease and its customary markup on such an amount.

This order shall become effective November 7, 1945.

Issued this 7th day of November 1945.

CHESTER BOWLES,
Administrator.

§ 702.704 *Payments limited to $10,000.00*—(a) *Individuals, partnerships, estates.* The total of all payments made in connection with the 1946 program to any individual, partnership, or estate with respect to farms, ranching units and turpentine places located within a single State, Territory, or possession shall not exceed $10,000.00.

(b) *Others.* The total of all payments made in connection with the 1946 program to any person other than an individual, partnership, or estate with respect to farms, ranching units and turpentine places in the United States (including Hawaii, Alaska, and Puerto Rico) shall not exceed $10,000.00.

(c) *Evasion.* All or any part of any payment which has been or otherwise would be made to any person under the 1946 program may be withheld or required to be refunded if he has adopted or participated in adopting any scheme or device designed to evade, or which has the effect of evading the provisions of this section.

§ 702.705 *General provisions relating to payment*—(a) *Practices defeating purposes of the program.* If the State office finds that any producer has adopted or participated in any practice which tends to defeat the purposes of the 1946 or previous programs, he may withhold or require to be refunded all or any part of any payment which has been or would be computed for such person.

(b) *Depriving others of payment.* If the State office finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of any payment under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the amount of any payment which has been or would otherwise be made to him in connection with the 1946 program.

(c) *Failure to carry out approved erosion control measures.* Payment will not be made to any person with respect to any farm which he owns or operates if the State office finds that he has been negligent and careless in his farming operations by failing to carry out approved erosion control measures on land under his control to the extent that any part of such land has become an erosion hazard during 1946 to other land in the community.

(d) *Payment computed and made without regard to claims.* Any payment or share of payment shall be computed and made without regard to questions of title under Territorial Law or law of Puerto Rico; without deduction of claims or advances made (except as provided in paragraph (e) of this section, and except for indebtedness to the United States subject to set-off under orders issued by the Secretary); and without regard to any lien against any crop or proceeds thereof, in favor of the owner of any other creditor.

(e) *Assignments.* Any person who may be entitled to any payment in connection with the 1946 program may assign his payment in whole or in part as security for cash loaned or advances made for the purpose of financing the making of a crop in 1946. No assignment will be recognized unless it is made in writing on Form ACP–69, and in accordance with the instructions in ACP–70.

§ 702.706 *Application for payment*—(a) *Persons eligible to file applications.* An application for payment with respect to a farm may be made by any person who contributed to the carrying out of approved practices.

(b) *Time and manner of filing applications and information required.* Payment will be made only upon application submitted on the prescribed form to the respective State offices on or before the time limit as established by the Director of the Field Service Branch of the Production and Marketing Administration, except that the timely filing of an application by one person on a farm shall constitute the timely filing on behalf of all persons on that farm. Payment may be withheld from any person who fails to file any form, or furnish any information required with respect to any farm which such person is operating or renting to another person for a share of the crop grown thereon, or for cash or standing rent.

Any application may be rejected if any form or information required is not submitted to the State office within the time fixed by the Director. At least two weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information, and any time limit shall be such as affords a full and fair opportunity to those eligible to file the form or information within the period prescribed. Notice shall be given by mailing it to the office of each local Agricultural Extension Agent, and making copies of it available to the press.

§ 702.707 *Appeals.* Any producer may within 15 days after notice thereof is forwarded to or made available to him, request the State office in writing to reconsider its recommendation, or determination in any matter affecting the right to or the amount of his payment with respect to the farm. The State office shall notify him of its decision in writing within 15 days after receipt of a written request for reconsideration. If the producer is dissatisfied with the decision of

the State office he may within 15 days after its decision is forwarded to or made available to him request the Director to review the decision of the State office.

Written notice of any decision rendered under this Section by the State office shall also be issued to each other producer on the farm who may be adversely affected by the decision.

§ 702.708 . *Area bulletins, instructions and forms.* The Field Service Branch of the Production and Marketing Administration is authorized to make determinations and to prepare and issue area bulletins, instructions and forms required in administering the 1946 program.

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 143, Amdt. 1]

PART 1405—FRUITS AND VEGETABLES

APPLES

War Food Order No. 143 (10 F.R. 12478) is hereby amended as follows:

1. By deleting the provisions of § 1405.58 (a) (1) and inserting, in lieu thereof, the following:

(1) "Apples" means whole, fresh apples of any or all strains of the Winesap, Newtown, or Delicious (except Golden Delicious) varieties of C grade, or higher grades, and of 216 size, or larger sizes, grown in the Wenatchee-Okanogan District or in the Yakima-Hood River District, and which apples are located in either Washington or Oregon. This definition shall not apply to the word "apples" as used the first two times in (c) of this order; and, prior to November 10, 1945, this definition shall not apply to the Newtown variety of apples grown in the Wenatchee-Okanogan District or in that part of the Yakima-Hood River District situated in Washington.

2. By deleting the provisions of § 1405.58 (b) (1) and inserting, in lieu thereof, the following:

(1) No handler shall purchase from, or sell, contract to sell, ship, or deliver to, any person any one of the specified varieties of apples except on condition that such handler sets aside and thereafter holds for sale and delivery to a governmental agency a quantity of apples of such variety, in the aggregate, of the fancy grade, or higher grades, and of sizes from 100 to 163, inclusive, equivalent to 25 percent of the total quantity of the apples of such variety which he owned or controlled on October 3, 1945, and of which he subsequently acquired ownership or control. With respect to apples of the Newtown variety grown in the Wenatchee-Okanogan District or in that part of the Yakima-Hood River District situated in Washington, the quantity of apples of such variety, in the aggregate, of the fancy grade, or higher grades, of the aforesaid sizes, which such handler is required to set aside and thereafter hold for sale and delivery to a governmental agency, shall be equivalent to 25 percent of the total quantity of such variety which he owned or controlled on November 10, 1945, and of which he subsequently acquired ownership or control. Notwithstanding the size restrictions contained in the preceding sentences, any handler may substitute, in the respective quantities of Winesap apples or Newton apples set aside or required to be set aside by him, not to exceed 20 percent of sizes 175 or 180 of the fancy grade, or higher grades, of the same variety. When the requisite quantity of apples in any lot owned or controlled by any first handler has been set aside, the remainder of such apples shall thereafter, even in the hands of a subsequent handler, be free from all set-aside restrictions and computations. The restrictions set forth in (b) (1) hereof shall not apply to any handler so long as the total quantity of the apples which he owned or controlled on October 3, 1945, and those of which he acquired ownership or control thereafter does not exceed 500 bushels.

3. By deleting the provisions of § 1405.58 (c) and inserting, in lieu thereof, the following:

(c) *Credits.* In the event a handler sells to a governmental agency any quantity of apples of varieties other than those required to be set aside by the provisions of this order, he may obtain credit for such quantity against his set-aside quantity of apples of the Delicious variety. In the event a handler sells to a governmental agency a quantity of apples of fancy grade, or higher grades, of the Winesap or Newtown varieties, of sizes other than those required to be set aside by the provisions of this order, he may, pursuant hereto, obtain credit for such quantity against his respective set-aside quantity of apples of the Winesap or Newtown variety. The credit provided for by either of the two preceding sentences may be obtained by such handler, subject to verification by the Deputy Order Administrator for the district (Wenatchee-Okanogan or Yakima-Hood River, as the case may be) where such apples were grown, by giving written notice to such Deputy Order Administrator of the date of the shipment, the purchase order number, the car initials and number, or other shipment identification acceptable to such Deputy Order Administrator, and the number of the boxes of each variety.

The provisions of this amendment shall be effective as of 12:01 a. m., P. s. t., November 10, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken under the said War Food Order No. 143 prior to the effective time of this amendment, all provisions of the said War Food Order No. 143 in effect prior to the effective time of this amendment shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with regard to any such violation right, liability, or appeal.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service: Department of the Treasury

Subchapter B—Bureau of the Public Debt

[1945 Dept. Circ. 728, Amdt. 1]

PART 320—REGULATIONS GOVERNING ISSUE OF, TRANSACTIONS IN, AND OPTIONAL REDEMPTIONS OF, UNITED STATES EXCESS PROFITS TAX REFUND BONDS

OPTIONAL REDEMPTION

NOVEMBER 7, 1945.

United States Excess Profits Tax Refund Bonds issued under authority of sections 780 to 783, of the Internal Revenue Code, as amended, and under the provisions of this circular are non-negotiable, and are not transferable by sale, exchange, assignment, pledge, hypothecation or otherwise (except to a successor) on or before the date of cessation of hostilities in the present war as fixed by proclamation of the President or by a concurrent resolution of the two Houses of Congress. No such proclamation has been issued and no such concurrent resolution has been adopted. Consequently, these bonds have not become transferable or negotiable and may not be pledged or hypothecated. However, by the provisions of section 3 (c) of the Tax Adjustment Act of 1945 (Public 172, 79th Congress) any such bond is payable at the option of the owner on or after January 1, 1946.

To carry out the provisions of law for such optional redemptions, Department Circular No. 728, dated December 31, 1943, is hereby amended, under authority of section 782 of the Internal Revenue Code, as amended, and of § 320.7 of such circular, by renumbering §§ 320.6 and 320.7 as §§ 320.11 and 320.12, and inserting the following new sections:

§ 320.6 *Optional redemption; Assignments.* In order to secure optional redemption of an Excess Profits Tax Refund Bond on or after January 1, 1946, the bond must be assigned by the owner, using the form on the back of the bond, unless otherwise specifically instructed, to "The Secretary of the Treasury for redemption" in the presence of one of the officers authorized to witness such assignments. (See § 320.8.) If the registered owner is a corporation the signature should be in the name of the corporation by an authorized officer thereof, whose manual signature should be affixed and his title given, for example: "X Corporation by William Jones, Treasurer." If the owner is a partnership the signature should be in the name of the partnership followed by the manual signature of a general partner so described, for example: "Smith and Jones, a partnership, by John Smith, a general partner." The assignment form must then be completed by an officer authorized to witness such assignments, who should affix his official signature, title, address, and seal, as well as the date of the assignment. In the case of a notary public the date on which his commission expires must be shown. In the case of a corporation the title of the official executing the assignment must be inserted on the blank line in the form for the witnessing officer. In the case of a partnership the word "the" should be stricken out immediately before the blank line and the words "a general partner" inserted. In the case of an individual owner the words "of the" following the blank line should be stricken out. If an owner is an individual under disability, the estate of a deceased person, a fiduciary, a corporation in course of dissolution, or is an insolvent or bankrupt, special instructions should be requested of the Treasury Department, Division of Loans and Currency, Washington 25, D. C.

(a) *Detached assignments.* Detached assignments will not be accepted, except where specifically authorized by the Treasury Department or by a Federal Reserve Bank.

(b) *Assignments in blank.* Assignments in blank will be recognized only as authority for payment to the registered owner named on the bond.

(c) *Assignments for account of third parties.* Assignments for account of third parties will not be accepted in any case.

(d) *Resolution.* No resolution of the directors of a corporation owning bonds in its own right will be required as authority for the officer executing an assignment for redemption.

§ 320.7 *Optional redemption; successors.* If the successor of the registered owner of an Excess Profits Tax Refund Bond desires redemption and the bond has not already been surrendered for reissue, such owner should request instructions as to procedure from the Treasury Department, Division of Loans and Currency, Washington 25, D. C. If the bond has already been submitted for reissue, accompanied by the necessary evidence, the Treasury Department, Division of Loans and Currency, should be immediately informed of the owner's desire for redemption rather than reissue, and requested to furnish instructions as to procedure.

§ 320.8 *Optional redemption; witnessing officers.* All assignments, whether on the bonds themselves or on detached forms specifically authorized by the Treasury Department or Federal Reserve Banks, must be executed in the presence of and be witnessed by one of the officers authorized to witness assignments of United States registered bonds for redemption for account of the registered owner. The officers so authorized include, among others, executive officers of banks and trust companies incorporated in the United States and its organized territories and the branches thereof, foreign and domestic, executive officers of Federal Land banks, certain officers of Federal Reserve Banks and Branches and notaries public. A complete list of such officers may be obtained from the Treasury Department or a Federal Reserve Bank or Branch.

§ 320.9 *Optional redemption; surrender of bonds.* After the execution of the assignment for optional redemption, bonds should be surrendered at the expense and risk of the owner, either to the Treasury Department, Division of Loans and Currency, Washington 25, D. C., or to a Federal Reserve Bank or Branch.

(a) *Immediate surrender.* Those owners desiring to take advantage of the optional redemption privilege and who desire payment on January 1, 1946, are strongly urged to surrender their bonds immediately in order that examination of assignments may be completed and checks drawn in time to be delivered on January 1, 1946. Those owners not desiring to take immediate advantage of the privilege, but who later determine to do so are likewise urged to surrender their bonds well in advance of the date on which they desire payment.

§ 320.10 *Optional redemption; payment.* Payment will be made by check drawn to the registered owner of the bond, except that in case of successorship the check will be drawn to the order of the successor or successors. In special cases such as individual owners under disabilities, estates of deceased owners, fiduciaries, corporations being dissolved, or insolvent or bankrupt owners, checks will be drawn to the proper representatives.

Acting Secretary of the Treasury.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-908]

HANSON ROPE AND HALTER CO.

Martin Hanson and Fern Hanson are partners doing business as Hanson Rope and Halter Company in Sioux City, Iowa. During the period from February 1, 1945 to June 15, 1945 they accepted delivery of rope made from binder twine, put into process 108 bales of binder twine to manufacture rope for sale, and sold and delivered rope made of binder twine having a sales value of approximately $3,600 each in violation of General Conservation Order M-84. The partners were aware of the provisions of Conservation Order M-84 and their actions constituted wilful violations thereof. These violations diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.908 *Suspension Order No. S-908.* (a) For a period of two months from the effective date of this order Martin Hanson and Fern Hanson shall not deliver or otherwise dispose of binder or baler twine except in conformance with provisions of Conservation Order M-84, receive or accept delivery of binder or baler twine, process or manufacture any rope made wholly or in part from new binder or baler twine.

(b) Nothing contained in this order shall be deemed to relieve Martin Hanson and Fern Hanson from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions therein.

(c) The restrictions and prohibitions contained herein shall apply to Martin Hanson and Fern Hanson, doing business as Hanson Rope and Halter Company and under any other name, their successors or assigns or persons acting in their behalf. Prohibitions against taking of any action include the taking indirectly as well as directly of any such actions.

(d) This order shall take effect on November 8, 1945.

Issued this 29th day of October 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-909]

THE BOCK CO. AND STOCKMAN'S SUPPLY AND BROKERAGE CO.

H. J. Bockelman, S. M. Bockelman, W. D. Bockelman, G. G. Bockelman and P. J. Bockelman, doing business under the name of The Bock Company and also as Stockman's Supply and Brokerage Company are engaged in manufacturing various types of lariats and ropes in Sioux City, Iowa. During the period from May 7, 1944 to June 15, 1945, they manufactured, sold and delivered rope made from binder twine having a value of approximately $15,000 in violation of Conservation Order M-84. They were familiar with the provisions of M-84 and the violations were wilful and resulted in diversion of critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.909 *Suspension Order No. S-909.* (a) For a period of three months from the effective date of this order, H. J. Bockelman, S. M. Bockelman, W. D. Bockelman, G. G. Bockelman and P. J. Bockelman shall not receive or accept delivery of binder or baler twine, process or manufacture any rope made wholly or in part from new binder or baler twine, nor shall they deliver or otherwise dispose of binder or baler twine except in accordance with the provisions of Conservation Order M-84.

(b) Nothing contained in this order shall be deemed to relieve H. J. Bockelman, S. M. Bockelman, W. D. Bockelman, G. G. Bockelman and P. J. Bockelman from any restrictions, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions thereof.

(c) The restrictions and prohibitions contained herein shall apply to H. J. Bockelman, S. M. Bockelman, W. D. Bockelman, G. G. Bockelman and P. J. Bockelman, doing business as The Bock Company, Stockman's Supply and Brokerage Company, or any other name, their successors and assigns or persons acting in their behalf. Prohibitions against taking of action include the taking indirectly as well as directly of any such action.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, as Amended Nov. 9, 1945]

§ 944.23 *Priorities Regulation 3—(a) Purpose of this regulation.* This regulation states the rules for the use of preference ratings, what kind of purchase orders or services may be rated and how a rating may be put on an order. It also places restrictions on the use of ratings and includes lists of products for which ratings may not be used at all. In general this regulation should be consulted before using a rating whether it was gotten directly from the Civilian Production Administration or from a customer.

(b) *Definitions.* For the purposes of this regulation:

(1) "Person" and "material" mean the same thing they do in Priorities Regulation 1.

(2) "Assignment" of a preference rating. A preference rating is assigned to a person when the Civilian Production Administration or someone that it has authorized issues an order or preference rating certificate giving him the right to use the rating.

(3) "Application" of a preference rating. A preference rating is applied when the person to whom it is assigned uses the rating. A rating is applied also when any governmental agency which is authorized by the Civilian Production Administration rates an order for delivery of material directly to it.

(4) "Extension" of a preference rating. A preference rating is extended when it is used by the person to whom it is applied or extended by another person.

(c) *Use of ratings in general.* (1) When a regulation, preference rating order or preference rating certificate assigns a rating to any person, either by naming him or by describing the class of persons to which he belongs, that person may apply the rating to get delivery of material or the performance of certain services. Also, a person may under certain conditions extend a rating which has been applied or extended to his deliveries of material, but not one applied to services. More detailed rules as to how and when ratings may be applied or extended are set out below in this regulation.

(2) When a Civilian Production Administration order or certificate states the quantities and kinds of material or the particular services which are rated, the person to whom it is assigned may use the rating to get only that quantity and kind of material or that particular service named in the order or certificate. If the quantities of material are not stated in the order or certificate assigning the rating it may be applied only to get the minimum amount needed.

(3) No person may place rated orders for more material than he is authorized to rate even though he intends to cancel some of the orders or reduce the quantity of material ordered to the authorized amount before it is all delivered.

(d) *When AAA or MM ratings may be extended for material.* The following provisions of this paragraph (d) apply to all extensions of AAA or MM preference ratings to get deliveries of material, unless they are modified by or are inconsistent with the provisions of any particular order.

(1) [Deleted Oct. 1, 1945.]

(2) When a person has received a AAA or MM rated order for the delivery of material, he may extend the AAA or MM rating to get the material which he will deliver on that order, or which will be physically incorporated in material which he will deliver, subject to applicable inventory restrictions of the Civilian Production Administration as explained in Priorities Regulation 32. If the material is to be processed, this includes the portion of it which would normally be consumed or converted into scrap or by-products in the course of processing.

(3) If a person has made delivery of material, or has incorporated it into other material which he has delivered on an AAA or MM rated order, he may extend the AAA or MM rating to replace it in his inventory. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the AAA or MM rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the AAA or MM rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace in inventory must be substantially the same as the material which the person delivered or incorporated in the material which he delivered, except for minor variations in size, shape or design.

(4) A person to whom a rating of AAA or MM has been applied or extended to get material may not extend that AAA or MM rating to get any material for his own plant improvement expansion or construction, or to get machine tools or other items which he will carry as capital equipment, or to get business machines for his own use whether purchased or leased, or to get maintenance, repair or operating supplies for his own use.

(d-1) *CC ratings may not ordinarily be extended.* CC ratings may not be ex-

tended by a supplier to get production materials needed to make the item sold to his customer, or to replace in inventory materials used to make the item or to get containers or closures needed to pack the item. A distributor, warehouse, retailer, or other person who resells the item without further fabrication may extend the CC rating where he does not have the item in inventory, but may not extend the rating to replace the item in inventory.

However, when a person has received a CC rated order for the delivery of textile fabric (cotton, rayon, or wool, or their blends), he may extend the CC rating to get the fabric which he will deliver on that order, or the unfinished fabric which he will deliver on it after finishing, subject to applicable inventory restrictions of the Civilian Production Administration as explained in Priorities Regulation 32. If the rating is extended for gray fabric to fill an order for finished fabric, it may include the portion of the gray fabric which would normally be consumed or converted into scrap or by-products in the course of finishing. If a person has made delivery of textile fabric, or has converted gray fabric into finished fabric which he has delivered on a CC rated order, he may extend the CC rating to replace it in his inventory: *Provided*, That if after delivering the fabric he still has a practicable working minimum inventory, he may not extend the CC rating to replace the fabric delivered; and if by making the delivery his inventory is reduced below this minimum, the CC rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any fabric ordered to replace inventory must be made of the same textile fiber (or combination of such fibers), and of the same type of construction and approximate weight as the fabric which such person delivered.

(e) *Additional restrictions upon use of ratings for certain materials.* Because of special circumstances which exist with respect to certain materials and products, the use of preference ratings to get items on List A attached to this regulation is restricted as follows:

(1) *Items as to which preference ratings have no effect; List A.* Any item on List A may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to get any of these items and no person selling any such item shall require a rating as a condition of sale. Any rating purporting to be applied or extended to any such item shall be void and no person shall give any effect to it in filling an order.

(2) [Deleted Oct. 1, 1945.]

(3) [Deleted Oct. 1, 1945.]

(f) *Use of ratings for services*—(1) *Ratings may not be used for personal services.* Preference ratings may never be used to get labor or personal services as distinct from services performed in the course of a regular business involving the use of plant, machinery or equipment owned by the person furnishing the services. For example, ratings may be used to get a repair job done in a repair shop as explained below but may not be used to compel an individual employee to work on a repair job or to obtain the services of a consulting engineer.

(2) *Three cases where ratings may be used for services.* There are only three situations in which a preference rating may be used to get services, as distinct from the production or delivery of material:

(i) *A rating assigned for the purpose.* If the Civilian Production Administration assigns a rating to a named person to get specified services he may use the rating for that purpose.

(ii) *For processing.* When a person has a rating which he may use to get processed material, he may (unless prohibited by another regulation or order) furnish the unprocessed material to a processor and use the same rating to get it processed.

(iii) *For repairs.* Any rating which may be applied to the delivery of specific repair parts or materials may also be applied to the installation of the repair parts or materials or to the repair job alone if it is found that installing the parts or materials is not necessary. However, in the case of ordinary plumbing, heating, electrical, automotive or refrigeration repairs, a rating may not be applied to repair work even if the rating is expressly applicable to repair parts or materials. As used in this subparagraph "repair" means to fix a plant, machinery or equipment after it has broken down or when it is about to break down. "Repair" does not mean upkeep or maintenance service such as periodic inspection, cleaning, painting, lubricating, etc.

(3) *Ratings for services only may not be extended.* A person to whom a rating for services, as distinct from the production or delivery of material, has been applied or extended may not extend the rating for any purpose.

(g) *How to apply or extend a rating.* (1) When a person applies or extends a preference rating he must put the rating (and symbol, if appropriate) on the order together with a certification signed as prescribed in Priorities Regulation 7. He may use the standard certification set out in that regulation, or if he prefers the following:

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the Civilian Production Administration that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this order and that such application or extension is in accordance with Priorities Regulation 3 as amended, with the terms of which the undersigned is familiar.

_____
(Name of Purchaser)

_____
(Address)

By _____
(Signature and Title of Duly Authorized Officer)

_____
(Date)

The person who receives the certification shall be entitled to rely on it as a representation of the buyer unless he knows or has reason to know that it is false.

(4) When a person applies or extends a rating he shall also include on his purchase order or contract any information which may be required by any applicable Civilian Production Administration order.

(5) Each person who applies or extends a rating must keep at his regular place of business all documents including purchase orders and preference rating orders and certificates which authorize him to apply or extend the rating. These documents, orders and certificates must be kept in such a way that they can be readily segregated and furnished to representatives of the Civilian Production Administration for inspection.

(6) When either certification authorized in this paragraph (g) is used it will not be necessary to use any other certification in order to apply or extend a preference rating, nor will it be necessary to furnish a copy of any preference rating order no matter what any regulation, preference rating order or preference rating certificate says unless it expressly states that this regulation does not apply.

(7) No person shall knowingly purport to apply or extend a preference rating to any order unless he is entitled to do so. No person shall apply or extend a rating for material or services after he has received the material or after the services have been performed, and any person who receives such a rating shall not extend it.

(h) *Provisions applicable to extensions; deferment and grouping.* No matter what any applicable preference rating order or certificate may say,

(1) No person may extend any rating to replace inventory after three months have passed from the time he could have first extended it;

(2) When a person has two or more ratings of the same grade which were assigned by different preference rating certificates or orders he may combine them and extend them to one delivery; and

(3) When a person has two or more ratings of different grades, or where they were assigned by the same or different certificates or orders, he may extend them to deliveries under one purchase order. However, the purchase order must show the amount of each material to which a particular grade of rating is extended. If the type and quantity of the material is such that the supplier can readily determine the exact effect of the extension of the rating on his production and delivery schedule from percentage figures alone, then the purchase order may show the amount of the material to which the particular grade of rating is extended on a percentage basis; otherwise, it must be shown as a separate item. In order to avoid production or delivery of material in quantities smaller than the minimum commercially practicable a person may combine ratings of different grades and extend the rating of the lowest grade to the total production or delivery.

(i) *Restrictions in other orders.* When any person applies or extends a rating he shall be subject to any applicable rule or restriction which may be set forth in the order of the Civilian Production Administration which assigns the rating or any other order which regulates transactions in the material or the facilities for which he is using the rating. This includes restrictions as to the kind and amount of material to which ratings may be applied or extended, requirements for written approval of any particular transaction, restrictions on certain uses of material or facilities and any other rules which may be applicable to the particular transaction. However, the rules of paragraph (g) (6) apply unless some other order or certificate expressly says that they do not.

Issued this 9th day of November 1945.

INTERPRETATION 2

EFFECT OF LIST A ON UNFILLED ORDERS

The restrictions on the use of ratings for the items on List A apply to orders for such items which had been placed before the date the item was put on the list but were not yet filled. (Issued Oct. 1, 1945.)

INTERPRETATION 5

RESTRICTIONS OF OTHER ORDERS

(a) *Restrictions of other orders on use of ratings or delivery.* The provisions of paragraph (e) relate only to the items which appear on the list. When any other order of the Civilian Production Administration restricts the use of preference ratings to obtain any product or restricts delivery of a product in any way, those restrictions are applicable even though that product is not listed in Priorities Regulation 3 (§ 944.23).

(b) [Deleted Oct. 1, 1945.]

(Issued Oct. 1, 1945.)

INTERPRETATION 6

EFFECT OF PREFERENCE RATING CERTIFICATE REFERRING TO PRODUCT OF A PARTICULAR MANUFACTURER

(a) When a preference rating certificate in assigning a rating to a product describes the product by its trade name or by the manufacturer's name and catalogue number, the rating may ordinarily be used to get the product from any manufacturer if the model actually obtained is substantially identical in size, operation and function with that named in the certificate.

(b) The rule stated in the preceding paragraph is consistent with the statement in paragraph (c) (2) of Priorities Regulation 3 (§ 944.23), that a preference rating may be applied only to the specific quantities and kinds of material authorized. Ordinarily a reference in a preference rating certificate to a particular product of a particular manufacturer is no more than a shorthand way of describing the product. It is safe to assume, unless the certificate clearly states otherwise, that what is being rated is a certain kind and size of product which may be obtained from any manufacturer who makes that kind and size. If it is intended to confine the rating to a particular product of a particular manufacturer, the certificate should say so explicitly. (Issued Sept. 8, 1943.)

INTERPRETATION 9: Revoked Oct. 1, 1945.

INTERPRETATION 10

USE OF RATING TO OBTAIN LEASED MACHINERY

(a) A preference rating which has been assigned for the delivery of an item of machinery or equipment may be used to lease the equipment as long as the following conditions are fulfilled:

(1) The lease must be a long-term semi-permanent arrangement where both parties contemplate the comparatively permanent installation of the machine or equipment. For instance, a rating could be used to obtain a machine under lease where the lease was for one year, with provision for renewal at the end of each year, and both parties expected that the lease would be renewed from time to time. However, the rating could not be used to obtain a machine for a month's use.

(2) If the rating is limited by specific dollar amount it may be used only to lease machinery or equipment whose fair market value is no greater than the amount specified.

(b) If the instrument assigning the ratings specifies a lease rather than a purchase, it is not necessary to comply with the above conditions. (Issued Oct. 1, 1945.)

INTERPRETATION 11: Revoked Oct. 1, 1945.

INTERPRETATION 12

RECORDS OF EXPORTERS

Paragraph (g) (5) of Priorities Regulation No. 3 requires each person who applies or extends a rating to keep all documents including preference rating orders and certificates which authorize him to apply or extend

the rating at his regular place of business. The Foreign Economic Administration and its predecessors, the Board of Economic Warfare and the Office of Economic Warfare, have assigned preference ratings to exporters for export by endorsing appropriate legends upon export licenses. The original of every export license, however, is required by other government regulations to be surrendered to export officials at the time of shipment. Consequently, persons who receive their assignments of preference ratings on export licenses are not in a position to retain the original of the export license and thus are not required to do so by paragraph (g) (5) except only in those cases where other government regulations do not require the surrender to the government of the documents referred to. However, such persons must keep any copies of the export licenses which are returned to them for their files. (Issued August 24, 1945.)

INTERPRETATION 13

TIME LIMIT ON USE OF RATINGS

Preference ratings may not be extended to replace material in inventory after three months from the time delivery was made to the customer. This is the rule of paragraph (h) (1) of the regulation.

When a rating is being applied (except a blanket rating such as one assigned by CMP Regulation 5) or when any rating is extended for some purpose other than to replace inventory, this may be done only within a reasonable time after the rating was received. Generally speaking, more than three months is deemed to be an unreasonable delay in the use of a rating. In a particular case there may be circumstances which make a reasonable time shorter or longer than three months. For example,

(1) [Deleted Oct. 1, 1945.]

(2) A rating assigned in connection with an export license may be applied as long as the license is valid and expires when the license expires or is revoked. (For explanation of this rule see Interpretation 2, Directive 27.)

(3) When a rating is applied to a long term contract (such as the construction of a ship), it may be extended for material needed to fill the contract, even though more than three months have elapsed.

(4) If the purpose for which the rating was assigned no longer exists, the rating may not be applied even though three months have not elapsed.

(5) When a rating is extended by a person to get material to deliver to his customer, or to incorporate in such material, the time within which it may be done will, in general, be controlled by the delivery date on his customer's order.

The fact that a person has not been able to get his rated order accepted by a supplier does not lengthen the time within which he may use his rating.

Nothing in this interpretation means that any AA rating still has any effect. All AA ratings become ineffective in every respect on September 30, 1945. (Issued Oct. 1, 1945.)

INTERPRETATION 14: Revoked Apr. 23, 1945.

INTERPRETATION 15

REFERENCES IN LIST A TO ORDERS WHICH HAVE BEEN REVOKED

In many items on List A of Priorities Regulation 3 reference is made to specific WPB orders or schedules for a definition of the specific items covered by the lists. Sometimes the order or schedule referred to is revoked without any change in the listing on List A. When one of these orders or schedules is revoked, the listing of the item on List A, nevertheless, remains in full force and effect, and the item as listed on List A has the same meaning as before the revocation of the order. (Issued Oct. 1, 1945.)

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328, Direction 28]

SALES, DELIVERY, AND USE OF CERTAIN RAYON FABRICS AS LININGS IN MEN'S AND BOYS' CLOTHING

The following direction is issued pursuant to Conservation Order M-328:

(a) *Purpose.* This direction restricts the use of rayon twill or serge, 88 to 140 sley, inclusive, to linings for men's or boys' suits, overcoats, topcoats, separate jackets, or trousers, and is needed to assure an adequate supply of linings for this purpose.

(b) *Restrictions on producers.* On and after November 9, 1945, no producer of rayon twill or serge, 88 to 140 sley, inclusive, may sell or deliver such fabrics in the gray state on CC rated or unrated orders except to persons who give the certificate set forth in paragraph (e).

(c) *Restrictions on processing.* On and after November 9, 1945, no finished goods supplier may put into process any rayon twill or serge, 88 to 140 sley, inclusive, to be finished in a manner which makes it unsuitable for use as linings for men's or boys' suits, overcoats, topcoats, separate jackets or trousers.

(d) *Restrictions on delivery of finished goods.* On and after November 9, 1945, no finished goods supplier may deliver on CC rated or unrated orders any finished rayon twill or serge, 88 to 140 sley, inclusive, suitable for use as lining in men's or boys' suits, overcoats, topcoats, separate jackets or trousers, except to persons who give the certificate set forth in paragraph (e).

(e) *Form of certificate to be used.* The following is the form of certificate to be used:

The undersigned certifies subject to the criminal penalties of section 35 (a) of the U. S. Criminal Code, that he will use the material covered by this purchase order as linings for men's or boys' suits, overcoats, topcoats, separate jackets or trousers, or will deliver it only to persons who give this certificate.

Persons giving this certificate may use or dispose of fabrics they get with the certificate only in accordance with its terms. The standard certificate in Priorities Regulation 7 may not be used instead of this certificate.

(f) *Restrictions on manufacturers.* As explained in paragraph (f) of Interpretation 1 to Order M-328B, manufacturers who have been granted priorities assistance under that order must purchase and use materials to make the quantities of the items for which they got priorities assistance before purchasing and using materials for other articles. Under this rule, manufacturers who were assigned CO ratings under Schedule K to Order M-328B for any men's or boys' items on that Schedule (Nos. 14 through 25) must purchase and use materials they get for linings under this direction to make the items for which they got priorities assistance before using them to make any other items of men's or boys' wear.

(g) *Exceptions.* This direction does not apply to orders rated AAA or MM.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Order M-328B, Interpretation 1]

ACCEPTANCE AND FILLING OF RATED ORDERS, AND COMPLETION AND DELIVERIES OF APPAREL

The following interpretation is issued with respect to Order M-328B:

(a) *Purpose.* This interpretation calls particular attention to certain rules concerning the acceptance and filling of rated orders, and their application to orders for textiles assigned CC preference ratings under several schedules to Order M-328B; and also to certain rules requiring apparel manufacturers to complete their operations as rapidly as practicable.

To insure the success of the low price civilian apparel programs provided by the schedules, these rules must be observed. Any person who wilfully violates them, or who, in connection with the rules, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is subject to the penalties referred to in § 944.18 of Priorities Regulation 1 and paragraph (m) of Order M-328B.

Any supplier who has inadvertently failed to comply with these and other applicable Civilian Production Administration rules should immediately take any steps necessary to make his operations conform to them.

(b) *Compulsory acceptance of rated orders.* The rules concerning compulsory acceptance of rated orders (that is, orders carrying an AAA, MM, or CC preference rating) are stated in § 944.2 of Priorities Regulation 1. It must be noted that a rated order which meets the supplier's regularly established prices and terms of sale or payment may not be rejected merely because he would prefer to hold back his goods from sale until a later date when he may hope that tax laws, his OPA ceiling prices, or other factors will change so as to enable him to make a larger profit.

(c) *Offering of goods.* A supplier may not evade the acceptance and filling of rated orders by withholding his production or offerings of low cost goods suitable for low cost apparel.

In addition, when a person who has a rating asks a supplier of textiles to quote his regularly established prices and terms of sale or payment, or the earliest date on which he could make delivery on that rating, the supplier must do so; he may refuse to quote only if he would have the right under the applicable rules, to reject the rated orders and also knows that he will do so if he receives it.

(d) *Rated orders must be given priority over unrated ones.* A rated order must be accepted and filled regardless of existing contracts and orders, in accordance with the rules in § 944.2 of Priorities Regulation 1. For example, if a supplier has accepted an unrated order for fabric and has a rated order served upon him, he may not reject the rated order merely because filling it would require him to use some or all of the fabric which he planned to use to fill the unrated order.

(e) *Customer's required delivery date must be met, if possible.* A supplier must schedule his operations, if possible, so as to fill each rated order by the required delivery or performance date, as explained in § 944.7 of Priorities Regulation 1. If he cannot fill all rated and unrated orders, he must give preference to the rated ones.

(f) *Operations of apparel manufacturers; inventories of manufacturers, mills, converters, and other suppliers.* The attention of apparel manufacturers using ratings under M-328B Schedules is particularly called to the production preference and inventory rules in

paragraphs (f) (2) and (f) (4) of M-328B, and in Priorities Regulation 32. A manufacturer of items within the programs provided for by these schedules must purchase materials for these programs for delivery before materials to be used for items not within the programs, to the full extent necessary to comply with the rule in (f) (2) of M-328B; and must complete the items within the programs in accordance with that rule, even if this results in postponing or delaying production of items not within the programs. A delay in processing material or in making deliveries of completed apparel may involve a violation of Priorities Regulation 32 prohibiting the receipt or accumulation of excessive inventories. This applies equally to suppliers of gray or finished fabrics and manufacturers of apparel not within these programs.

(g) *Other rules.* All of the rules concerning the acceptance and filling of rated orders and the accumulation of excessive inventories, are, of course, not referred to above, and reference must be made to the Priorities Regulations, orders in the M-328 series, and other orders such as L-99, and M-317. The rules specifically referred to are those to which attention is particularly called at this time, in view of their important current application to orders rated CC under the M-328B programs. Some of these rules are qualified to the extent that a special rule, such as that in Direction 7 or Schedule K of Order M-328B, may permit a supplier to reject rated orders in excess of a specified quantity of his receipts or production.

[MPR 580, Amdt. 1 to Gen. Retail Order 3]

COTTON PRODUCTS

An opinion accompanying this Amendment 1 to General Retail Order No. 3 under section 23 of Maximum Price Regulation 580 [1] issued simultaneously herewith has been filed with the Division of the Federal Register.

Section 2 of General Retail Order No. 3 under section 23 of Maximum Price Regulation 580 is amended to read as follows:

SEC. 2. *Ceiling prices for certain cotton products*—(a) *Items covered.* This section covers the pricing of the following articles [2]:

(1) Terry products, huck and crash towels and corded napkins.

(2) Bed linens of types 180, 140, 128 and 112 and the back filled type, and bleached pillow tubing of types 128 and 140.

(3) 100% American cotton bed and crib blankets and blanket-robe cloth.

[1] 10 F.R. 12603.

[2] The articles covered by paragraph (a) are those included in Supplementary Order 131, (10 F.R. 11293).

(b) *Pricing methods.* (1) Except as provided in subparagraph (2), you calculate your ceiling price for any article listed in paragraph (a) by adding the following markup to the net cost of the article you are pricing. ("Net cost" is defined in paragraph (c) (2)).

(i) Article:	*Markup on net cost (percent)*
Terry Products, huck and crash towels and corded napkins	43
(ii) Bed linens of types 180, 140, 128 and 112 and the back filled type, and bleached pillow tubing of types 128 and 140	35
(iii) 100% American cotton bed and crib blankets and blanket-robe cloth	45

(2) If you and all retail sellers which are under common ownership or control with you had in the year 1942 a total sales volume of $100,000 or more for the items covered by a subparagraph of paragraph (a) which includes the article you are pricing, but your "1942 markup" on the article you are pricing and covered by this subparagraph was less than the markup stated for the article in paragraph (b) (1), you calculate your ceiling price for the article by adding to the net cost an amount derived by applying your 1942 markup to that net cost. "1942 markup" is defined in paragraph (c) (1).

(c) *Meaning of terms*—(1) *"1942 markup."* Your 1942 markup on an article is the markup you had in March 1942 for that article. To figure this markup, you (i) find the subparagraph of paragraph (a) in which the article you are pricing is listed; (ii) find the last invoice you received prior to March 31, 1942, for an article [3] in that subparagraph which you delivered in March 1942; (iii) find the difference between the highest price at which you delivered that article in March 1942 and your last "net cost" for that article prior to March 31, 1942; (iv) divide the difference by that "net cost." The result is your "1942 markup."

(2) *Net cost.* The term "net cost" is the cost stated on your supplier's invoice less all available discounts. No freight or similar charge may be added. However, you may include as part of your net cost any "OPA adjustment charge" which is shown on or attached to your invoice.

This amendment shall become effective November 14, 1945.

Issued this 9th day of November 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45-20609; Filed, Nov. 9, 1945; 11:42 a. m.]

[3] In the case of sheets and pillow tubing, an "article" means, for sheets, a sheet of the same type, and for pillow tubing, pillow tubing of the same type.

The provisions carried herein were formerly shown in Section 4 of Supplementary Regulation 14-I [5] to the General Maximum Price Regulation. (b) The term "government loan cotton" means cotton which is subject to a loan made by the United States Government or any agency thereof and which is still subject to redemption of individual notes by individual producers.

[Paragraph (b) amended by Am. 1, 10 F.R. 9590, effective 8-1-45; and Am. 2, 10 F.R. 12689, effective 8-1-45]

(c) The term "government pooled cotton" means cotton which is subject to a loan made by the United States Government or any agency thereof, but which by the terms of the loan may no longer be released by redemption of individual notes, although the original producers may still have an equity in the final proceeds of the sale of such cotton.

(d) The term "government owned cotton" means cotton which is owned by the United States Government or any agency thereof.

(e) The term "shipper cotton" means all cotton not included under the definitions "government loan cotton," "government owned cotton," or "government pooled cotton."

(f) The term "handling in and out" includes services ordinarily incident to receiving cotton for and delivering it from storage, such as weighing, marking, tagging, and sampling, but does not include services for which the particular seller customarily made a separate or different charge during the season from August 1, 1941 to July 31, 1942, in addition to or apart from his charges for receiving and delivering, and does not include penalty charges assessed for the delivery of uncompressed cotton from a warehouse operating compress facilities.

[Paragraph (g) amended by Am. 3, effective 11-14-45]

(h) The term "non-compress facilities" refers to cotton storage and handling services of a warehouse which does not have machinery for compressing cotton or which is specifically authorized by the Office of Price Administration to be classed as a "non-compress facility". Such authorizations will be based upon the customary practices at the particular plant with respect to "government-loan cotton" in the 1941-42 season, or may be made as adjustments under section 8 of Maximum Price Regulation 586.

[Paragraph (h) amended by Am. 1, 10 F.R. 9590, effective 8-1-45 and Am. 3, effective 11-14-45]

(2) Storage of uncompressed cotton in "non-compress" facilities, 20¢ per bale per month or fraction thereof.

[Subparagraph (2) amended by Am. 1, 10 F.R. 9590, effective 8-1-45]

In computing insurance deductions average rates applying to a particular warehouseman and other means of facilitating computations mutually agreed upon by the warehouseman and government may be used.

In computing insurance deductions average rates applying to a particular warehouseman and other means of facilitating computations mutually agreed upon by the warehouseman and the government may be used.

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.[2]

SEC. 2. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall, in the course of trade or business, buy or receive any of the commodities covered by this regulation at a price above the maximum price established by this regulation, nor shall any person agree, solicit, offer, or attempt to do any of the foregoing: *Provided, however,* That this prohibition is subject to the exception provided for in subparagraph (1) of this paragraph.

(1) Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by an order of the Administrator or of any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(b) Prices lower than the maximum prices established by this regulation may be charged or paid.

SEC. 3. *Evasion.* (a) Any method whereby a seller obtains greater consideration than the maximum price, or whereby he gives less than the consideration due the buyer for the maximum price, is an evasion of this regulation, and therefore prohibited, and any offer or agreement which accomplishes or attempts to accomplish such result is equally prohibited. Without limiting the general prohibitions of this section, the following practices are specifically prohibited.

(1) Requiring payment of any commission, service, transportation or other charge not specifically provided for in the regulation;

(2) Receiving any premium not provided for in the regulation;
